Charles Darwin University acknowledges and pays respect to the Elders both past and present of all Indigenous groups upon whose lands CDU campuses and centres are located.

All information contained in this guide is correct at the time of print, but is subject to change as information is reviewed and updated throughout the year. When considering a course, we recommend checking the CDU website for the most up to date information.

Study your way

Online

As one of the first universities in the country to offer its courses online, we have over 15 years' experience in educating students externally – whether you're living in a remote location, or juggling family and work commitments, studying online means you have total flexibility to study when and how it suits you.

An increasingly popular choice for students of all ages, we offer a supportive, responsive and highly personalised learning experience that promises to keep you motivated and engaged – while fitting around your schedule.

Over 100 undergraduate and postgraduate degrees to choose from

On campus

There's more to uni than just lectures and assignments. Some of your most memorable experiences will happen outside the classroom – making friends, joining sports clubs and societies and exploring some of Australia's most dramatic landscapes. From Kakadu, Litchfield, Nitmiluk and Uluru-Kata-Tjuta national parks in the Northern Territory to Sydney's famed beaches.

Studying at CDU's Darwin, Alice Springs, Katherine or Sydney campus means you'll get to enjoy:

- cafés and dining venues
- student lounges
- libraries, including the state-of-the-art learning precinct on Casuarina campus
- modern, fully equipped, air-conditioned gym
- IT kiosk
- sports facilities and covered basketball courts
- art gallery
- book shop
- banking ATM services
- post office
- transport services.

Search for online certificates, diplomas and degrees at cdu.edu.au

Support

University can be challenging. Sometimes it's academically challenging, while other times, challenges in your personal life need to take centre stage. No matter your circumstances, there's support available.

Student Central is your one-stop spot for support and guidance. Here, you can seek advice and assistance on admissions, timetabling, how to enrol, exams, course fees and payments, study plans and scholarships.

Other support services at CDU include:

- counselling
- disability services
- Indigenous student services
- careers and employment services
- academic support programs, workshops, tutorials, and one-on-one consultations.

Accommodation

On campus

- International House Darwin - Located on the Casuarina campus. All CDU Higher Education and VET students are welcome. International House is set within tropical gardens and is a relaxed and vibrant community with students from over 40 countries calling it home.
- Alice Springs Student Accommodation
- Katherine Student Accommodation.

Off campus

- UniLodge - modern accommodation located just 800 metres from CDU's Casuarina campus
- Student Engagement can help you find off campus accommodation options.

Travel

Explore the world while completing your degree for a truly life-changing experience. CDU's vast range of short and long term international study experiences run across North America, Europe and Asia with over 40 partner universities. Generous funding is available to both online and on campus students who are eligible to participate.

"Being an external student who started university a few years later than all of my friends, I wanted to experience student and university life just like everyone else. I wanted to build my self-confidence, to step outside of my comfort zone and push myself to do something exciting and new! I am so glad that I did because living and studying in Worcester has been one of the best decisions I have ever made."

- Tara Hamon, CDU exchange student at the University of Worcester, UK

Study exchange with universities in North America, Europe or Asia.

International study tours and intensives available for certain courses.

Generous funding support available to eligible candidates.

Flexible entry pathways

We understand that the pathway into uni isn't always straight forward, and we're here to help you navigate the road to study. That's why we offer flexible entry options into our undergraduate degrees, including:

An Australian Tertiary Entrance Rank (ATAR) of 60 or higher.

A VET or TAFE award of certificate IV or higher.

A Special Tertiary Admissions Test (STAT) score of 135.

Successful completion of at least one semester of full-time study of a uni degree or diploma.

Successful completion of a CDU enabling program or other recognised tertiary preparation course.

Experience base entry.

We also recognise experience in the school of life. So if you don't have any of the above, but do have plenty of experience working in a relevant industry, you can submit a personal competencies or employment experience statement which may enable you to meet the entry requirements of your degree.

Note: Some courses may have higher admission entry requirements, to find out more visit CDU's website.

ALREADY STUDIED WITH CDU?

If you've previously completed Vocational Education and Training (VET) certificate IV or higher, Tertiary Enabling Program or undergraduate degree with CDU, you can apply for a place in a CDU undergraduate course via MyNextCourse. Applying directly to CDU through MyNextCourse (rather than SATAC) means you can skip steps 2 and 3 of the application process, avoid the SATAC application fee, and receive your offer sooner.

If this sounds like you, go to MyNextCourse on the CDU website.

How to apply

Find out your course code

If you haven't already, visit the CDU website to get information on your chosen course, such as course codes and study options.

W: cdu.edu.au

Register with SATAC

Most higher education applications for CDU go through the South Australian Tertiary Admission Centre (SATAC), so the next step to get your application underway is to visit the SATAC website, click on either 'Undergraduate' or 'Postgraduate', and then click on 'Apply' to register.

Once you have completed your registration, SATAC will send you an email with a link to access your online application.

W: satac.edu.au

Complete your application

Follow the link in the email from SATAC to complete your application, and remember to save your progress after each section. SATAC can access most of your study records, but if not they might request further information from you. To be considered in the main offer round there are key dates you should be aware of.

Accept and enrol

If your application is successful, you'll receive your offer via email from CDU which will include instructions on how to enrol in your units.

Choosing a course

This guide details the undergraduate and postgraduate courses on offer at CDU in 2020.

Courses are offered in the study areas of:

- Aboriginal and Australian Studies
- Architecture, Building, Design and Planning
- Art and Design
- Business and Economics
- Computing and Information Technology
- Education and Teaching
- Engineering
- Environmental Studies
- Humanities and Social Sciences
- Law and Legal Studies
- Medicine and Health
- Science and Mathematics
- Tertiary Enabling Programs.

Each course is a unique mix of components and varies not only in terms of subject units, but also how it is taught: CDU offers online and on campus study options, which gives you a great deal of choice as to how, when and where you study. Other things to consider are course duration, which semester different subjects are taught in and the career paths that different degrees can lead to.

What should I study?

There are many factors to consider when you are deciding on what to study. Think about what you like to do. What you enjoy you tend to be good at, and students who enjoy their subjects tend to do well at university. Take time to browse this brochure, and consider all the options.

Application FAQs

Q What is the difference between applying and enrolling?

Applying is the first step you need to take to gain a place in a Higher Education course. Once you have received an offer for admission into a course, you will receive information on enrolling in your course and units.

Q When do I need to apply?

The application closing dates change from year to year, depending on the start date of each semester. Generally you can apply right up to the week before classes start, but don't leave it to the last minute! You should apply at least by the SATAC cut-off dates to give yourself the best chance and to allow time for your application to be processed and for you to enrol in your classes.

Q Do I have to pay an application fee when I apply for a course?

If you are applying to study with CDU through SATAC you will be required to pay an application fee.

Q Who can apply for a scholarship?

Scholarships are not just for high achievers. Anyone who is studying at CDU can apply for a scholarship as long as you meet the scholarship's eligibility criteria.

Q How do I apply for credit transfer?

Applying for credit towards a CDU course can only be requested once you have applied for a course and accepted an offer to study with us. Once you accept an offer, complete the application for Credit Transfer and supply the required documentation.

Enabling courses

Tertiary Enabling Program (TEP)

COURSE CODE – ZTEP01
Alice Springs, Casuarina, Sydney, Online

DURATION – 0.5 years full time, 1 year part time

DOMESTIC INTAKE – Semester 1, Semester 2

ABOUT THE COURSE

The Tertiary Enabling Program (TEP) is a free program that helps build your academic skills, knowledge and confidence for studying at university. You will develop the skills and strategies for managing university life and study.

Key study areas include computing for tertiary study, academic language and learning, foundation maths, bioscience, and historical and contemporary issues.

TEP is for you if:

- it has been awhile since you last studied and you feel like you need to refresh your skills
- you did not achieve an adequate Australian Tertiary Admission Rank (ATAR) or equivalent
- you have not completed other eligible qualifications that meet the minimum entry requirements for an undergraduate course at CDU.

TEP is free for Australian and New Zealand citizens, permanent residents and Humanitarian Visa holders. You can study on campus or online, full time or part time, to fit in with work, family and other commitments.

ENTRY REQUIREMENTS

The Tertiary Enabling Program (TEP) is designed specifically for mature age students. You must be over 18 years of age prior to the start of the semester to be eligible for the program.

All applicants must complete an online written diagnostic task that will be used to determine their eligibility for entrance.

HOW TO APPLY

You need to apply directly through CDU. For more information, contact us by phone or email, or explore our website:

T: 1800 061 963

E: student.central@cdu.edu.au

W: cdu.edu.au/tep

Preparation for Tertiary Success 1

COURSE CODE – ZPTS11
Casuarina, Desert Peoples Centre in Alice Springs

DURATION – 1 year full time, 2 years part time

DOMESTIC INTAKE – Semester 1, Semester 2

Preparation for Tertiary Success 2

COURSE CODE – ZPTS21
Casuarina, Desert Peoples Centre in Alice Springs

DURATION – 0.5 years full time, 1 year part time

DOMESTIC INTAKE – Semester 1, Semester 2

ABOUT THE COURSE

Preparation for Tertiary Success is a tertiary enabling course providing Aboriginal and Torres Strait Islander students with a culturally supported pathway to university readiness. The course integrates Indigenous and Western knowledges and the development of lifelong learning skills such as: coping with change, making meaningful links, asking critical questions, expressing creativity, strengthening learning relationships, building resilience, and developing strategic learning awareness.

This program introduces you to the culture of higher education and builds the academic skills needed to achieve success in your studies.

This course is for you if:

- you identify as Aboriginal or Torres Strait Islander
- you have not completed year 12
- you have completed year 12 but did not receive the required ATAR score
- you have completed a certificate III or IV course or can demonstrate sufficient skills and knowledge to undertake studies
- if you have not studied for a long time and want to refresh your academic skills.

ENTRY REQUIREMENTS

All applicants must complete the diagnostic task. To be eligible, you must be at least 18 years old and of Aboriginal or Torres Strait Islander descent. You will need year 10 or year 11 standard. If you are a mature person without year 10 or 11, you can apply based on your skills and experience. Please refer to the Preparation for Tertiary Success Program for more information on admission requirements.

HOW TO APPLY

Undergraduate courses

Bachelor of Applied Social Science

SATAC CODE – 104311

Casuarina, Online

SATAC CODE – 144091

Batchelor (only available to Indigenous students)

DURATION – 3 years full time, 6 years part time

DOMESTIC INTAKE – Semester 1, Semester 2

ABOUT THE COURSE

The Bachelor of Applied Social Science is a specialised course that explores the connection between Indigenous knowledge systems and western culture. This is done by focusing on both theory and practice. Concepts of Aboriginal and Torres Strait Islander responsibilities of leadership and community are researched and explored in detail. Through a process of transformative learning, you will develop and demonstrate knowledge of practices that promote advocacy and empowerment for Aboriginal and Torres Strait Islander people and communities.

During this course, you'll learn about Indigenous social policy, resource management and community action.

You will learn how to work within broader society as an active and culturally-capable agent of change, and apply what you learn in a culturally-informed and respectful manner.

CAREER OPPORTUNITIES

Graduating with a Bachelor of Applied Social Science may lead to career opportunities in government, non-government organisations (NGOs), private companies and community groups in roles such as administration, community advisor, mediator, project manager, consultant or researcher.

Bachelor of Indigenous Languages and Linguistics

SATAC CODE – 104321

Casuarina, Online

SATAC CODE – 144101

Batchelor (only available to Indigenous students)

DURATION – 3 years full time, 6 years part time

DOMESTIC INTAKE – Semester 1, Semester 2

ABOUT THE COURSE

The Bachelor of Indigenous Languages and Linguistics is a unique course that informs and engages Indigenous and non-Indigenous people in language and culture. It builds your theoretical and practical knowledge and skills so you can engage in culturally-informed and accountable Indigenous language work.

During the course, you will learn about the linguistic skills and knowledge needed for appropriate and culturally-sensitive language documentation, analysis, maintenance and revival.

You will have the opportunity to develop basic language skills in an Indigenous language (eg Yolngu or Arrernte) and learn how language (and language learning) exists within cultural and social understandings and practices.

This course prepares you for Indigenous language related work, further study and research in the fields of language learning and teaching, linguistics, and Indigenous language planning and policy at local and national levels. It will give you skills to help enable effective and equitable engagement between Aboriginal and Torres Strait Islander cultures and languages and the broader Australian community.

CAREER OPPORTUNITIES

Graduating from this course may lead to opportunities to work in government, communities and non-government organisations (NGOs). You may pursue work in language centres, schools, training organisations, maintenance and revitalisation projects.

Associate Degree of Applied Social Science

SATAC CODE – 115091
Casuarina, Online

SATAC CODE – 145011
Batchelor (only available to Indigenous students)

DURATION – 2 years full time, 4 years part time

DOMESTIC INTAKE – Semester 1, Semester 2

ABOUT THE COURSE

The Associate Degree of Applied Social Science explores the connection between Indigenous knowledge systems and western culture.

These specialised fields of study prepare you for professional and/or further study or research that can contribute to, and further develop, effective and equitable engagement between Aboriginal and Torres Strait Islander cultures and the broader Australian community.

You focus on the theoretical concepts and practices of Aboriginal and Torres Strait Islander traditional owners promoting accountable leadership, advocacy and empowerment for people and communities to help them reach their goals for effective participation in modern Australian social, cultural and economic life. Key areas you will focus on include: Indigenous social policy, Indigenous resource management and Indigenous community action.

You will demonstrate an ability to work within broader society as an active and cultural agent of change, applying what you learn in a culturally informed and respectful manner.

CAREER OPPORTUNITIES

Graduating from this course may lead to various career opportunities in government, non-government organisations (NGOs), private companies and community groups in roles such as administration, community advisor, mediator, project manager, consultant or researcher.

Associate Degree of Indigenous Languages and Linguistics

SATAC CODE – 115101
Casuarina, Online

SATAC CODE – 145021
Batchelor (only available to Indigenous students)

DURATION – 2 years full time, 4 years part time

DOMESTIC INTAKE – Semester 1, Semester 2

ABOUT THE COURSE

As a student, you will develop sound theoretical and practical knowledge and skills to engage in culturally informed and accountable Indigenous language work.

During the course, you will build on the linguistic skills and knowledge needed for appropriate and culturally sensitive language documentation, analysis, maintenance and revival.

You will also have the opportunity to develop skills in speaking an Indigenous language (eg Yolngu or Arrernte) and learn how language (and language learning) exists within cultural and social understandings and practices.

You will have the skills and confidence to move into professional roles and further study in the fields of language and linguistics, and in Indigenous language planning and policy at local and national levels. Your skills will also prepare you for effective and equitable engagement between Aboriginal and Torres Strait Islander cultures and languages and the broader Australian community.

CAREER OPPORTUNITIES

Graduating from this course may lead to opportunities to work in government, communities and non-government organisations (NGOs). You may pursue work in language centres, schools, training organisations, maintenance and revitalisation projects.

Diploma of Aboriginal and Torres Strait Islander Knowledges

SATAC CODE – 116091
Casuarina, Online

SATAC CODE – 146031
Batchelor (only available to Indigenous students)

DURATION – 1 year full time, 2 years part time

DOMESTIC INTAKE – Semester 1, Semester 2

ABOUT THE COURSE

This diploma focuses on empowering Aboriginal and Torres Strait Islander people (and those who work with them) to act as advocates for people and communities to reach their goals for cultural maintenance and equitable participation in modern Australian social, cultural and economic life.

You will engage with concepts and professional practices based on an understanding of Indigenous knowledge systems and explore the theory and knowledge from the rich cultural traditions and modern social experiences of Indigenous peoples in Australia.

The course focuses on ensuring you have the confidence to demonstrate what you learn in a culturally informed and respectful manner.

CAREER OPPORTUNITIES

Graduating from this course may lead to career opportunities to work with Aboriginal and Torres Strait Islander people, organisations and communities, government departments and agencies, or private enterprises that are involved in Indigenous affairs.

Diploma of Creative and Indigenous Writing

SATAC CODE – 116101
Online

SATAC CODE – 146051
Batchelor (only available to Indigenous students)

DURATION – 1 year full time, 2 years part time

DOMESTIC INTAKE – Semester 1, Semester 2

ABOUT THE COURSE

The Diploma of Creative and Indigenous Writing will strengthen your skills in using writing to express yourself creatively and is an opportunity to learn something new without committing to a full degree.

In this course, you will develop your writing style in a variety of genres, and strengthen your knowledge of Indigenous expressive culture through an understanding of Indigenous and non-Indigenous writing traditions.

The course introduces you to creative literature in key areas, such as short story writing, poetry, writing for stage and short film, and personal narratives.

You will focus on how Indigenous peoples in Australia and elsewhere use these genres as tools to share stories about their history, and how the modern world impacts culture in a dominant non-Indigenous society.

CAREER OPPORTUNITIES

Graduating with a Diploma of Creative and Indigenous Writing may lead to career opportunities in creative industries including arts, media, communication and performing arts, education and academia.

Diploma of Indigenous Employment

 SATAC CODE – 116231 Casuarina, Online
 DURATION – 2 years part time
 DOMESTIC INTAKE – Semester 1, Semester 2

ABOUT THE COURSE

This course explores the concepts and professional practices that support developing a better understanding of the factors surrounding Indigenous people’s engagement in employment (particularly in the public sector workforce).

You will develop specific skills relevant to Indigenous peoples engagement in a public sector work environment, retention, workplace support and development. Issues that surround the contexts of Indigenous peoples participation in employment are addressed in ways that respect people’s cultures, worldviews and socioeconomic status.

Your studies focus on ensuring you can demonstrate what you learn in a culturally informed and respectful manner.

CAREER OPPORTUNITIES

Graduating from this course may lead to career opportunities to work with Aboriginal and Torres Strait Islander people, organisations and communities, government departments and agencies or private agencies and businesses that are involved in Indigenous affairs.

Diploma of Indigenous Language Work

 SATAC CODE – 116111 Casuarina, Online
 SATAC CODE – 146041 Batchelor (only available to Indigenous students)
 DURATION – 1 year full time, 2 years part time
 DOMESTIC INTAKE – Semester 1, Semester 2

ABOUT THE COURSE

The Diploma of Indigenous Language Work will develop the necessary basic linguistics skills and knowledge for you to take part in appropriate and culturally sensitive documentation, analysis, maintenance and revival of Indigenous languages.

People who have previously worked on language in their community will benefit from engaging in the various topics included in this degree and further their linguistic competence to work confidently on their individual language projects.

This course may constitute the first level and a possible pathway into more linguistically comprehensive degrees, that is, the Associate Degree of Indigenous Languages and Linguistics (XINLL1) or the Bachelor of Indigenous Languages and Linguistics (WINLL1).

CAREER OPPORTUNITIES

Graduating from this course may lead to a career in roles where a qualification in Indigenous language work is relevant, eg language centres, schools, training organisations, maintenance and revitalisation projects.

Diploma of Indigenous Research

 SATAC CODE – 116241 Casuarina, Online
 DURATION – 1 year full time, 2 years part time
 DOMESTIC INTAKE – Semester 1, Semester 2

ABOUT THE COURSE

Want to base your research on Australian Indigenous knowledges? Ready to make a positive change for both Indigenous and non-Indigenous Australians through collaborative research?

The Diploma of Indigenous Research is an opportunity for you to build on the profound depth of research knowledge that already exists with the traditions of Indigenous people within Australia.

Indigenous people have extensive experience in research, both as participants and leaders of research initiated within and by universities and other agencies, but also as leaders of research work based within the knowledge foundations of their own cultural and philosophical traditions.

This course focuses on promoting knowledge and cultural tradition research in Indigenous groups and its positive contributions to both Indigenous and non-Indigenous society. It also aims to open up the knowledge-making spaces between the western academy and Indigenous knowledge academies to explore new and generative research methodologies that can emerge from genuine and equal collaboration.

This course targets Indigenous students, however, non-Indigenous students with suitable experience may apply.

CAREER OPPORTUNITIES

You will graduate with the knowledge and skills that are useful for research with Aboriginal and Torres Strait Islander people, organisations and communities, government departments and agencies or private agencies and organisations that are involved in Indigenous research.

Diploma of Yolngu Studies

 SATAC CODE – 116221 Casuarina, Online
 DURATION – 1 year full time, 2 years part time
 DOMESTIC INTAKE – Semester 1, Semester 2

ABOUT THE COURSE

Want to learn an Indigenous language distinct to northern Australia? This unique course introduces you to traditional knowledge practices of Yolngu people in northern Australia, and the sounds and grammar of their languages.

You will develop your skills in analysis and discussion of Yolngu narratives, both oral and written forms in Yolngu languages as well as an understanding of the variety of ways in which ethical behaviour and protocols govern the interactions with people and how knowledge is used and shared.

CAREER OPPORTUNITIES:

Your qualification will complement professional positions and may lead to career opportunities in policy development, health and education, public servant roles, research and other roles not just in Yolngu communities.

Bachelor of Design

SATAC CODE – 114161
Casuarina

DURATION – 3 years full time, 6 years part time

DOMESTIC INTAKE – Semester 1, Semester 2, Summer Semester

ABOUT THE COURSE

The Bachelor of Design is a stepping stone to a career in building design or architecture.

This versatile degree explores the concepts and theories of architecture, interior design and construction, with a particular focus on tropical environments.

You will develop theoretical and practical skills in designing the built environment, buildings and their surrounds. You'll also learn to use computer-aided design (CAD) programs to prepare designs and working drawings.

If you want to ultimately become an architect, this course can be a pathway to more specific qualifications in architecture.

Note: This course is due to be re-accredited for 2020 and you should check the CDU website for availability and updated course information.

CAREER OPPORTUNITIES

The skills you gain in the Bachelor of Design will prepare you to fulfil roles in architecture, interior design and the broader design and construction fields. You may also use this degree as a pathway to further study to qualify as a registered architect.

Bachelor of Creative Arts

SATAC CODE – MUSIC – 104581
Casuarina, Online

SATAC CODE – SCREEN AND NEW MEDIA PRODUCTION – 104561
Casuarina, Online

SATAC CODE – VISUAL ARTS – 104571
Casuarina, Online

DURATION – 3 years full time, 6 years part time

DOMESTIC INTAKE – Semester 1, Semester 2

ABOUT THE COURSE

Ready to turn your passion for art into your career? The Bachelor of Creative Arts will help you achieve your dream.

Music

You will develop skills and knowledge in musical areas such as piano, voice production and guitar in two specialised areas, classical music or contemporary music. A third study area also offers a combination of the two meaning you can experiment with both genres.

You will have opportunities to participate in community projects with our partners, the Darwin Symphony Orchestra (DSO), the Darwin Festival and the Centre for Youth and Community Music (CYCM).

If you are interested in studying the Music major, we recommend you possess Grade 4 Australian Music Examinations Board (AMEB) Practical and Theory. Contact the College of Indigenous Futures, Arts and Society after applying for auditioning.

Screen and New Media Production

Your studies focus on screen industry craft, knowledge and skills in film, television, digital media production and graphics/media design.

You will develop your skills and knowledge in conceptual, theoretical and historical understanding and apply it to a broad range of screen and new media design projects.

With access to digital media production hardware, facilities and the latest industry software, you are exposed to professional practices, processes and protocols. You will build a valuable portfolio of creative work and will also be encouraged to get practical industry practice while you study.

Visual Arts

In this course, you will develop practical skills and knowledge in-studio and in key areas in painting, printmaking, digital media, sculpture and drawing, developing the critical tools and material skills necessary to build your art career.

You will learn alongside practising artists and leaders in the creative industry, plus you will be exposed to the local and national art community with opportunities to participate in projects with our partners including exhibitions and public programs with Nan Giese Gallery, the CDU Art Gallery and Collection.

Applicants interested in the Visual Arts major should contact the College of Indigenous Futures, Arts and Society by email IFASadmin@cdcu.edu.au after applying to obtain further information regarding submission of a portfolio of creative works.

Honours

The Bachelor of Creative Arts and Industries (Honours) is available for entry to suitable candidates with a Bachelor of Creative Arts with at least a credit average (GPA of 5.00) with a view to postgraduate study.

CAREER OPPORTUNITIES

Music

Graduating from this course may lead to career opportunities as a musician, stage manager, producer, editor, singer, music research, film and community performance.

Screen and New Media

Graduating from this course may lead to career opportunities in independent organisations, government and private companies in areas such as film production, directing, stagehand, stage manager, editing, writing, consulting or designing.

Visual Arts

Graduating from this course may lead to career opportunities as independent practitioners, curators, writers or exhibition coordinators for ARIs, commercial, regional and national galleries and project managers for artistic events and festivals.

Bachelor of Accounting / Diploma of Laws

SATAC CODE – 184041 Waterfront Darwin, Online
SATAC CODE – 164061 Sydney
DURATION – 3 years full time, 6 years part time
DOMESTIC INTAKE – Semester 1, Semester 2

ABOUT THE COURSE

The Bachelor of Accounting/Diploma of Laws is a unique course that prepares you to qualify as an accountant and teaches you about the legal issues affecting accounting practices. The course is an opportunity to gain two qualifications in three years (if you study full time) and expand your career prospects as a more sought after accountant in the corporate world.

The Bachelor of Accounting will give you the employment and professional skills you need in a rapidly changing business environment. You'll learn about financial accounting, management accounting, auditing, taxation, business law, corporate law, and finance. The course also develops your communication, presentation and problem-solving skills.

The Diploma of Laws is designed to give you an understanding of the law, without committing to a full law degree. You'll gain a broad understanding of how the legal system and legal processes impact corporate accounting. During the course, you'll choose from a range of specialist units in law, so you can tailor your studies to suit your accounting interests and career goals. On completing the diploma, you can apply to study a Bachelor of Laws and transfer credits for the units you have completed, so you can finish your degree faster.

PROFESSIONAL RECOGNITION

On graduating, you'll be eligible to apply for membership of CPA Australia, The Chartered Accountants Australia and New Zealand (CAANZ), and The Chartered Institute of Management Accountants in the U.K.

CAREER OPPORTUNITIES

Completing a Bachelor of Accounting/Diploma of Laws dual qualification can lead to a wide range of career opportunities in small, medium and large organisations. An accountant with knowledge of the law is better equipped to handle legal issues relating to money.

As a dual qualification graduate, you may become a financial accountant, management accountant, financial auditor, tax auditor/preparer, business financial analyst, or work in a large multinational company or 'Big Four' accounting firm. Or, you could run your own businesses, work in a small local accounting firm, or work in other areas of business management. There can be other career opportunities due to the combination of knowledge of accounting and law putting you in a unique advantage which a single qualification otherwise cannot offer.

Bachelor of Accounting

SATAC CODE – 184021 Waterfront Darwin, Online
SATAC CODE – 164031 Sydney
DURATION – 3 years full time, 6 years part time
DOMESTIC INTAKE – Semester 1, Semester 2, Summer Semester

ABOUT THE COURSE

The Bachelor of Accounting prepares you with professional skills to become an accountant or work in a range of roles that rely on accounting knowledge.

The course develops your communication, presentation and problem-solving skills. You'll learn about financial accounting, management accounting, auditing, taxation, business law, corporate law, and finance.

You can also choose to study business units to complement your personal interests and career options. Or, you may choose electives from other areas, including language studies, anthropology, history, social science, indigenous studies, applied science and engineering.

PROFESSIONAL RECOGNITION

As a graduate of the Bachelor of Accounting, you'll be eligible to apply for membership of CPA Australia, The Chartered Accountants Australia and New Zealand (CAANZ), and The Chartered Institute of Management Accountants in the U.K.

CAREER OPPORTUNITIES

Completing a Bachelor of Accounting can lead to a wide range of career opportunities in small, medium and large organisations. As a graduate, you may become a financial accountant, management accountant, financial auditor, tax auditor/preparer, financial/business analyst, or work in a large multinational company or 'Big Four' accounting firm. Or, you could run your own businesses, work in a small local accounting firm, or work in other areas of business management.

Bachelor of Business

SATAC CODE – 184031 Waterfront Darwin, Online
SATAC CODE – 164041 Sydney
DURATION – 3 years full time, 6 years part time
DOMESTIC INTAKE – Semester 1, Semester 2, Summer Semester

ABOUT THE COURSE

The Bachelor of Business provides you with the skills and knowledge necessary for a successful career in the dynamic world of business.

This program imparts practical knowledge and understanding in the range of marketing, management, accounting, law and economics disciplines that are essential for a successful business career. The study modules reflect the demands of contemporary business and include topics such as e-commerce in the global business environment, strategic planning, international marketing, business ethics and many others. During your studies, you will develop skills in communication, presentation and problem solving, and learn how to apply key theories and practices to real-life business situations.

The Bachelor of Business offers you the flexibility to choose subjects that interest you most. You can tailor your study plan to match your future career path, which we help shape over the duration of your studies. You can study on campus in Darwin or Sydney, or online from anywhere in the world.

CAREER OPPORTUNITIES

The Australian Government predicts strong industry demand for business degree graduates from a wide range of sectors. As a Bachelor of Business graduate, you will be qualified to pursue a range of exciting domestic and international career opportunities, which include business planning and management, brand management, marketing, market research, business analysis, e-commerce, human resource management, and many others.

Bachelor of Computer Science/Master of Information Technology

-  **SATAC CODE** – 104492
Casuarina, Online
-  **DURATION** – 5 years full time, 10 years part time
-  **DOMESTIC INTAKE** – Semester 1, Semester 2

ABOUT THE COURSE

The Bachelor of Computer Science/Master of Information Technology focuses on developing your skills and knowledge in a specialised area of your choice in information technology.

As a computer science specialist, your role will be to continue to not only improve technologies vital to the modern world but also educate your community about their importance.

You will develop skills and knowledge in the principles and applications of computer science as well as strengthen your problem solving, decision making and communication skills making you a confident and competent candidate for your dream job.

During your master's studies, you will focus on three information technology specialisations; software engineering, cyber security, information systems and data science, so you can follow your interests in related fields.

PROFESSIONAL RECOGNITION

This course is designed to meet the accreditation requirements of the Australian Computer Society (ACS) at Professional Level. This course is also designed to meet the European Quality Assurance Network for Informatics Education (EQANIE) accreditation requirements at master's level.

CAREER OPPORTUNITIES

Graduating from this course may lead to career opportunities as a computer scientist in government, private companies and non-government organisations (NGO) as a web designer and developer, games developer, networking and application developer, analyst, consultant, UX specialist, programmer, SEO specialist, database administrator and business analyst.

Bachelor of Computer Science

-  **SATAC CODE** – 104491
Casuarina, Online
-  **DURATION** – 3 years full time, 6 years part time
-  **DOMESTIC INTAKE** – Semester 1, Semester 2

ABOUT THE COURSE

The Bachelor of Computer Science will prepare you to be part of a continually evolving and diverse field, developing new applications and systems to improve the modern world.

You will develop skills and knowledge in the technical principles and applications of computer science as well as strengthen your problem solving, decision making and communication skills making you a confident and competent candidate for a role in the IT industry.

PROFESSIONAL RECOGNITION

The Bachelor of Computer Science is accredited by the Australia Computer Society at the level of professional practice in ICT and therefore recognised internationally under the Seoul Accord.

CAREER OPPORTUNITIES

Graduating from this course may lead to career opportunities as a computer scientist in government, private companies and non-government organisations in areas such as web design and development, games developer, networking and application development, analyst, consultant, UX specialist, programmer, SEO specialist, database administrator, or business analyst.

Bachelor of Information Technology

-  **SATAC CODE** – 104601
Casuarina, Online
-  **SATAC CODE** – 164051
Sydney
-  **DURATION** – 3 years full time, 6 years part time
-  **DOMESTIC INTAKE** – Semester 1, Semester 2, Summer Semester

ABOUT THE COURSE

The Bachelor of Information Technology will prepare you to be responsible for more than just systems or software; you will be developing creative and innovative technologies for the modern world.

Throughout your studies, you will develop knowledge and skills in areas such as web design and development, networking, application development and systems.

You will also be encouraged to be an open-minded problem solver, a creative thinker as well as an engaging communicator, which will help progress your career in the IT industry.

Study opportunities are also provided to assist students to undertake sought-after industry modules, including Cisco and Microsoft certificates.

PROFESSIONAL RECOGNITION

Graduates are eligible for membership of the Australian Computer Society (ACS) at Professional Level.

CAREER OPPORTUNITIES

Graduating from this course may lead to career opportunities as an information technology specialist in government, private companies and non-government organisations (NGO) as a web designer and developer, networking and application developer, system analyst, consultant, programmer, SEO specialist, database administrator and project manager.

Associate Degree of Information and Communication Technology

-  **SATAC CODE** – 115111
Casuarina, Online
-  **DURATION** – 2 years full time, 4 years part time
-  **DOMESTIC INTAKE** – Semester 1, Semester 2, Summer Semester

ABOUT THE COURSE

The Associate Degree of Information and Communication Technology (ICT) will prepare you to be part of a rapidly evolving field and continually develop new applications to enhance the world we live in.

You will develop your knowledge of the principles and applications in the ICT field and strengthen your personal skills in areas such as problem-solving, decision making, effective communication and teamwork.

This course was developed in consultation with and is supported by ICT industry leaders and directly aligns with industry requirements.

CAREER OPPORTUNITIES

Graduating from this course may lead to career opportunities as an information technology specialist in government, private companies and non-government organisations (NGO) as an analyst, technician, web designer, developer or systems administrator.

Associate Degree of Network Engineering

-  **SATAC CODE** – 115121
Casuarina, Online
-  **DURATION** – 2 years full time, 4 years part time
-  **DOMESTIC INTAKE** – Semester 1, Semester 2, Summer Semester

ABOUT THE COURSE

The Associate Degree of Network Engineering will provide you with the skills, knowledge and confidence required to design, operate and maintain networks that play a crucial role in the infrastructure of industry and government organisations.

Study opportunities are also provided to assist students to undertake sought-after industry modules, including Cisco and Microsoft certification.

This course was designed in consultation with and is supported by network engineering industry leaders.

CAREER OPPORTUNITIES

Graduating from this course may lead to various career opportunities including roles as a technician, helpdesk support and network and systems administrator.

Diploma of Network Engineering

-  **SATAC CODE** – 116121
Casuarina, Online
-  **DURATION** – 1 year full time, 2 years part time
-  **DOMESTIC INTAKE** – Semester 1, Semester 2, Summer Semester

ABOUT THE COURSE

The Diploma of Network Engineering will prepare you for entry-level network engineering roles by providing the skills and knowledge required to design, operate and maintain networks that play a crucial role in the infrastructure of industry and government organisations.

Your coursework will cover key areas of network engineering, including data networks and their implementation. You will combine academic studies with practical experience allowing you to further develop your skill set and providing you with the opportunity to stand out from the crowd in a competitive industry.

You can also use this qualification to move into our other degree programs such as the Bachelor of Information Technology or Bachelor of Software Engineering Honours.

Study opportunities are also provided to assist students to undertake sought-after industry modules, including Microsoft certification.

CAREER OPPORTUNITIES

Graduating from this course may lead to entry-level roles in network systems, helpdesk support, information technology and telecommunications.

Bachelor of Education Early Childhood Teaching

-  **SATAC CODE** – 104191
Casuarina, Online
-  **SATAC CODE** – 144081
Batchelor (only available to Indigenous students)
-  **DURATION** – 4 years full time, 8 years part time
-  **DOMESTIC INTAKE** – Semester 1, Semester 2, Summer Semester

ABOUT THE COURSE

The Bachelor of Education Early Childhood Teaching is an innovative course that prepares you to become an early childhood teacher and/or a primary school teacher. This gives you flexible and versatile employment options.

During the course, you explore issues, concepts and practices which are common and specific to both early childhood education (including before school settings) and primary school education.

You'll learn about:

- play and learning sciences
- language and literacy
- preparation for teaching
- health and physical education
- science in education
- technology and design for education
- curriculum and programming
- maths
- leadership and advocacy in early childhood contexts
- humanities, social science and the environment.

This unique teacher education course offers two career options for graduates. It is an initial-teacher education qualification that encompasses working with children from birth to age 12 in both early childhood settings and primary schools. The course is designed to:

- develop professional knowledge and skills for teaching children from birth to 12 years

- prepare you for new and changing educational roles in early childhood and primary schools
- develop your skills as a reflective teacher
- explore the connection between theory and practice in early childhood and primary school education
- ensure continuing awareness of the environmental and cultural influences on teaching and learning in early childhood and primary schools
- better understand the needs of learners and communities with diverse linguistic and cultural orientations, including Indigenous learners.

Note: This course is due to be re-accredited for 2020 and you should check the CDU website for availability and updated course information.

PROFESSIONAL RECOGNITION

This course has been accredited through the Teacher Registration Board of the Northern Territory. It is consistent with the standards established by the Australian Institute for Teaching and School Leadership for the Accreditation of Initial Teacher Education Programs in Australia.

This program is approved with the Australian Children's Education and Care Quality Authority (ACECQA). On graduating, you will be recognised as an Early Childhood Teacher by ACECQA.

On graduating from this course, you will be eligible to register as a teacher and teach in schools across all Australian State and Territory jurisdictions (subject to meeting other eligibility criteria, such as National Literacy and Numeracy test for Initial Teacher Education as per Teacher Registration Requirement, English proficiency and suitability to teach).

CAREER OPPORTUNITIES

Graduating from the Bachelor of Education Early Childhood Teaching prepares you to teach in a prior-to-school setting (such as a day care centre) or a primary school. It also prepares you to work in associated educational areas, such as curriculum development, educational planning, educational research, and policy development.

ESSENTIAL REQUIREMENTS

Applicants must complete the Teaching Capabilities Statement used to demonstrate suitability for study and work in the teaching profession.

Bachelor of Education Primary

SATAC CODE – 104501

Casuarina, Online

SATAC CODE – 144111

Batchelor (only available to Indigenous students)

DURATION – 4 years full time, 8 years part time

DOMESTIC INTAKE – Semester 1, Semester 2, Summer Semester

ABOUT THE COURSE

The Bachelor of Education Primary prepares you to become a primary school teacher and teach Transition to year 6/7.

As a primary school teacher, you'll be vital to a student's learning process. You'll guide and develop their skills through the various key learning systems of education during their early years at school.

In this course, you'll learn about:

- the school curriculum
- contemporary approaches to issues in education, such as inclusivity
- child and adolescent development
- promoting positive behaviour
- improving the teaching-learning relationship in the classroom
- Indigenous perspectives on teaching and learning
- raising awareness of issues surrounding Indigenous education
- developing an informed, evidence-based approach to learning and teaching in primary settings.

During this course, you will gain a combination of academic and practical experience. When you graduate, your levels of personal literacy and numeracy will be broadly equivalent to the top 30% of the population.

You are encouraged to review the employer eligibility requirements as they can vary state to state.

PROFESSIONAL RECOGNITION

This Bachelor of Education Primary has been accredited through the Teacher Registration Board of the Northern Territory. It is consistent with the standards established by the Australian Institute for Teaching and School Leadership for the Accreditation of Initial Teacher Education Programs in Australia.

CAREER OPPORTUNITIES

Graduating with a Bachelor of Education Primary prepares you to teach in primary schools. It also prepares you to work in associated educational areas, such as curriculum development, educational planning, educational research, and policy development.

ESSENTIAL REQUIREMENTS

Applicants must complete the Teaching Capabilities Statement used to demonstrate suitability for study and work in the teaching profession.

Bachelor of Education Secondary

SATAC CODE – 104511

Casuarina, Online

DURATION – 4 years full time, 8 years part time

DOMESTIC INTAKE – Semester 1, Semester 2

ABOUT THE COURSE

The Bachelor of Education Secondary prepares you to become a secondary school teacher and teach year 7 to year 12. In this role, you'll be responsible for educating and guiding students as they prepare for the real world. If you are a good communicator, love having fun with children and are passionate about sharing a love of learning, then this may be the career for you!

At CDU, you can study a Bachelor of Education Secondary online or on campus, part time or full time (for a majority of specialisations). This makes it easier to fit study into your existing commitments. When you graduate, you'll be qualified to register as a teacher anywhere in Australia.

The course focuses on the skills and knowledge you'll need to teach in high schools, as outlined by the Australian National Curriculum. It meets both the national and local need for teachers committed to improving educational outcomes for children in year 7 to year 12.

You'll learn about:

- the school curriculum
- contemporary approaches to issues in education, such as inclusivity
- child and adolescent development
- promoting positive behaviour
- improving the teaching-learning relationship in the classroom
- Indigenous perspectives
- raising awareness of issues surrounding Indigenous education
- developing an informed, evidence-based approach to learning and teaching in secondary school settings.

As a secondary teacher, you will specialise in teaching certain subjects. As part of your degree, you'll choose two specialisations: a major and a minor. You can choose from a range of options, including:

- digital technology
- health and physical education
- humanities
- Indigenous knowledges
- languages
- mathematics
- music
- science
- visual arts.

The course is a mixture of discipline-specific curriculum and pedagogical studies, general education studies and professional experience.

When you graduate, your levels of personal literacy and numeracy will be broadly equivalent to the top 30% of the Australian population.

Students are encouraged to review the employer eligibility requirements as they can vary state to state.

PROFESSIONAL RECOGNITION

This course has been accredited through the Teacher Registration Board of the Northern Territory. It is consistent with the standards established by the Australian Institute for Teaching and School Leadership for the Accreditation of Initial Teacher Education Programs in Australia.

When you graduate, you'll be eligible to register as a teacher in schools across all Australian State and Territory jurisdictions (subject to meeting other eligibility criteria such as the National Literacy and Numeracy Test for Initial Teacher Registration Requirement, English proficiency and suitability to teach).

CAREER OPPORTUNITIES

Graduating with a Bachelor of Education Secondary prepares you to teach in high schools. It also prepares you to work in associated educational areas, such as curriculum development, educational planning, educational research, and policy development.

ESSENTIAL REQUIREMENTS

Applicants must complete the Teaching Capabilities Statement used to demonstrate suitability for study and work in the teaching profession.

Bachelor of Engineering Science/ Master of Engineering

SATAC CODE – CHEMICAL – 104351

Casuarina, Online

SATAC CODE – CIVIL AND STRUCTURAL – 104451

Casuarina, Online

SATAC CODE – ELECTRICAL AND ELECTRONICS

– 104461

Casuarina, Online

SATAC CODE – MECHANICAL – 104471

Casuarina, Online

DURATION – 5 years full time, 10 years part time

DOMESTIC INTAKE – Semester 1, Semester 2,

Summer Semester

ASSUMED KNOWLEDGE

Stage 2 Mathematical Methods or equivalent.

ABOUT THE COURSE

The Bachelor of Engineering Science/Master of Engineering is an internationally accredited combined course that develops the necessary skills and knowledge in your chosen area of engineering at bachelor level before moving into more advanced master level study and finishing with a research thesis and design project. Areas of engineering include chemical, civil and structural, electrical and electronics and mechanical.

As a professional chemical engineer, you will be able to contribute significantly to the design, operation and management processes to transform raw materials into high-value products. You are involved in key areas such as oil and gas refining, minerals processing, plastics, food processing and pharmaceuticals manufacturing.

As a professional civil and structural engineer, you will continuously be challenging traditional civil and construction methods with creativity and innovation to help design and manage structures for the modern world. Key areas include structures, water resources, roads and traffic, bridges and marine structures.

As a professional electrical and electronics engineer, you will be able to contribute significantly to the design, automation and control of devices which make modern life convenient. You will be involved in electronics, telecommunications, biomedical applications, power generation and distribution, including renewable energy. You will develop skills in communication methods, electronic control systems and power engineering, together with a background of sustainable engineering principles.

As a professional mechanical engineer, you will be able to make significant contributions to the design and development of machinery to improve transportation, and to provide affordable solutions for manufacturing and industrial production. Key areas include mechatronics, robotics, biomechanical applications, aeroplanes, cars, pumps and pipelines.

Your master's studies will expand your engineering specialist knowledge with particular emphasis placed on the themes of sustainability, creativity, teamwork, design, research and leadership.

This course was developed in consultation with and is supported by industry leaders. You graduate with a sound foundation of engineering knowledge which directly aligns with international industry requirements.

PROFESSIONAL RECOGNITION

EUR-ACE

The Bachelor of Engineering Science of this combined course is accredited internationally to European EUR-ACE requirements. The Master of Engineering of this combined course is accredited internationally to European EUR-ACE requirements.

ENGINEERS AUSTRALIA

The Bachelor of Engineering Science (Civil and Structural) of this combined course is accredited by Engineers Australia at the level of engineering technologist and therefore recognised internationally under the Sydney Accord.

The Bachelor of Engineering Science (Chemical), Bachelor of Engineering Science (Electrical and Electronics), and Bachelor of Engineering Science (Mechanical) of this combined course are provisionally accredited by Engineers Australia at the level of engineering technologist.

Note: Engineers Australia initially gives provisional accreditation for new engineering courses - full accreditation can only be obtained after the first students have graduated.

The Master of Engineering of this combined course is accredited by Engineers Australia at the level of professional engineer and therefore recognised internationally under the Washington Accord.

ICHEME

The Bachelor of Engineering Science (Chemical) - Master of Engineering (Chemical) combined course is accredited by IChemE at bachelor's and master's level (M-Level).

CAREER OPPORTUNITIES

Graduating from the chemical engineering major of this course may lead to career opportunities in areas such as design, project management, manufacturing, process control, mining, oil and gas, consultation, and minerals processing.

Graduating from the civil and structural engineering major of this course may lead to professional opportunities in areas such as design, construction, water supply and treatment, infrastructure development, roads and traffic and project management.

Graduating from the electrical and electronics engineering major of this course may lead to professional opportunities in areas such as electronics, renewable energy, power generation, storage and distribution, process control, mining, oil and gas, consultation, and project management.

Graduating from the mechanical engineering major of this course may lead to career opportunities in areas such as design, machinery, manufacturing and fabrication, mining, oil and gas, consultation, and project management.

Bachelor of Engineering Honours

SATAC CODE – CHEMICAL – 104331

Casuarina, Online

SATAC CODE – CIVIL AND STRUCTURAL – 104391

Casuarina, Online

SATAC CODE – ELECTRICAL AND ELECTRONICS

– 104401

Casuarina, Online

SATAC CODE – MECHANICAL – 104411

Casuarina, Online

DURATION – 4 years full time, 8 years part time

DOMESTIC INTAKE – Semester 1, Semester 2,

Summer Semester

ASSUMED KNOWLEDGE

Stage 2 Mathematical Methods or equivalent.

ABOUT THE COURSE

The Bachelor of Engineering Honours will provide you with advanced conceptual understanding of the science and its application to engineering, followed by advanced specialist knowledge of the theory and practice of chemical, civil and structural, electrical and electronics or mechanical engineering.

The course will help you to develop skills for the planning and execution of engineering projects or research to advance the scientific basis of the discipline.

The course specifically offers you hands-on practical experience, which will assist you in your future career as a professional engineer. This course also focuses on essential engineering skills including innovation, creativity, research, management, teamwork and leadership.

This course was developed in consultation with and is supported by industry leaders. You graduate with the foundation of engineering knowledge which directly aligns with international industry requirements.

As a professional chemical engineer, you will be able to critically analyse chemical engineering problems for the design, operation and management of processes to transform raw materials into high-value products in key areas such as oil and gas, minerals processing, plastics, food processing and pharmaceuticals manufacturing.

As a professional civil and structural engineer, you will be able to combine traditional and current construction methods with creativity and innovation including the design and management of structures for the modern world. Your studies will focus on developing sustainable and ethical civil and structural solutions in areas such as structural engineering, water and roads and traffic and its uses and principles of sustainability.

As a professional electrical and electronics engineer, you will be able to fulfil major roles in the design, automation and control of devices which make modern life convenient. You will be involved in electronics, telecommunications, biomedical applications and power generation, storage and distribution, including renewable energy. You will develop skills in communication methods, electronic control systems and power engineering, together with a background of sustainable engineering principles.

As a professional mechanical engineer, you will be able to have a major role in the design and construction of equipment for improved transport, and to provide affordable manufacturing and production solutions for manufacturing industry. Key areas include biomechanical applications, aeroplanes, cars, pumps, pipelines and air conditioning systems.

PROFESSIONAL RECOGNITION

Graduates are eligible to apply for membership with Engineers Australia.

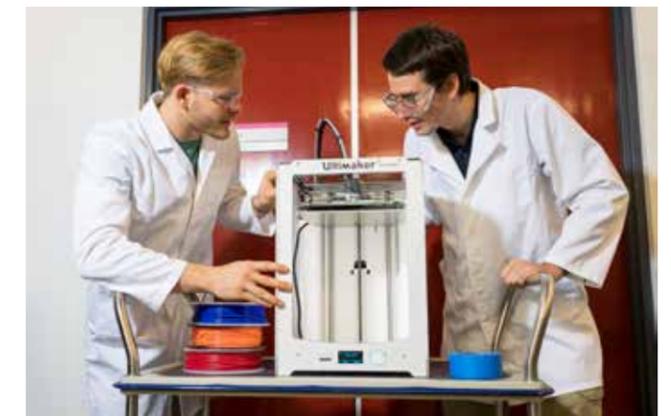

CAREER OPPORTUNITIES

Graduating from the chemical engineering major of this course may lead to career opportunities in areas such as design, project management, manufacturing, process control, mining, oil and gas, consultation, and minerals processing.

Graduating from the civil and structural engineering major of this course may lead to professional opportunities in areas such as design, construction, water supply and treatment, infrastructure development, roads and traffic and project management.

Graduating from the electrical and electronics engineering major of this course may lead to professional opportunities in areas such as electronics, renewable energy, power generation and distribution, manufacturing, process control, mining, oil and gas, consultation, and project management.

Graduating from the mechanical engineering major of this course may lead to career opportunities in areas such as design, machinery, manufacturing and fabrication, process control, mining, oil and gas, consultation, and project management.

Bachelor of Engineering Science

SATAC CODE – CHEMICAL – 104341

DURATION – 3 years full time, 6 years part time

DOMESTIC INTAKE – Semester 1, Semester 2, Summer Semester

ASSUMED KNOWLEDGE
Stage 2 Mathematical Methods or equivalent.

ABOUT THE COURSE

The Bachelor of Engineering Science will provide you with the necessary scientific knowledge that underpins your engineering discipline, followed by specialist knowledge of the theory and practice of chemical, civil and structural, electrical and electronics, and mechanical engineering.

The course will help you to develop skills for the planning and execution of engineering projects.

The course specifically offers extensive hands-on practical experience, which will help you in your future career as an engineering technologist. Essential engineering skills including innovation, creativity, management and teamwork are also features of the course.

This course was developed in consultation with and is supported by industry leaders. You graduate with a sound foundation of engineering knowledge which directly aligns with international industry requirements.

You can combine this course with the two-year Master of Engineering as an accredited pathway towards becoming a professional engineer. This pathway is similar to engineering programs offered in Europe and is an alternative to the traditional four-year Bachelor of Engineering Honours course.

As a chemical engineering technologist, you will be able to collaborate with other engineers and technologists on the design, operation and management of processes to transform raw materials into high-value products in key areas such as oil and gas, minerals processing, plastics, food processing and pharmaceuticals manufacturing.

As a civil and structural engineering technologist, you will be able to work with other engineers and technologists on the design and maintenance of structures for the modern world. Key areas include water resources, roads and traffic, bridges and marine structures. Your studies will focus on developing sustainable and ethical civil and structural solutions in areas such as structural engineering, water and its uses and the principles of sustainability.

As a electrical and electronics engineering technologist, you will be able to work together with engineers and technologists on the design, automation and control of the devices which make modern life convenient. You are involved in electronics, telecommunications, biomedical applications and power generation and distribution, including renewable energy.

As a mechanical engineering technologist, you will be able to collaborate with other engineers and technologists in the design and build of large and small devices which improve transportation and provide affordable manufacturing and production solutions. Key areas include mechatronics, robotics, biomechanical applications, aeroplanes, cars, pumps and pipelines.

Bachelor of Software Engineering Honours

SATAC CODE – 104231
Casuarina, Online

DURATION – 4 years full time, 8 years part time

DOMESTIC INTAKE – Semester 1, Semester 2, Summer Semester

ASSUMED KNOWLEDGE
Stage 2 Mathematical Methods or equivalent.

ABOUT THE COURSE

The Bachelor of Software Engineering Honours will allow you to develop your understanding of the underlying principles and applications of software engineering. Additionally, you will gain professional knowledge and skills that will allow you to stand out from the crowd in the digital world.

Study opportunities are also provided to assist students to undertake sought-after industry modules, including Cisco and Microsoft certification.

Note: This course is due to be re-accredited for 2020 and you should check the CDU website for availability and updated course information.

PROFESSIONAL RECOGNITION

The Bachelor of Software Engineering Honours is accredited by Australia Computer Society at the level of professional practice in ICT and therefore recognised internationally under the Seoul Accord.

CAREER OPPORTUNITIES

Your broad skill set prepares you to move into both small and large organisations, consultancy, start-ups, government and private companies.

Associate Degree of Engineering

SATAC CODE – CHEMICAL – 115131
Casuarina, Online

SATAC CODE – CIVIL AND STRUCTURAL – 115171
Casuarina, Online

SATAC CODE – ELECTRICAL AND ELECTRONICS – 115181
Casuarina, Online

SATAC CODE – MECHANICAL – 115191
Casuarina, Online

DURATION – 2 years full time, 4 years part time

DOMESTIC INTAKE – Semester 1, Semester 2, Summer Semester

ABOUT THE COURSE

The Associate Degree of Engineering will provide a sound basis of fundamental engineering concepts, followed by the application of chemical, civil and structural, electrical and electronics or mechanical engineering theory and practice.

The course will help you to develop skills for solving common engineering problems as well as prepare you for further study of more advanced engineering concepts in the Bachelor of Engineering Science and Bachelor of Engineering Honours.

As a chemical engineering associate, you will assist with the design, operation and management of processes that transform materials into everyday products. You are involved in key areas such as oil and gas refining, minerals processing, plastics, food processing and pharmaceuticals manufacturing.

As a civil and structural engineering associate, you will contribute to the design, operation and maintenance of structures and systems for the modern world. Key areas include water resources, roads and traffic, bridges and marine structures.

As a electrical and electronics engineering associate, you will assist with the design, automation and control of devices which make modern life convenient. You are involved in electronics, telecommunications, biomedical applications and power generation, storage and distribution, including renewable energy.

As a mechanical engineering associate, you contribute to the design and construction of devices which improve transportation and provide more affordable manufacturing and production solutions. Key areas include mechatronics, robotics, biomechanical applications, aeroplanes, cars, pumps and pipelines.

In addition to specific engineering knowledge, essential engineering skills including innovation, creativity and teamwork are developed.

This course was developed in consultation with and is supported by industry leaders. It provides a sound foundation of engineering knowledge which can lead to further engineering study or to employment as an engineering associate.

Credit can be given for studies in the associate degree towards CDU's Bachelor of Engineering Science or the Bachelor of Engineering Honours.

CAREER OPPORTUNITIES

Graduating from the chemical specialisation of this course may lead to paraprofessional engineering opportunities in areas such as design, project management, manufacturing, process control, mining, oil and gas, consultation, and minerals processing.

Graduating from the civil and structural specialisation of this course may lead to paraprofessional engineering opportunities in areas such as design, construction, water supply and treatment, infrastructure development, roads and traffic and project management.

Graduating from the electrical and electronics specialisation of this course may lead to paraprofessional engineering career opportunities in areas such as electronics, renewable energy, power generation, storage and distribution, process control, mining, oil and gas, consultation, and project management.

Graduating from the mechanical specialisation may lead to paraprofessional engineering career opportunities in areas such as design, manufacturing and fabrication, mining, oil and gas, consultation, and project management.

Diploma of Engineering

SATAC CODE – 116211
Casuarina, Online

DURATION – 1 year full time, 2 years part time

DOMESTIC INTAKE – Semester 1, Semester 2, Summer Semester

ABOUT THE COURSE

The Diploma of Engineering is ideal if you are curious about studying engineering and would like to learn more, though are unsure about committing to a full undergraduate degree.

During your engineering studies, you will explore some of the general concepts, principles and practices of engineering, develop your technical skills and build upon your maths and science knowledge.

With the diploma, you qualify for entry-level engineering roles, or you can continue onto other engineering degree courses such as CDU's Associate Degree of Engineering, Bachelor of Engineering Science or Bachelor of Engineering Honours.

CAREER OPPORTUNITIES

Graduating from the Diploma of Engineering may lead to entry-level engineering roles.

**Bachelor of Environmental Science**

SATAC CODE – 104531
Casuarina, Online

DURATION – 3 years full time, 6 years part time

DOMESTIC INTAKE – Semester 1, Semester 2, Summer Semester

ABOUT THE COURSE

With the Bachelor of Environmental Science your academic studies will be combined with practical experience, allowing you to play an active role in the protection and conservation of the environment.

Foundation knowledge including biology, ecology and spatial analysis will be the base from which you learn to solve complex environmental problems. You will explore human-impact, social and cultural perspectives, identify solutions to environmental challenges, and learn how to effectively communicate information for positive environmental outcomes. Training in critical and systems thinking will empower you to tackle the environmental challenges of our time.

CAREER OPPORTUNITIES

Graduating from this course prepares you with the skills and knowledge to work within government, private companies or community organisations, in areas including environment and heritage, biodiversity conservation, land and water resource management, mine site rehabilitation, nature-based tourism, Aboriginal land management, wildlife and reserve management, land-care, teaching, consultancy or environmental research.

Bachelor of Arts

- SATAC CODE** – 104591
Casuarina, Online
- DURATION** – 3 years full time, 6 years part time
- DOMESTIC INTAKE** – Semester 1, Semester 2

ABOUT THE COURSE

The Bachelor of Arts is a creative course that develops your understanding of political science, ethics, culture, history, and differing perspectives in modern human society. An education in the humanities will equip you with the skills to shape institutions and contribute to policy debates through frameworks for understanding social value.

You will strengthen your written and oral communication skills, critical and creative thinking, problem-solving, preparing you to move into speciality fields and participate in a multidiscipline and global workforce. A Bachelor of Arts degree from CDU will ensure a well-informed understanding of Northern Australia and South-East Asia that values citizenship and our place in the world.

During the course, you can choose to explore a range of interest areas, including:

- history
- philosophy
- political science
- literary studies
- communications
- languages (Chinese, Greek and Indonesian)
- Indigenous knowledge systems
- Indigenous culture.

The course is suited to students seeking productive, innovative and interdisciplinary skills to solve complex or 'wicked' problems, as well as skills needed to improve social outcomes important in driving business success. A humanities education will equip students with transferrable research skills such as qualitative analysis and effective communication skills in the public sector. A Bachelor of Arts degree from CDU will lead to employment in industries such as education and training, health care, social assistance, public administration and areas to do with cultural life.

CAREER OPPORTUNITIES

People with a Bachelor of Arts degree are as likely to be found leading companies in areas as diverse as aviation, tourism, finance, or entertainment, as they are amongst parliamentarians, administrative officers, the public service, or a trade union.

A Bachelor of Arts may also lead to career opportunities in areas such as research, training, diplomacy, membership of advisory boards, communications, media, museums, libraries, consultancy, land councils, or curating.

It is a degree that opens doors to positions in the domestic and global economy, particularly where these organisations engage with central and northern Australia, Asia and other parts of the world. Moreover, those jobs yet to be created in the future will, of course, require a workforce with humanities research that can make holistic predictions about the future with a sense of cultural understanding that the humanities provide.

Bachelor of Humanitarian and Community Studies

- SATAC CODE** – 114731
Casuarina, Online
- DURATION** – 3 years full time, 6 years part time
- DOMESTIC INTAKE** – Semester 1, Semester 2, Summer Semester

ABOUT THE COURSE

The Bachelor of Humanitarian and Community Studies develops your skills to understand, critically analyse and apply concepts of human service delivery, community development, and international humanitarian assistance.

This course particularly focuses on the knowledge and skills required to work in remote and resource-poor environments.

The course combines theory and practice-based learning and is delivered by both, academics and practitioners. Interdisciplinary course units provide students with knowledge on:

- sociology
- ethics
- human service delivery
- cultural studies
- Indigenous knowledge
- community engagement
- project management
- international humanitarian practice.

Experiential and work integrated learning are core components of this course. Students will participate in a 2-week intensive hands-on unit delivered on CDU's Casuarina campus that equips them with essentials skills relevant to working in the field of international humanitarian assistance.

In their final year, students complete a 400-hour professional practice placement with a community-based, humanitarian or development aid agency. Overseas placements are available in the Asia-Pacific.

Note: This course is due to be re-accredited for 2020 and you should check the CDU website for availability and updated course information.

PROFESSIONAL RECOGNITION

The course is accredited by the Australian Community Workers Association (ACWA). Graduates are eligible to apply for membership.

CAREER OPPORTUNITIES

Graduates exit the program with a foundation in community work, human service delivery and international humanitarian practice.

Career opportunities include working for non-government organisations (NGOs) and government agencies in the field of community development and international humanitarian assistance and development aid.

The degree provides an excellent basis to pursue a higher degree in allied fields including emergency and disaster management, humanitarian and development aid as well as international relations.

Bachelor of Psychological Science

- SATAC CODE** – 104361
Casuarina, Online
- DURATION** – 3 years full time, 6 years part time
- DOMESTIC INTAKE** – Semester 1, Semester 2, Summer Semester

ABOUT THE COURSE

In the Bachelor of Psychological Science, you will develop an integrated understanding of human behaviour including social-cultural perspective, motivations, health and psychopathology as well as the fundamental premise of psychology as an empirically based science.

Key study areas include:

- research methods
- abnormal psychology
- social-cultural psychology
- learning and motivation
- cognitive psychology
- the biological bases of behaviour
- introduction to forensic psychology counselling.

The Bachelor of Psychological Science will also prepare you for the honours program, as well as postgraduate professional coursework or supervised training in psychology.

PROFESSIONAL RECOGNITION

This course is accredited by the Australian Psychology Accreditation Council (APAC) and prepares you for entry into an honours year in psychology. During your studies, you can also join the Australian Psychological Society.

CAREER OPPORTUNITIES

Graduating from this course may lead to career opportunities in child and family services, child protection, community health and welfare, drug and alcohol, disability and rehabilitation services, health service management, research and evaluation, policy and planning, human resources management and marketing.

Bachelor of Social Work

- SATAC CODE** – 104611
Casuarina, Online
- DURATION** – 4 years full time, 8 years part time
- DOMESTIC INTAKE** – Semester 1, Semester 2

ABOUT THE COURSE

As a social worker you will work with people to achieve the changes to improve their lives. You will guide and support the individual client, family, or community to meet their goals.

You will do this through providing support, counselling, case management, and/or community development. You will be an advocate for social change to create a more socially just society. You will walk beside those who are vulnerable, identifying their strengths and capacity for making change.

With the Bachelor of Social Work, you will gain the knowledge and skills required to work with individuals, families, groups and communities. You will develop practical skills to work effectively and safely with those in crisis, vulnerable or impacted by poverty and social disadvantage.

Key areas of your coursework include multi-disciplinary practice, cross-cultural practice and working in virtual contexts and with practical skills based on the entry/application requirements of organisations.

PROFESSIONAL RECOGNITION

Graduates of the Bachelor of Social Work qualify for membership to the Australian Association of Social Workers (AASW).

CAREER OPPORTUNITIES

Graduating from this course may lead to career opportunities in areas including child protection, income support, community health, community development, counselling, youth work, mental health, hospital social work, education and corrections.

Diploma of Alcohol and Other Drugs

- SATAC CODE** – 116141
Casuarina, Online
- DURATION** – 1 year full time, 2 years part time
- DOMESTIC INTAKE** – Semester 1, Semester 2, Summer Semester

ABOUT THE COURSE

Whether you are looking to broaden your awareness or build on your professional skill set, the Diploma of Alcohol and Other Drugs will expand your knowledge in these areas. You will be introduced to modern issues, research and interventions in the Australian alcohol and other drug fields, with particular reference to the Northern Territory. You can choose to study this diploma either on campus at Casuarina (internally) or online (externally).

CAREER OPPORTUNITIES

This course complements your current qualifications and may prepare you for advanced career opportunities within education, nursing, social work, indigenous studies, health sciences and related areas.

Diploma of Counselling

- SATAC CODE** – 116131
Casuarina, Online
- DURATION** – 1 year full time, 2 years part time
- DOMESTIC INTAKE** – Semester 1, Semester 2, Summer Semester

ABOUT THE COURSE

Do you seek a career that will make a positive impact on the health and well-being of those in your community? Or perhaps you are wanting to build on your knowledge in human services? The Diploma of Counselling may be the course you're looking for. During your course, you will explore key areas such as psychology, trauma assessment and intervention, alcohol and other drugs as well as build on your communication skills.

CAREER OPPORTUNITIES

This qualification will complement your existing professional career, or it may prepare you for career opportunities in counselling-related fields in government, private companies, non-government organisations (NGO) and community groups.

Diploma of Languages

- SATAC CODE** – 116051
Casuarina, Online
- DURATION** – 3 years part time
- DOMESTIC INTAKE** – Semester 1, Summer Semester

ABOUT THE COURSE

If you want to learn another language and embrace a different culture, the Diploma of Languages can help you achieve your goal. You can choose to specialise in Indonesian, Chinese or Greek language and culture, and you'll have an opportunity to join an in-country study program.

This course is ideal for teachers looking to upskill, as well as anyone who has a personal interest in Indonesia, China or Greece.

Note: This course is due to be re-accredited for 2020 and you should check the CDU website for availability and updated course information.

CAREER OPPORTUNITIES

Graduating with a Diploma of Languages may lead to career opportunities as a translator, tutor, advisor, language or communication specialist.

Diploma of Psychology

- SATAC CODE** – 116161
Casuarina, Online
- DURATION** – 1 year full time, 2 years part time
- DOMESTIC INTAKE** – Semester 1, Semester 2, Summer Semester

ABOUT THE COURSE

Want to study psychology without committing to a full undergraduate degree? The Diploma of Psychology is what you are looking for. Psychology explores human behaviour and how humans make sense of the world, process, organise and store information. It looks at multiple factors that influence human development, human motivation and emotion such as: how biology influences things like learning, memory and behaviour, and vice versa common and unique aspects of personality behavioural dysfunctions social and cultural diversity.

This course introduces you to the foundations of psychology, explores mental health, and builds essential counselling and behaviour modification skills. You can choose to study this diploma either on campus at Casuarina (internally) or online (externally).

CAREER OPPORTUNITIES

This qualification will complement your existing professional career, or it may prepare you for career opportunities in various psychology-related fields in government, private companies, non-government organisations (NGO) and community groups.

Bachelor of Laws

SATAC CODE – 104621
Casuarina, Online

DURATION – 3 years full time, 6 years part time

DOMESTIC INTAKE – Semester 1, Semester 2

ABOUT THE COURSE

The Bachelor of Laws provides you with the academic foundation to become a lawyer or work in a range of industries that require legal expertise, including politics, policy, government, business and private legal practice.

At CDU, you can complete a Bachelor of Laws in just three years, with options to study your law degree 100% online, on campus or a mix of both. On graduating, you will be eligible to apply for admission to the legal practice anywhere in Australia.

The Bachelor of Laws teaches you about legal systems and principles in Australia and abroad. You'll gain skills in legal research, analysis and communication, and learn theoretical perspectives on the law. The course also has a unique focus on transnational law (which looks at how laws are applied in more than one jurisdiction) and comparative law (which examines different legal systems from around the world), so you'll gain insight into the legal issues facing today's globalised economies and societies.

If you choose to study law online, you'll have 24/7 access to CDU's online learning platform, recorded lectures and tutorial assistance. You can study where, when and how it suits you.

As the Bachelor of Laws is a competitive course, you're also encouraged to apply for the Associate Degree of Legal Studies or the Diploma of Laws. These programs are an alternative pathway to the Bachelor of Laws.

PROFESSIONAL RECOGNITION

The Bachelor of Laws is accredited by the Legal Practitioners Admission Board of the Northern Territory and provides the academic foundation for admission to legal practice in the Northern Territory and elsewhere in Australia.

To be admitted to legal practice in Australia, you must also complete the Graduate Diploma in Legal Practice (GDLP). This can be taken through the College of Law in Sydney and completed online.

CAREER OPPORTUNITIES

A Bachelor of Laws prepares you for a wide range of jobs. You may choose to pursue a career as a solicitor or barrister, or work in fields that benefit from legal expertise, such as politics, public service, industrial relations, community advocacy or commerce in general.

Associate Degree of Legal Studies

SATAC CODE – 115141
Casuarina, Online

DURATION – 2 years full time, 4 years part time

DOMESTIC INTAKE – Semester 1, Semester 2,
Summer Semester

ABOUT THE COURSE

The Associate Degree of Legal Studies is for anyone who is interested in broadening their understanding of the legal system without committing to a full law degree.

This course will give you a broad understanding of the law, legal processes and legal principles and introduce you to practical areas of the law such as torts, contracts, criminal law and transnational law.

It caters for two groups of students: those who have a general interest in legal issues without wishing to complete a full law degree and those who wish to gauge their interest in legal studies and perhaps later seek to undertake a full law degree program.

CAREER OPPORTUNITIES

Completing the Associate Degree of Legal Studies may lead to career opportunities in administrative, secretarial or paralegal roles in government, corporate and private legal environment.

Diploma of Laws

SATAC CODE – 116151
Casuarina, Online

DURATION – 1 year full time, 2 years part time

DOMESTIC INTAKE – Semester 1, Semester 2,
Summer Semester

ABOUT THE COURSE

The Diploma of Laws offers you a general understanding of the law, legal processes and legal principles, as well as an opportunity to gain the specialist knowledge you may need for work or other reasons.

This program is also suitable for internationally qualified lawyers who need to complete some Australian subjects to qualify for admission to legal practice in Australia and is a recognised pathway to the Bachelor of Laws at Charles Darwin University.

CAREER OPPORTUNITIES

Completing the Diploma of Laws may lead to roles in politics, industrial relations and community advocacy in government, private companies and non-government organisations (NGO).

Bachelor of Clinical Sciences

SATAC CODE – 114831
Casuarina

DURATION – 3 years full time

DOMESTIC INTAKE – Semester 1

ABOUT THE COURSE

The Bachelor of Clinical Sciences course is a direct pathway for CDU students to study medicine, on campus in Darwin. This course is part of a double degree with the Northern Territory Medical Program (NTMP) offered by Flinders University. Australian citizen or permanent resident school leavers with year 12 qualifications, or higher education students who have studied for no more than one year are eligible for consideration for entry.

The Bachelor of Clinical Science is the first award of this double degree. Completion of the first two years of the course to a specified grade point average standard and within a specified time frame, guarantees entry into the NTMP, which you will begin in your third year of study.

In your studies at CDU you will develop a strong foundation in the fundamental health and medical-related sciences, building your knowledge, skills and confidence to move onto the NTMP. This course is accredited by the Australian Medical Council (AMC) as an entry pathway into medical studies.

Note: This course is due to be re-accredited for 2020 and you should check the CDU website for availability and updated course and admission information.

ESSENTIAL REQUIREMENTS

Ranking for offers of positions requires an entry score combining ATAR (90%), and University Clinical Aptitude Test (UCAT) - derived score (10%).

All applicants must register to sit the University Clinical Aptitude Test (UCAT) and provide this information in their SATAC application. Registration to sit UCAT closes early in May 2019 and testing is held during July. Only UCAT scores from 2019 will be considered. 12 offers across 3 sub-quotas will be available at the commencement of the academic year based on highest combined UCAT and ATAR ranking.

The Bachelor of Clinical Sciences is a highly competitive course with 12 places available each year. Offers to this course are made in the January offer round into the following sub-quotas:

NT Residency sub-quota (5 places)

All applicants must provide a Statutory Declaration within 10 working days of submitting a SATAC application confirming you have lived in the Northern Territory with a permanent address for two years out of the last six years, or for a total of at least five years since commencing primary schooling. A Statutory Declaration form can be downloaded at www.satac.edu.au/documents/CDUntstatdec.pdf and must be submitted as part of the application to SATAC.

NT Indigenous sub-quota (5 places)

All applicants must provide a Statutory Declaration within 10 working days of submitting a SATAC application confirming you have lived in the Northern Territory with a permanent address for two years out of the last six years, or for a total of at least five years since commencing primary schooling. A Statutory Declaration form can be downloaded at www.satac.edu.au/documents/CDUntstatdec.pdf and must be submitted as part of the application to SATAC. Applicants must also provide a Statutory Declaration within 10 working days confirming you are of Aboriginal or Torres Strait Island descent. This Statutory Declaration form can be downloaded at www.satac.edu.au/documents/atsistatdec.pdf. Applicants who receive an offer through the Indigenous sub-quota will need to provide a certified copy of a community seal confirming their eligibility at enrolment.

National Indigenous sub-quota (2 places)

All applicants must provide a Statutory Declaration within 10 working days of submitting a SATAC application confirming you are of Aboriginal or Torres Strait Island descent. A Statutory Declaration form can be downloaded at www.satac.edu.au/documents/atsistatdec.pdf. Applicants who receive an offer through the Indigenous sub-quota will need to provide a certified copy of a community seal confirming their eligibility at enrolment.

HEALTH ADVISORY INFORMATION FOR MEDICAL STUDENTS

Medical students have an important responsibility to protect their own health and the health of their patients by observing the requirements described in the Health Advisory Information for Medical Students

CRIMINAL HISTORY CHECK

Students entering this course will not be required to undergo National Police Checks. However, as it articulates with Flinders University MD, all medical students will be required to complete a National Police Check prior to undertaking any placement. This requirement will apply to students when they commence the MD component of the course in the third year of the BCSC.

Bachelor of Exercise and Sport Science

SATAC CODE – 114551
Casuarina, Online

DURATION – 3 years full time, 6 years part time

DOMESTIC INTAKE – Semester 1, Semester 2, Summer Semester

ABOUT THE COURSE

The Bachelor of Exercise and Sports Science will equip you with the knowledge and skills to work as a health professional.

Your studies will enable you to work with people who are healthy (including athletes) or psychically challenged (including the aged and injured), to improve their health and fitness, enhance their physical performance and prevent and rehabilitate injuries.

You will combine your academic studies with practical experience with opportunities to get out of the classroom and into the field in professional placements.

You will be able to choose three specialist elective units from Flinders University if you are considering further postgraduate qualifications in physiotherapy.

PROFESSIONAL RECOGNITION

You can apply as individual members to the following associations: Australian Council for Health Physical Education and Recreation (ACHPER), Sports Medicine Australia (SMA), The British Association of Sport and Exercise Sciences, and European College of Sports Science (ECSS).

CAREER OPPORTUNITIES

As an Exercise and Sport Science graduate, you may have diverse employment opportunities in health and fitness, and sports industry.

Bachelor of Health Science

SATAC CODE – 104541
Casuarina, Online

DURATION – 3 years full time, 6 years part time

DOMESTIC INTAKE – Semester 1, Semester 2

ABOUT THE COURSE

As the demand for healthcare increases in Australia, so makes the need for more professionals with a broad skill set. As a health science specialist, you are responsible for the improvement and maintenance of individual and community health and wellbeing. Your in-depth industry knowledge of health – beyond illness and disease – is needed to plan, manage, coordinate and administer infrastructure and resources within the health sector. During your course, you will explore health-related topics relevant and often unique to patients in communities, rural and remote areas. This course has a discrete and integrated focus on Indigenous health, founded on social justice and social determinants of health and cultural safety, preparing you to apply your knowledge and skills in multiple health roles. You will choose from four speciality fields to focus on:

- health promotion
- health services management
- public health
- foundations of occupational therapy.

The Bachelor of Health Science also offers an ongoing pathway for VET graduates as well as prerequisite knowledge and skills for graduate programs in allied health, public health and medicine.

CAREER OPPORTUNITIES

Graduating from this course may lead to career opportunities in areas such as health promotion, health services management, and public health.

Bachelor of Medical Laboratory Science

 SATAC CODE – 114861 Casuarina
 DURATION – 4 years full time, 8 years part time
 DOMESTIC INTAKE – Semester 1, Semester 2
ASSUMED KNOWLEDGE Stage 2 Chemistry or equivalent

ABOUT THE COURSE

Medical Laboratory Scientists work in a range of areas in pathology, including haematology, clinical chemistry, microbiology, histology and serology. They are skilled in performing tests on both human and veterinary specimens, such as blood, tissues and bodily fluids to assist in the diagnosis of disease and provide information about the treatment options. The results of these tests provide physicians with the essential information they need to treat and prevent disease.

This professionally oriented four-year full-time course (or part-time equivalent), combines theoretical and laboratory-based study along with industry placements in world-leading institutes.

Graduates from the program will have a globally recognised, professionally accredited qualification that will provide them with many employment opportunities in the identification and diagnosis of disease and pathogens, medical research, forensic pathology, public health and the pharmaceutical industry.

This course is nationally recognised by the Australian Institute of Medical Scientists (AIMS), providing students with the ability to work within Australia and Internationally.

Note: This course is due to be re-accredited for 2020 and you should check the CDU website for availability and updated course information.

PROFESSIONAL RECOGNITION

This course is accredited by the Australian Institute of Medical Scientists (AIMS).

CAREER OPPORTUNITIES

Graduating from this course may lead to career opportunities in diagnostic pathology, research, forensic science as well as health management, public health departments, education institutes and the pharmaceutical industry. We also support structured progression into other professional training, such as medicine and physiotherapy.

Bachelor of Midwifery

 SATAC CODE – 104481 Casuarina, Online
 DURATION – 3 years full time, 6 years part time
 DOMESTIC INTAKE – Semester 1

ABOUT THE COURSE

Through a partnership approach, midwives provide woman-centred, evidence-based care for women and babies throughout the childbearing journey in a variety of settings.

Midwives play an important role in promoting the health and wellbeing of women and their families by supporting the woman's childbearing choices and providing expertise around pregnancy, birth, postnatal and the newborn period. Midwives collaborate with other health professionals to continue midwifery care in complex situations.

The Bachelor of Midwifery at CDU is aligned with the International Confederation of Midwives' definition of the midwife. As a Midwifery student, you will require a high level of motivation, determination and organisation to successfully negotiate study and clinical experience requirements with work and family commitments.

The online nature of the course requires you to be disciplined and committed in your study habits. You should consider whether your family life and work commitments will support your attendance at placement and time available for study. Placement may occur during and outside of the semester and you may be required to travel away from home to complete up to 6 weeks of placement at your own expense.

You must be aware that:

- Placement is arranged by CDU and dates are determined by the availability of places at the health service facility, therefore dates for placement may not be negotiable.
- You will be required to attend the arranged placement to progress in the course.
- Non-attendance at placement may only occur in extenuating circumstances. Childcare and work commitments are not extenuating circumstances for the purpose of placement.
- Placements may include morning, evening, night duty, on-call and shifts on weekends and public holidays.

As a student of midwifery, you will be required to have an inherent set of qualities. Midwifery requires a degree of physical strength and mobility, endurance, communication and cognitive abilities for safe practice. For more detailed information see Inherent requirements for Midwifery on the CDU website.

Reporting obligations: Under the Health Practitioner Regulation National Law, CDU is required to register midwifery students with the Australian Health Practitioner Regulation Agency (AHPRA) and to notify AHPRA if a student has or develops a health impairment that may place the public at substantial risk of harm. Students have obligations under the National Law and are expected to understand their obligations prior to enrolling. More information available at NMBA Student Registration website.

This is a competitive course with more applicants than places available, eligible applicants will be ranked in order of academic merit.

PROFESSIONAL RECOGNITION

Graduates will be eligible to apply for registration with the Nursing and Midwifery Board of Australia (NMBA) to practice as a midwife in all Australian States or Territories and some overseas countries.

CAREER OPPORTUNITIES

Graduating from this course may lead to career opportunities in roles including, midwifery group practice, homebirth and working in public or private hospitals.

PRE-CLINICAL REQUIREMENTS

Students must provide proof that they have met all university and State/Territory pre-clinical requirements before they can undertake those units that include clinical placements. These requirements include, but are not limited to, immunisation requirements, Senior First Aid qualification, annual criminal record checks and/or working with children clearances and/or fitness-to-practice requirements.

ADDITIONAL INFORMATION

Applicants from NSW should note that all the health facilities in NSW North - Central Coast including Sydney have advised that they are unable to place CDU students as they're committed to local universities. This includes all public and private health facilities. CDU consistently revisits the opportunities in these areas; however, we have been unable to secure placements for the last few years. To complete your placement and achieve the Continuity of Care Experiences, you will need to travel to other areas of NSW such as Dubbo, Lismore, Tamworth and Wagga Wagga, potentially expanding your 34 week placement time in these areas by an extra 2 - 3 weeks.

Bachelor of Nursing

SATAC CODE – 104221
Casuarina, Online

DURATION – 3 years full time, 6 years part time

DOMESTIC INTAKE – Semester 1, Semester 2

ABOUT THE COURSE

The Bachelor of Nursing is a professionally accredited degree that meets the Nursing and Midwifery Board of Australia (NMBA) qualification criterion for registration as a Division 1 nurse in Australia. As a graduate of the Bachelor of Nursing, you are prepared to be a safe, collaborative, articulate and ethical registered nurse who is responsive to local, national and regional health care needs and aware of emerging global health care trends.

This course is offered externally (online) and internally (on campus). The internal mode is available only at the Casuarina Campus. Regardless of mode of enrolment, all students are required to complete a full-time on-campus simulation block at an approved CDU venue in each year level of the course, as preparation for clinical placement. Simulation blocks are offered at Casuarina, Alice Springs and Sydney campuses. CDU allocates places in simulation blocks and cannot guarantee a place at a specific venue. All costs associated with attendance at simulation blocks are your responsibility.

You will complete supervised clinical placements (880 hours in total) across the three years of the course in a variety of health care settings, including opportunities to participate in international study tours and exchanges that are in addition to the required 880 hours and at student's own cost. All students, regardless of your study mode or pattern, are required to complete clinical placement on a full time, rotating shift basis across a seven-day week roster, including night shifts, weekends and public holidays. CDU arranges all placements and cannot guarantee that placements will be arranged in the semester of enrolment or near your residential location. All costs associated with placement attendance are your responsibility. Non-acceptance of placement or placement arranged outside of semester of enrolment may impact completing the Bachelor of Nursing within 3 years.

As a nursing student, you will be required to have an inherent set of qualities. Nursing requires a degree of physical strength and mobility, endurance, communication and cognitive abilities for safe practice. If you think you may experience challenges in meeting the inherent requirements for nursing, you are encouraged to contact the Bachelor of Nursing Course Coordinator to discuss any concerns you may have before enrolling in the course.

Reporting obligations: Under the national Health Practitioner Regulation National Law, CDU is required to register nursing students with the Australian Health Practitioner Regulation Agency (AHPRA) and to notify AHPRA if a student has or develops a health impairment that may place the public at substantial risk of harm. More information available at NMBA Student Registration.

PROFESSIONAL RECOGNITION

Graduates of this course are eligible to apply for registration with the Health Licensing Authority (Nursing and Midwifery Board of Australia).

CAREER OPPORTUNITIES

Graduating from this course may lead to career opportunities in public and private hospitals and medical clinics in areas such as mental health, community health, acute and chronic care.

PRE-CLINICAL REQUIREMENTS

Students must provide proof that they have met all university and State/Territory pre-clinical requirements before they can undertake those units that include clinical placements. These requirements include, but are not limited to, immunisation requirements, Senior First Aid qualification, annual criminal record checks and/or working with children clearances and/or fitness-to-practice requirements.

Bachelor of Pharmacy

SATAC CODE – 114371
Casuarina

DURATION – 4 years full time, 8 years part time

DOMESTIC INTAKE – Semester 1, Semester 2

ASSUMED KNOWLEDGE

Stage 2 Mathematical Studies

ABOUT THE COURSE

Pharmacists are health care professionals with in-depth skills and knowledge in using medicine to ensure people achieve optimal health outcomes. As part of the healthcare team, pharmacists also provide information and recommendations to doctors, nurses and other healthcare professionals regarding the selection of the best medicine, dosages and how to manage side effects.

Bachelor of Pharmacy at CDU is a four-year degree that is accredited by the Australian Pharmacy Council. You will develop your knowledge and skills in the following areas:

- Problem-solving and personal and professional communication skills.
- Pharmacy practice including experiential learning in real pharmacies (application of knowledge and skills to help people get the best outcomes from medicines).
- The ability to develop an individual health-care plan for patients with complex conditions, focusing on self-management.
- Nationally recognised Mental Health First Aid Australia certificate.
- Ability to administer injections including vaccinations.

These skills are underpinned by an in-depth understanding of the following sciences:

- Chemistry and Medicinal Chemistry (structure of medicines)
- Anatomy and Physiology (how the body works)
- Biochemistry and Genomics (how the body grows)
- Pharmacology and Pharmacotherapeutics (how medicines work in the body)
- Pharmaceutics (designing and making medicines)
- Microbiology (how the bugs grow in the body).

Healthcare in challenging environments

The CDU Pharmacy course has an emphasis on Indigenous health, as well as practising pharmacy in challenging environments, for example in rural and remote communities.

You will have opportunities to practice your pharmacy and professional counselling skills in urban, rural and remote settings. You can undertake your placements in the community and/or hospital (pending availability) pharmacies, or the Aboriginal Medical Services. In addition, there are also Interprofessional Learning (IPL) opportunities with the nursing students from CDU, medical students from the Flinders University Northern Territory Medical Program, and Aboriginal and Torres Strait Islander Primary Health Care Practitioners (at the Bachelor Institute).

If you wish to strengthen your application for enrolment, we encourage you to submit an optional supporting statement. The supporting statement must be no longer than one page and should explain: why you want to study pharmacy why you are suitable for entry into Bachelor of Pharmacy at Charles Darwin University. Telephone interviews are offered from your supporting statement. Send the supporting statement to pharmacy@cdu.edu.au

PROFESSIONAL RECOGNITION

This course is fully accredited with the Australian Pharmacy Council and graduation allows you to apply for provisional registration as a pharmacist with the Pharmacy Board of Australia.

CAREER OPPORTUNITIES

Pharmacists are able to work in a wide variety of settings including primary care, community and hospital pharmacy, research and development of new medicines, teaching, medical communication and owning your own business.

Associate Degree of Exercise and Sport Science

- SATAC CODE** – 115151
Casuarina, Online
- DURATION** – 2 years full time, 4 years part time
- DOMESTIC INTAKE** – Semester 1, Semester 2

ABOUT THE COURSE

Love sport so much that you want to make it your career? The Associate Degree in Exercise and Sports Science will help you reach your goal.

As an exercise and sports professional, you will help your clients improve their health and fitness, enhance physical performance and prevent and rehabilitate injury in athletes and the clinical population.

PROFESSIONAL RECOGNITION

You can apply as individual members to the Australian Council for Health Physical Education and Recreation (ACHPER).

CAREER OPPORTUNITIES

Graduating from this course may lead to career opportunities as an allied health professional in the Australian health and fitness, and sports industry. You may also continue with further studies to a Bachelor of Exercise and Sports Science course.

Diploma of Exercise and Sport Science

- SATAC CODE** – 116191
Casuarina, Online
- DURATION** – 1 year full time, 2 years part time
- DOMESTIC INTAKE** – Semester 1, Semester 2

ABOUT THE COURSE

Ready to take your passion for exercise to the next level but not prepared to commit to a full undergraduate degree? The Diploma of Exercise and Sports Science will allow you to explore the anatomy and physiology at a foundation level.

You'll also learn about:

- the musculoskeletal system and the physiology of nerve and muscle function
- the cardiovascular system and the respiratory system as well as other cellular and genetic processes
- the control of movement and motor skill acquisition
- how the human body interacts with the environment
- the subsequent optimisation of physiological, biomechanical, and psychological responses and adaptations to acute and chronic exercise.

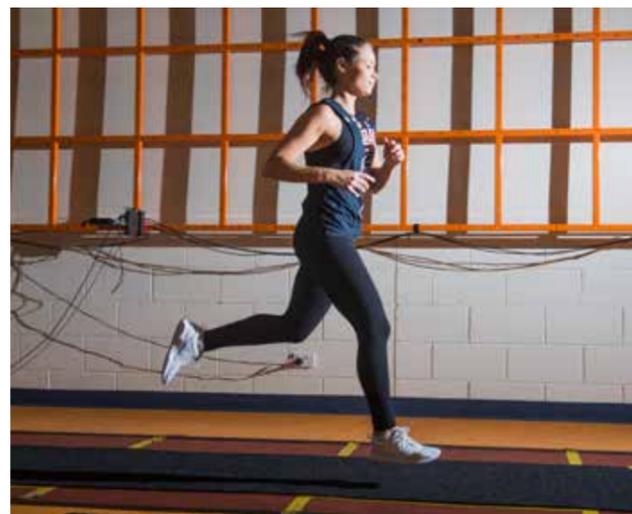

You have the choice to undertake this diploma either on campus at Casuarina (internal) or online from anywhere in Australia (externally).

PROFESSIONAL RECOGNITION

You can apply as individual members to the Australian Council for Health Physical Education and Recreation (ACHPER).

CAREER OPPORTUNITIES

Graduating from this course may lead you to career opportunities in the Australian health and fitness, sports industry, or you may continue to further studies into our bachelor course.

Bachelor of Science

- SATAC CODE** – 104551
Casuarina, Online
- DURATION** – 3 years full time, 6 years part time
- DOMESTIC INTAKE** – Semester 1, Semester 2, Summer Semester

ABOUT THE COURSE

The Bachelor of Science will allow you to explore your curiosity and passion for knowledge within your chosen scientific field.

Your study options are flexible and diverse with a focus on professional experience in various sciences including biologist, ecologist, spatial scientist, biomedical scientist, chemist, or in other science fields.

You will combine academic studies with practical learning in distinctive environments and communities of northern Australia and the region, and their associated challenges in environmental management and public health, including Indigenous health.

You will strengthen your problem solving, logical and critical thinking skills, apply an understanding of scientific and technological factors, and consider issues from various cultural, economic and other societal perspectives throughout your studies helping you to approach tasks informed and confident.

You will be able to demonstrate and apply an understanding of their chosen areas of science, including concepts, theories and principles to practise in real situations.

CAREER OPPORTUNITIES

Graduating from this course may lead to career opportunities in the industry, government, private companies, non-government organisations (NGO) and the community sector as a biologist, ecologist, spatial scientist, biomedical scientist, chemist, consultant, laboratory assistant, project manager or advisor.

Diploma of Science

- SATAC CODE** – 116171
Casuarina, Online
- DURATION** – 1 year full time, 2 years part time
- DOMESTIC INTAKE** – Semester 1, Semester 2, Summer Semester

ABOUT THE COURSE

The Diploma of Science is ideal if you're curious about studying science and would like to learn more though unsure about committing to a degree, or you already have a career in the sciences and want to upskill with another qualification and skills in another discipline.

You will explore a variety of science concepts, theories and principles in different fields such as general science, geographic information science, environmental science and medical science until you find the one that resonates with you.

As you progress through your diploma, you will develop your knowledge in logical and critical thinking, and problem-solving from a scientific and technological perspective.

After completing your diploma, you have the option to move into our Bachelor of Science or Bachelor of Environmental Science courses.

Whether you are in the science field or looking to move into science, or perhaps you are a teacher or engineer wanting to gain knowledge about a specific science discipline, this flexible diploma will help you find what you are looking for.

CAREER OPPORTUNITIES

Graduating from this course may lead to a variety of science-related roles in government, private companies, non-government organisations and community sectors including positions as a technician, laboratory assistant, consultant, analyst, designer and developer, project manager or helpdesk support administrator, plus many more.

Graduate entry courses

Bachelor of Indigenous Knowledges Honours

SATAC CODE – 1BH010
Casuarina, Online

DURATION – 1 year full time, 2 years part time

DOMESTIC INTAKE – Semester 1, Semester 2

ABOUT THE COURSE

The Bachelor of Indigenous Knowledges Honours develops your understanding of and respect for Indigenous knowledges and the engagement of Indigenous people in the culture of academic research. You will study key issues surrounding, and protocols related to, research by and with Indigenous people.

Research projects are drawn from both the requests of Indigenous community leaders, the involvement of academics in current research projects and community-led projects and their subsequent related and independent interests.

Studies focus on Indigenous peoples engagement in the economic use and management of land and water resources, exploration of the policy environment within which Indigenous people operate, issues of language and cultural maintenance and development.

You are encouraged to be self-reflective and interrogate your attitude and practices in the light of the social and cultural diversity during your research.

Successful completion of this honours program will prepare you for study in a relevant higher degree by research program. It will prepare you for engagement in respectful and collaborative research activities across a wide range of disciplines and with a focus upon Indigenous cultural, historical, environmental and social contexts.

CAREER OPPORTUNITIES

Graduating from this course may lead to career opportunities to work with Aboriginal and Torres Strait Islander people, organisations and communities, government departments and agencies, or private enterprises that are involved in Indigenous affairs.

ADMISSION REQUIREMENTS

Successful completion of a recognised bachelor degree or equivalent in an Indigenous Cultures, Indigenous Knowledges, Social Sciences or Natural Resource Management discipline or field with at least a credit average.

ADDITIONAL APPLICATION REQUIREMENTS

Applicants must contact the College of Indigenous Futures, Arts and Society either by email to IFASAdmin@cdu.edu.au or via phone on (08) 8946 6482 to discuss a potential project and supervision prior to submitting an application.

Bachelor of Creative Arts and Industries (Honours)

SATAC CODE – 1BH005
Casuarina

DURATION – 1 year full time, 2 years full time

DOMESTIC INTAKE – Semester 1, Semester 2

ABOUT THE COURSE

If you've completed your undergraduate degree and want to specialise in a creative field, this course is for you.

The Bachelor of Creative Arts and Industries (Honours) is a pathway course into creative arts and industry specialisations in areas such as music, fine arts, new media design or communication.

During this course, you will develop your research thesis so you can focus on your passion. There are also opportunities to participate in gallery and museum research projects.

Note: This course is due to be re-accredited for 2020 and you should check the CDU website for availability and updated course information.

CAREER OPPORTUNITIES

Graduating with a Bachelor of Creative Arts and Industries (Honours) may lead to career opportunities in government, private companies and non-government organisations (NGO) in areas such as media and communications, IT, creative arts, design, film and production or music.

ADMISSION REQUIREMENTS

You must have successfully completed a recognised bachelor degree in the fields of architecture and design, communications, music, new media or visual arts. You will have attained at least a credit average and have completed undergraduate units (or equivalent) in your proposed research area at a credit level or above.

ADDITIONAL ADMISSION REQUIREMENTS

Applicants must contact the College of Indigenous Futures, Arts and Society either by email to IFASAdmin@cdcu.edu.au or via phone on (08) 8946 6482 before submitting an application to discuss a potential project idea and supervision arrangements, including any portfolio or interview presentations.

Bachelor of Educational Studies

NON-SATAC
Casuarina, Online

DURATION – 3 year full time, 6 years part time

DOMESTIC INTAKE – Course transfer

ABOUT THE COURSE

The Bachelor of Educational Studies offers a flexible three-year undergraduate degree with a wide range of opportunities and choices available to graduates.

It offers flexibility in education career options, such as vacation care, homework centres, tutoring in private colleges and home tutoring. It also gives those candidates with an interest in education and the option of studying a broad range of education subjects relating to education as a discipline (non-teaching).

CAREER OPPORTUNITIES

Graduating from this course offers flexibility in education career options, such as vacation care, homework centres, tutoring in private colleges and home tutoring.

ADMISSION REQUIREMENTS

There is no direct entry into this course. This course is available only as an internal course transfer from the Bachelor of Education Primary or the Bachelor of Education Secondary. Students must complete a minimum of 40 credit points in the Bachelor of Education Primary or the Bachelor of Education Secondary to be eligible to apply for transfer.

ESSENTIAL REQUIREMENTS

Criminal history check: students may need to undertake a criminal history check depending on their unit selection

Bachelor of Arts (Honours)

SATAC CODE – 1BH001
Casuarina, Online

DURATION – 1 year full time, 2 years part time

DOMESTIC INTAKE – Semester 1, Semester 2

ABOUT THE COURSE

If you have completed your arts undergraduate degree and want to specialise in a field you are passionate about, an honours program is what you are after.

The Bachelor of Arts (Honours) will prepare for your research project at the postgraduate level in key areas such as history, literary studies, political science, Indonesian, sociology and South-East Asian studies.

With this course, you will build your understanding and critical evaluation of aspects of human society, its history, culture, political development, and diversity, with opportunities to study northern Australian, South-East Asian and other societies.

Note: This course is due to be re-accredited for 2020 and you should check the CDU website for availability and updated course information.

CAREER OPPORTUNITIES

Graduating from the Bachelor of Arts (Honours) may lead to career opportunities in government, private companies and non-government organisations (NGO) in areas such as land councils, museums, teaching, research, training, diplomacy, communications, media, or consultancy particularly where these organisations engage with central and northern Australia and Asia.

ADMISSION REQUIREMENTS

Successful completion of a recognised bachelor degree or equivalent in an arts-related discipline or field with at least a credit average, including completion at credit level or above of undergraduate units or equivalent in the proposed field of honours study.

ADDITIONAL ADMISSION REQUIREMENTS

Applicants must contact the College of Indigenous Futures, Arts and Society either by email to IFASAdmin@cdcu.edu.au or via phone on (08) 8946 6482 to discuss a potential project and supervision arrangements.

Bachelor of Psychological Science (Honours)

SATAC CODE – 1BH013
Casuarina

DURATION – 1 year full time

DOMESTIC INTAKE – Semester 1

ABOUT THE COURSE

Are you a high achieving psychology student, wanting to distinguish yourself from other graduates and pursue a rewarding career as a clinical psychologist or in other professions? If yes, then the Bachelor of Psychological Science (Honours) could be the next step for you.

The honours program is the most common critical stepping stone towards becoming a registered clinical psychologist. However, this course also opens the doors to an exciting range of valuable specialised graduate and postgraduate studies as well as to higher research degrees such as a PhD.

The Bachelor of Psychological Science (Honours) is a one-year course that is accredited by the Australian Psychology Accreditation Council (APAC) and recognised by the Australian Psychological Society (APS). Upon successful completion, you will be eligible for provisional registration as a psychologist with the Psychology Board of Australia. You could then become eligible for general registration as a psychologist with at least two years of supervised practice.

This honours program gives you an opportunity to acquire expertise and skills that are highly valued by employers in human-centred professions. The honours will enable you to develop an in-depth understanding of psychological theories and practice. You will also have the opportunity to design, conduct, interpret and communicate research.

The expertise and skills that you can gain in the honours program will assist you to better understand yourself, grow and enhance your wellbeing, create healthier and more empowering relationships, adapt to changes in your personal and professional environments, and empower other people. The knowledge and skills you can acquire in the honours program are designed to prepare you for careers in a wide range of areas in private and government organisations.

PROFESSIONAL RECOGNITION

Upon successful completion, you will be eligible for provisional registration as a psychologist with the Psychology Board of Australia.

CAREER OPPORTUNITIES

After graduating, you will have the knowledge and skills to work in areas relevant to human health and wellbeing such as health, counselling, education, sport, marketing, policy, forensic, youth work, justice systems, service delivery, human resource management and research. Depending on your chosen area, you could work in a wide variety of contexts including private practice as a provisional registered psychologist, state/territory and federal government agencies, community organisations, hospitals, businesses, schools and universities.

Completing the honours program gives you access to exciting specialised graduate and postgraduate studies. If you complete your honours with at least a high 2A, you can also continue your studies by undertaking specialised postgraduate courses including the Masters of Psychology (Clinical) or choose a career in research by embarking on a PhD including the PhD/Psych (Clinical).

ADMISSION REQUIREMENTS

Successful completion within the last 10 years of an APAC accredited Bachelor of Psychological Science degree or equivalent. This is a competitive course with more applicants than places available. Applicants must have a GPA of at least 5.50 and at least a credit in second year and third year research design and analysis or equivalent.

Bachelor of Psychological Science (Graduate Entry)

SATAC CODE – 1BG014
Casuarina, Online

DURATION – 1 year full time, 2 years full time

DOMESTIC INTAKE – Semester 1, Semester 2

ABOUT THE COURSE

Do you dream of working as a psychologist? The Bachelor of Psychology (Graduate Entry) is a foundation course, introducing you to the concepts, practices and science of psychology.

You will develop your skills and knowledge in human behaviour which includes the fundamental premise of psychology as an empirically based science, social-cultural perspectives, and research methods.

This course acts as a pathway into the Bachelor of Psychological Science Honours program, which prepares you for specialist training and registration.

PROFESSIONAL RECOGNITION

The degree will be submitted for accreditation by the Australian Psychology Accreditation Council.

CAREER OPPORTUNITIES

This course will equip you with skills and knowledge in a range of psychology areas (eg abnormal psychology, personality, developmental). These skills could lead to career opportunities in human resources, preventative health education and training, community services, advertising and marketing, and sport and rehabilitation.

ADMISSION REQUIREMENTS

Successful completion of a recognised bachelor degree or equivalent together with successful completion of APAC accredited first year psychology units. Students who have completed an APAC accredited undergraduate degree are not eligible for entry.

Bachelor of Laws (Graduate Entry)

SATAC CODE – 1BG013
Casuarina, Online

DURATION – 3 years full time, 6 years part time

DOMESTIC INTAKE – Semester 1, Semester 2

ABOUT THE COURSE

The Bachelor of Laws program (Graduate Entry) enables those who hold a degree level qualification (other than law) to complete a law degree in three years instead of four.

The program provides you with the academic foundation for admission to legal practice. In that context, the course provides you with knowledge of the law, legal processes and legal principles and cultivates a capacity for legal research, analysis and communication.

There is a focus on the analysis, interpretation, evaluation and application of various sources of legal authority to construct solutions to legal problems. The course also deals with theoretical perspectives on the law and encourages an appreciation of transnational law and of legal issues of special significance to the Northern Territory, including Aboriginal legal issues.

PROFESSIONAL RECOGNITION

The Bachelor of Laws (Graduate Entry) is accredited by the Legal Practitioners Admission Board of the Northern Territory and provides the academic foundation for admission to legal practice in the Northern Territory and elsewhere in Australia.

To be admitted to legal practice in Australia, you must also complete the Graduate Diploma in Legal Practice (GDLP). This can be taken through the College of Law, Sydney, and completed online.

CAREER OPPORTUNITIES

Law prepares you to pursue the pathway towards a career as a solicitor or barrister. It may also provide career paths into areas where an in-depth understanding of the law is advantageous, including politics, the public service, industrial relations or community advocacy.

ADMISSION REQUIREMENTS

Successful completion of a recognised bachelor's degree or equivalent.

Bachelor of Laws Honours

NON-SATAC
Casuarina, Online

DURATION – 4 years full time, 8 years part time

DOMESTIC INTAKE – Course transfer

ABOUT THE COURSE

If you're a Bachelor of Laws student at CDU, you may apply to transfer to the honours course in the final year of your degree program. If you choose to do so, your final year will include units in research methodologies and development and undertaking research papers.

Completing the honours course will improve your research and writing skills, which are important for all legal practitioners. It will also provide a pathway for post-graduate study. Note that honours units are taken in place of some of the elective units that you would otherwise study in the Bachelor of Laws degree.

Note: This course is due to be re-accredited for 2020 and you should check the CDU website for availability and updated course information.

PROFESSIONAL RECOGNITION

The Bachelor of Laws is accredited by the Legal Practitioners Admission Board of the Northern Territory and provides the academic foundation for admission to legal practice in the Northern Territory and elsewhere in Australia.

To be admitted to legal practice in Australia, you must also complete the Graduate Diploma in Legal Practice (GDLP). This can be taken through the College of Law, Sydney and completed online. Generally, graduating with an honours degree improves your employment prospects.

CAREER OPPORTUNITIES

The Bachelor of Laws Honours prepares you for a wide range of career opportunities. You may choose to become a solicitor or barrister, or you can work in industries that value an in-depth understanding of the law, for example politics, the public service, industrial relations or community advocacy.

ADMISSION REQUIREMENTS

There is no direct entry into this course. This course is available only as an internal transfer from the Bachelor of Laws. Current students who have completed all first, second and third year units with a GPA of ≥ 5.0 may apply for entry.

Bachelor of Laws Honours (Graduate Entry)

NON-SATAC
Casuarina, Online

DURATION – 3 years full time, 6 years part time

DOMESTIC INTAKE – Course transfer

ABOUT THE COURSE

As a Bachelor of Laws (Graduate entry) student, you may apply to transfer to the honours course in the final year of your degree program. If you choose to complete your honours, the final year will include units in research methodologies and development and the undertaking of research papers. Those units are taken as substitutes for some elective units that would otherwise be taken in the Bachelor of Laws degree program. Completion of the honours course will enhance your research and writing skills, which are important for all legal practitioners. It will also provide a pathway for post-graduate study.

PROFESSIONAL RECOGNITION

The Bachelor of Laws (Honours) Graduate Entry is accredited by the Legal Practitioners Admission Board of the Northern Territory and provides the academic foundation for admission to legal practice in the Northern Territory and elsewhere in Australia.

To be admitted to legal practice in Australia, you must also complete the Graduate Diploma in Legal Practice (GDLP). This can be taken through the College of Law in Sydney and completed online.

CAREER OPPORTUNITIES

The Bachelor of Laws Honours (Graduate Entry) prepares you for a wide range of career opportunities. You may choose to become a solicitor or barrister, or you can work in industries that value an in-depth understanding of the law, for example politics, the public service, industrial relations or community advocacy.

ADMISSION REQUIREMENTS

There is no direct entry into this course. This course is available only as an internal transfer from the Bachelor of Laws (Graduate Entry). Current students who have completed the first and second year units with a GPA of 5.00 or above may apply for transfer into the honours program provided they are concurrently enrolled in the remaining core units for their third year.

Bachelor of Pharmacy Honours

-  **NON-SATAC**
Casuarina
-  **DURATION** – 4 years full time, 8 years part time
-  **DOMESTIC INTAKE** – Course transfer

ABOUT THE COURSE

As a pharmacist, you are responsible for providing information, advice, and education on medicines and health issues helping patients achieve optimal health care.

You also advise medical practitioners and other healthcare professionals on the interactions and side effects of medications, medication selection and dosage, and a range of other health-related issues.

During your Bachelor of Pharmacy Honours course, you will develop your knowledge and skills in areas such as the chemical, physical, and biological properties of drugs, how medications work, their usage, and their clinical effects.

You will also have the opportunity to participate in practical activities and complete a pre-registration internship at an Australian pharmacy.

This course meets the demands for Pharmacy services and research in Australia with additional focus on rural and remote practice to meet the unique and diverse needs of communities in these regions.

As a Pharmacist graduating from the Bachelor of Pharmacy Honours, you will have research experiences that will allow you to continue research in broad fields that include but are not limited to new medications discovery, and best pharmacy practice.

Note: This course is due to be re-accredited for 2020 and you should check the CDU website for availability and updated course information.

PROFESSIONAL RECOGNITION

This course satisfies the requirements of the Australian Pharmacy Council. Eligibility for registration in Australia will be granted by the Pharmacy Board of Australia. Pharmacists registered in Australia are able to work as pharmacists in all Australian states and territories and New Zealand.

CAREER OPPORTUNITIES

Graduating from this course may lead to career opportunities in community, retail and hospital pharmacies, as well as roles in government, private and non-government organisations (NGO).

ADMISSION REQUIREMENTS

There is no direct entry into this course. This course is available only as an internal transfer from the Bachelor of Pharmacy to current students who have completed the first three years of the Bachelor of Pharmacy with GPA ≥ 5.0 . Offers may be limited and will be made on the basis of invitation and interview.

ADDITIONAL ADMISSION REQUIREMENTS

Students enrolled in the Bachelor of Pharmacy who have successfully completed 3rd year (all compulsory common and core units totalling 240 credit points) with a GPA of credit or above (5.00) are eligible to apply to transfer into this honours program.

Bachelor of Science (Honours)

- SATAC CODE** – 1BH004
Casuarina, Online
-  **SATAC CODE** – 1BH007
Alice Springs
-  **DURATION** – 1 year full time, 2 years part time
-  **DOMESTIC INTAKE** – Semester 1, Semester 2

ABOUT THE COURSE

The Bachelor of Science (Honours) will allow you to explore your passion for science and provide the opportunity to become an expert in your chosen research field. This course includes a major research project, advanced level coursework and research skills training in many science disciplines such as:

- environmental science
- health science
- information technology
- clinical science.

Key areas you could base your research on include:

- biology
- ecology
- spatial science
- midwifery
- nursing
- networking
- mobile
- software development
- information systems
- medical science
- clinical science
- sport and exercise science
- pharmacy.

Honours qualifications prepare you for professional positions requiring higher level project management, problem-solving and research skills. Honours qualifications are also a pathway to further study in master or PhD programs.

Note: This course is due to be re-accredited for 2020 and you should check the CDU website for availability and updated course information.

CAREER OPPORTUNITIES

Graduating from this course may lead to career opportunities in the industry, government, private and the community sector as a biologist, ecologist, spatial scientist, biomedical scientist, chemist, consultant, laboratory assistant, academic, project manager or advisor.

ADMISSION REQUIREMENTS

Successful completion of a recognised bachelor's degree or equivalent in science, information technology, environmental science, health or allied health, biomedical science, sports science or engineering-related disciplines with at least a credit average (GPA of 5.00).

ADDITIONAL APPLICATION REQUIREMENTS

Applicants must contact the college at environment@cdu.edu.au or on (08) 8946 6781 to discuss a potential project and supervision prior to submitting an application. In addition to a credit average (GPA of 5.00), applicants are required to have a project topic and project supervisor who has agreed to supervise the student and project before admission is approved.

Postgraduate courses

Graduate Diploma of Indigenous Policy Development

SATAC CODE – 1GD021

 Casuarina, Online (Commonwealth Supported)

SATAC CODE – 1GD521
Casuarina, Online (Full Fee)

 **DURATION** – 1 year full time, 2 years part time

 **DOMESTIC INTAKE** – Semester 1, Semester 2

ABOUT THE COURSE

With the Graduate Diploma of Indigenous Policy Development you will build on your professional knowledge and experiences with a critical understanding of important aspects of Indigenous economic and policy development in modern Australia.

You will examine key issues of Indigenous policy development and implementation, economic development and participation, traditional and modern governance structures, and intellectual and cultural property rights in current social and political contexts.

This course is an essential foundation for respectful and accountable engagement with Indigenous people and the current social and political issues they face in Australia and internationally.

This is an important course if you want to develop your knowledge and understanding of:

- the workings of government and policy
- the structures and functions of governance in relation to Indigenous people
- the practice of cultural engagement with and between Indigenous and non-Indigenous people
- the culture and language of Yolngu people.

CAREER OPPORTUNITIES

Potential employment opportunities include roles in government and non-government organisations that look after Indigenous affairs in areas such as research, policy development, or media and communications and academia.

ADMISSION REQUIREMENTS

Successful completion of a recognised bachelor degree or equivalent. Consideration will also be given to non-graduates who have at least five years appropriate professional experience, for example policy development, research, governance or service delivery. Applicants may be asked to provide further documentation detailing their employment experience, roles and achievements in the form of a curriculum vitae.

Graduate Certificate of Indigenous Engagement

SATAC CODE – 1GC023

 Online (Commonwealth Supported)

SATAC CODE – 1GC523
Online (Full Fee)

 **DURATION** – 1 year part time

 **DOMESTIC INTAKE** – Semester 1, Semester 2

ABOUT THE COURSE

The Graduate Certificate of Indigenous Engagement course will broaden your knowledge and skills in the effective and respectful engagement with people in Indigenous contexts.

You will explore and critically analyse the historical and contemporary contexts of interactions between Indigenous and non-Indigenous people and develop communication skills to assist in establishing, maintaining and promoting respectful interactions and partnerships targeted at particular areas of professional expertise.

CAREER OPPORTUNITIES

Graduating from this course may lead to career opportunities to work with Aboriginal and Torres Strait Islander people, organisations and communities, government departments and agencies, or private enterprises that are involved in Indigenous affairs.

ADMISSION REQUIREMENTS

Successful completion of a recognised bachelor degree or equivalent. Consideration will be given to non-graduates who have over five years of demonstrated relevant professional experience. Applicants may be asked to provide further documentation detailing their employment experience, roles and achievements in the form of a curriculum vitae.

Graduate Certificate of Indigenous Research Methodologies

 SATAC CODE – 1GC524 Online (Full Fee)
 DURATION – 1 year part time
 DOMESTIC INTAKE – Semester 1, Semester 2

ABOUT THE COURSE

See first-hand how your research contributions can create positive change and support equitable and meaningful engagement with Indigenous Australians.

During your graduate certificate studies, you explore and analyse alternative epistemological paradigms that can inform your research practice and allow for engagement in research that provides outcomes consistent with Indigenous communities; vision and aims.

You will develop a deeper understanding of the epistemological foundations of Indigenous research methodologies and apply your skills working with Indigenous people to secure equitable outcomes that may inform community development and public policy outcomes.

Your studies ensure you can demonstrate an ability to apply the research practices learnt in a culturally informed and respectful manner.

CAREER OPPORTUNITIES

You have the opportunity to develop your knowledge and skills useful for roles with: Aboriginal and Torres Strait Islander people, organisations and communities, government departments and agencies who are developing and implementing policy related to and having an impact upon Indigenous people, private agencies and organisations that are involved in Indigenous affairs and are keen to be informed by meaningful and equitable research processes.

ADMISSION REQUIREMENTS

Successful completion of a recognised bachelor degree or equivalent, or demonstrated relevant professional experience equivalent to five years or more. Applicants may be asked to provide further documentation detailing their employment experience, roles and achievements in the form of a curriculum vitae.

Graduate Certificate in Yolngu Studies

 SATAC CODE – 1GC003 Casuarina, Online (Commonwealth Supported)
 SATAC CODE – 1GC503 Casuarina, Online (Full Fee)
 DURATION – 1 year part time
 DOMESTIC INTAKE – Semester 1, Semester 2

ABOUT THE COURSE

With the Graduate Certificate in Yolngu Studies, you will be introduced to the life and languages of the Yolngu people in east Arnhem Land gaining invaluable insight into the complexity of Indigenous worlds found elsewhere in Australia.

This course concentrates on Yolngu Rom (law, education), Yolngu Matha (Yolngu languages) forms of Gupapuyngu Dhuwala, and you will learn the everyday conversation version of the language, building on grammar and basic vocabulary, which will help if you decide to continue learning other Yolngu languages.

Key areas you will also explore are Yolngu life, kinship practice, creation stories, songs, art and ceremonies and how they are related. This will help students to be able to comprehend the way in which Yolngu collectively make and enact traditional knowledge.

Note: This course is due to be re-accredited for 2020 and you should check the CDU website for availability and updated course information.

CAREER OPPORTUNITIES

Your qualification will complement professional positions and prepares you for career opportunities in policy development, health and education, public servant roles, research and other roles not just in Yolngu communities.

ADMISSION REQUIREMENTS

Successful completion of a recognised bachelor degree or equivalent. Native speakers of a Yolngu language who do not have an undergraduate degree, but who are recognised by the Yolngu advisors to the college as having advanced literacy skills or experience in research or education, will be eligible for admission. People in regular contact with Yolngu through their professions, and who can demonstrate significant knowledge of culture and language proficiency, will be considered for entry to the course.

Master of Business Administration

 SATAC CODE – 1CM569 Waterfront Darwin, Online (Full Fee)
 SATAC CODE – 1CM570 Sydney (Full Fee)
 DURATION – 1.5 years full time, 3 years part time
 DOMESTIC INTAKE – Semester 1, Semester 2, Summer Semester

ABOUT THE COURSE

The Master of Business Administration (MBA) develops the key attributes and skills you need to move into senior and middle management positions in business, industry and the public sector. It complements your existing qualifications and experience, giving you an opportunity to learn more about:

- accounting for managers
- business research
- decision making
- communication
- negotiation and conflict resolution
- economics for managers
- organisational behaviour
- organisational strategy and leadership
- fundamentals of management.

At CDU, you can study an MBA online or on campus to suit your lifestyle. You can also tailor your studies to suit your goals, with options to design your coursework around your areas of interest.

CAREER OPPORTUNITIES

The Australian Government predicts strong industry demand for business degree graduates from a wide range of sectors. As a Master of Business Administration graduate you will be qualified to pursue a range of exciting domestic and international career opportunities, which include business planning and management, brand management, marketing, market research, business analysis, e-commerce, human resource management, and many others.

ADMISSION REQUIREMENTS

Successful completion of a recognised bachelor degree, graduate certificate or graduate diploma in a business or related field.

OR

Successful completion of a recognised non-business award (bachelor degree, graduate certificate or graduate diploma) aimed at providing the student with professional skills that include a systematic exposure to disciplines such as industrial relations, human resource management, project management, financial management, marketing, economics, e-commerce or strategic management plus a minimum of 6 months employment experience.

OR

Successful completion of a recognised bachelor degree, graduate certificate or graduate diploma in an unrelated field plus a minimum of two years full-time employment experience in a managerial role.

You may be asked to provide further documentation detailing your employment experience and outlining managerial roles and achievements.

If you have no undergraduate or post graduate qualifications, you should apply for entry into one of the following programs:

- Graduate Certificate of Global Marketing (1GC525)
- Graduate Certificate of Human Resource Management (1GC527)
- Graduate Certificate of Strategic Management (1GC531).

Master of Business Administration (Professional Practice)

SATAC CODE – 1CM572
Waterfront Darwin, Online (Full Fee)

SATAC CODE – 1CM573
Sydney (Full Fee)

- Graduate Certificate of Strategic Management (1GC531).

Master of Professional Accounting

SATAC CODE – 1CM054
Waterfront Darwin, Online (Commonwealth Supported)

SATAC CODE – 1CM554
Waterfront Darwin, Online (Full Fee)

SATAC CODE – 1CM055
Sydney (Commonwealth Supported)

SATAC CODE – 1CM555
Sydney (Full Fee)

DURATION – 1.5 years full time, 3 years part time

DOMESTIC INTAKE – Semester 1

ABOUT THE COURSE

The Master of Professional Accounting complements your non-accounting or partial accounting, or accounting but not equivalent to Australian accounting qualifications to meet the entry requirements for membership of CPA Australia and The Chartered Accountants of Australia and New Zealand (CAANZ).

The course focuses on the knowledge and skills required for practice as a certified practising accountant or chartered accountant along with effective management, accountability and control, and effective decision making for financial success.

You will develop technical and conceptual skills required to become a competent accountant as well as abilities to analyse, criticise and synthesise various accounting and related principles, methods and techniques.

Key study areas include: financial accounting, management accounting, accounting theory, information systems/technology, auditing, taxation, finance, company law, and corporate law.

PROFESSIONAL RECOGNITION

This is a conversion course that enables graduates with non-accounting or partial accounting backgrounds to meet the entry requirements for membership of CPA Australia, The Chartered Accountants of Australia and New Zealand (CAANZ), and The Chartered Institute of Management Accountants in the U.K.

CAREER OPPORTUNITIES

Completing a Master of Professional Accounting with relevant work experience can lead to a wide range of career opportunities in small, medium and large organisations. As a graduate, you may become a financial accountant, management accountant, financial auditor, tax auditor/preparer, business/financial analyst, or work in a large multinational company or 'Big Four' accounting firm. Or, you could run your own businesses, work in a small local accounting firm, or work in other areas of business management.

ADMISSION REQUIREMENTS

Successful completion of a recognised bachelor's degree in any discipline, including a bachelor's degree in accounting but not equivalent to an Australian bachelor's degree in accounting is required for admission into this course.

Applicants who have fully satisfied the entry requirements of the accounting professional bodies in their first degree are not eligible for entry.

Master of Professional Accounting (Professional Practice)

SATAC CODE – 1CM557
Waterfront Darwin, Online (Full Fee)

SATAC CODE – 1CM558
Sydney (Full Fee)

DURATION – 2 years full time, 4 years full time

DOMESTIC INTAKE – Semester 1, Semester 2,
Summer Semester

ABOUT THE COURSE

The Master of Professional Accounting (Professional Practice) complements your non-accounting, partial accounting, or accounting but not equivalent to Australian accounting qualifications to meet the entry requirements for membership of CPA Australia and The Chartered Accountants of Australia and New Zealand (CAANZ).

This course focuses on the knowledge and skills required for practice as a certified practising accountant or chartered accountant along with effective management, accountability and control, and effective decision-making for financial success.

You will develop your technical and conceptual skills required to become a competent accountant as well as abilities to analyse, criticise and synthesise various accounting and related principles, methods and techniques.

Key study areas include: financial accounting, management accounting, accounting theory, information systems/technology, auditing, taxation, finance, company law, and corporate law. You will also combine academic studies with professional practice experience related to accountancy.

PROFESSIONAL RECOGNITION

This conversion course enables graduates to meet the entry requirements for membership of CPA Australia, the Chartered Accountants Australia and New Zealand (CAANZ), and The Chartered Institute of Management Accountants in the U.K.

CAREER OPPORTUNITIES

Completing a Master of Professional Accounting (Professional Practice) can lead to a wide range of career opportunities in small, medium and large organisations. As a graduate, you may become a financial accountant, management accountant, financial auditor, tax auditor/preparer, business/financial analyst, or work in a large multinational company or 'Big Four' accounting firm. Or, you could run your own businesses, work in a small local accounting firm, or work in other areas of business management.

ADMISSION REQUIREMENTS

Successful completion of a recognised bachelor's degree in any discipline, including a bachelor's degree in accounting but not equivalent to an Australian bachelor's degree in accounting is required for admission into this course.

Applicants who have fully satisfied the entry requirements of the accounting professional bodies in their first degree are not eligible for entry.

Graduate Diploma of Business Administration

SATAC CODE – 1GD525
Waterfront Darwin, Online (Full Fee)

SATAC CODE – 1GD526
Sydney (Full Fee)

DURATION – 1 year full time, 2 years part time

DOMESTIC INTAKE – Semester 1, Semester 2, Summer Semester

ABOUT THE COURSE

This course builds and develops your knowledge, skills and understanding of strategic management.

CAREER OPPORTUNITIES

By completing this course, you may gain career opportunities in industries that offer middle to upper management level positions in private companies and government.

ADMISSION REQUIREMENTS

Successful completion of a recognised bachelor degree, graduate certificate or graduate diploma in a business or related field.

OR

Successful completion of a recognised non business award (bachelor degree, graduate certificate or graduate diploma) aimed at providing the student with professional skills that include a systematic exposure to disciplines such as industrial relations, human resource management, project management, financial management, marketing, economics, ecommerce or strategic management plus a minimum of 6 months employment experience.

OR

Successful completion of a recognised bachelor degree, graduate certificate or graduate diploma in an unrelated field plus a minimum of two years full-time employment experience in a managerial role.

You may be asked to provide further documentation detailing your employment experience and outlining managerial roles and achievements.

If you have no undergraduate or post graduate qualifications, you should apply for entry into one of the following programs:

- Graduate Certificate of Global Marketing (1GC525)
- Graduate Certificate of Human Resource Management (1GC527)
- Graduate Certificate of Strategic Management (1GC531).

Graduate Certificate of Global Marketing

SATAC CODE – 1GC525
Waterfront Darwin, Online (Full Fee)

SATAC CODE – 1GC526
Sydney (Full Fee)

DURATION – 1 year part time

DOMESTIC INTAKE – Semester 1, Semester 2, Summer Semester

ABOUT THE COURSE

This course develops your knowledge and skills applied to successful entrepreneurial ventures, business to business (B2B) marketing, business to customer (B2C) marketing and marketing in the service industry.

As a marketing specialist, you are responsible for generating key revenue in organisations. Marketing determines the products and services offered, prices, the communications (including advertising and promotion), as well as the channels of distribution and retail. Your skill set is also valuable in multiple areas of business including accounting and finance, human resources and management, taxation and law.

The importance of marketing has grown over the past decade due to competition and a renewed focus on creating favourable customer experiences. The marketing manager's role has also grown due to increasing internationalisation and rapidly evolving technologies and social media, not to mention growing recognition of the need for sustainability and corporate accountability. All these changes have occurred during an era of increasing accountability.

The Graduate Certificate in Global Marketing explores modern marketing in the increasingly dynamic and international business environment.

CAREER OPPORTUNITIES

You may have career opportunities in marketing management, brand management, customer relationship management, market research, communications or public relations.

The Graduate Certificate of Global Marketing also provides you with a pathway into the Masters of Business Administration, which offers further career progression opportunities.

ADMISSION REQUIREMENTS

Successful completion of a recognised bachelor degree, graduate certificate or graduate diploma in a business or related field.

OR

Successful completion of a recognised non business award (bachelor degree, graduate certificate or graduate diploma) aimed at providing the student with professional skills that include a systematic exposure to disciplines such as industrial relations, human resource management, project management, financial management, marketing, economics, ecommerce or strategic management plus a minimum of 6 months employment experience.

OR

Successful completion of a recognised bachelor degree, graduate certificate or graduate diploma in an unrelated field plus a minimum of two years full-time employment experience in a managerial role.

Consideration will also be given to non-graduates who have at least three years of appropriate professional experience in middle to high level management.

Applicants may be asked to provide further documentation detailing their employment experience and outlining managerial roles and achievements in the form of curriculum vitae, two referee reports and a statement of purpose. The statement of purpose should address why you would like to be admitted into the course, career goals and aspirations, and how you will benefit from the course.

Graduate Certificate of Human Resource Management

SATAC CODE – 1GC527
Waterfront Darwin, Online (Full Fee)

SATAC CODE – 1GC528
Sydney (Full Fee)

DURATION – 1 year part time

DOMESTIC INTAKE – Semester 1, Semester 2, Summer Semester

ABOUT THE COURSE

This course is designed to develop your knowledge and skills in human resource management. Key areas you will study include: communication, negotiation and conflict resolution, international human resource management, organisational behaviour and contemporary management issues.

CAREER OPPORTUNITIES

You may gain career opportunities in middle to upper management positions in the private and public sectors.

The Graduate Certificate of Human Resource Management also provides you with a pathway into the Master of Business Administration, which offers further career progression opportunities.

ADMISSION REQUIREMENTS

Successful completion of a recognised bachelor degree, graduate certificate or graduate diploma in a business or related field.

OR

Successful completion of a recognised non business award (bachelor degree, graduate certificate or graduate diploma) aimed at providing the student with professional skills that include a systematic exposure to disciplines such as industrial relations, human resource management, project management, financial management, marketing, economics, ecommerce or strategic management plus a minimum of 6 months employment experience.

OR

Successful completion of a recognised bachelor degree, graduate certificate or graduate diploma in an unrelated field plus a minimum of two years full-time employment experience in a managerial role.

Consideration will also be given to non-graduates who have at least three years of appropriate professional experience in middle to high level management.

Applicants may be asked to provide further documentation detailing their employment experience and outlining managerial roles and achievements in the form of curriculum vitae, two referee reports and a statement of purpose. The statement of purpose should address why you would like to be admitted into the course, career goals and aspirations and how you will benefit from the course.

Graduate Certificate of Strategic Management

SATAC CODE – 1GC531
Waterfront Darwin, Online (Full Fee)

SATAC CODE – 1GC532
Sydney (Full Fee)

DURATION – 1 year part time

DOMESTIC INTAKE – Semester 1, Semester 2, Summer Semester

ABOUT THE COURSE

The Graduate Certificate of Strategic Management will help you get the qualifications and skills to be a confident candidate when applying for middle to upper-management positions.

The specialised course develops your knowledge, skills and understanding of strategic management.

Key areas you will study includes decision making, organisational strategy and leadership, contemporary management issues and operations management.

CAREER OPPORTUNITIES

Graduates may have the opportunity to move into a variety of industries that offer middle to upper management positions in the private and public sectors.

The Graduate Certificate of Strategic Management also provides you with a pathway into the Master of Business Administration, which offers further career progression opportunities.

ADMISSION REQUIREMENTS

Successful completion of a recognised bachelor degree, graduate certificate or graduate diploma in a business or related field.

OR

Successful completion of a recognised non business award (bachelor degree, graduate certificate or graduate diploma) aimed at providing the student with professional skills that include a systematic exposure to disciplines such as industrial relations, human resource management, project management, financial management, marketing, economics, ecommerce or strategic management plus a minimum of 6 months employment experience.

OR

Successful completion of a recognised bachelor degree, graduate certificate or graduate diploma in an unrelated field plus a minimum of two years full-time employment experience in a managerial role.

Consideration will also be given to non-graduates who have at least three years of appropriate professional experience in middle to high level management.

Applicants may be asked to provide further documentation detailing their employment experience and outlining managerial roles and achievements in the form of curriculum vitae, two referee reports and a statement of purpose. The statement of purpose should address why you would like to be admitted into the course, career goals and aspirations and how you will benefit from the course.

Master of Data Science

SATAC CODE – ICM590
Casuarina, Online (Full Fee)

DURATION – 2 years full time, 4 years part time

DOMESTIC INTAKE – Semester 1, Semester 2

ABOUT THE COURSE

The Master of Data Science will further develop your technical and analytical skills needed to manage and interpret useful insights from massive data sets.

This qualification complements the following multi-disciplinary areas:

- computer science
- information technology
- information systems
- statistics
- mathematics
- engineering or a program with substantial quantitative competencies.

Your coursework will also include a project-based assessment allowing you to focus on what you are passionate about.

CAREER OPPORTUNITIES

Graduating from a Master of Data Science may lead to career opportunities as a business analyst, data scientist, data analyst, data engineer or data manager.

ADMISSION REQUIREMENTS

Successful completion of a recognised bachelor's degree with a major in computer science, information technology, information systems, statistics, mathematics, engineering, or a program with substantial quantitative competencies.

Master of Information Technology (Cyber Security)

SATAC CODE – 1CM091
Casuarina, Online (Commonwealth Supported)

SATAC CODE – 1CM591
Casuarina, Online (Full Fee)

SATAC CODE – 1CM093
Sydney (Commonwealth Supported)

SATAC CODE – 1CM593
Sydney (Full Fee)

DURATION – 2 years full time, 4 years part time

DOMESTIC INTAKE – Semester 1, Semester 2

ABOUT THE COURSE

The Master of Information Technology (Cyber Security) complements your current information systems, information technology and computer science degree.

The course focuses on cyber security in the modern world. You will apply your knowledge in practical activities giving you the opportunity to work alongside industry leaders.

PROFESSIONAL RECOGNITION

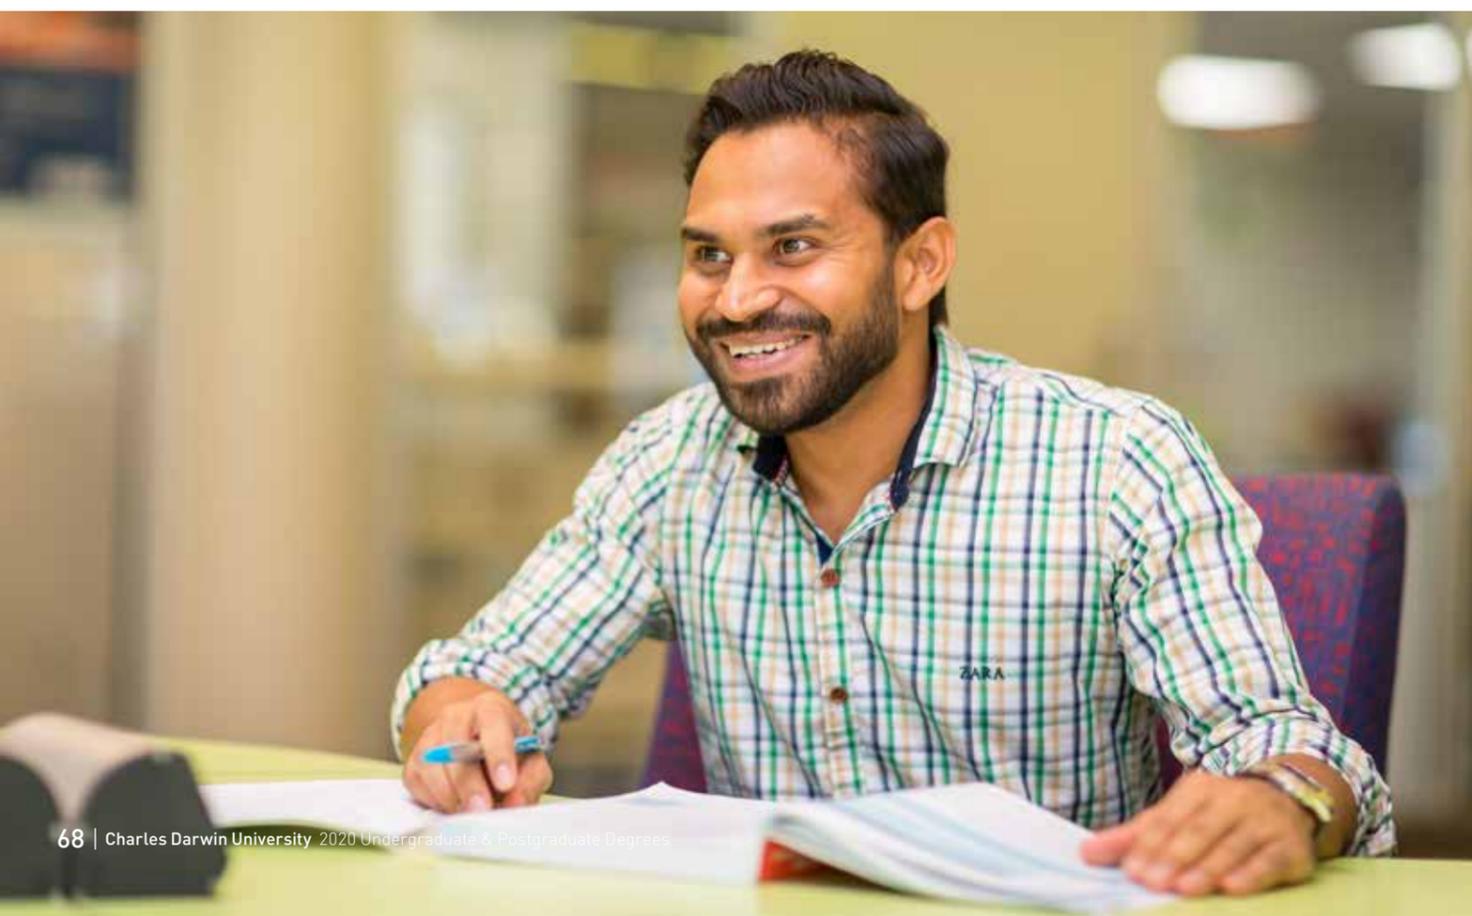

The Master of Information Technology (Cyber Security) is accredited by Australia Computer Society at the level of professional practice in ICT (cyber security) and therefore recognised internationally under the Seoul Accord.

CAREER OPPORTUNITIES

Graduating from this course may lead to a career as an ICT security specialist, network security analyst or security officer.

ADMISSION REQUIREMENTS

Successful completion of a recognised Bachelor of Information Systems, Bachelor of Information Technology or Bachelor of Computer Science, Bachelor of Computer Engineering, or equivalent.

Master of Information Technology (Information Systems and Data Science)

<p>SATAC CODE – 1CM575 Casuarina, Online (Full Fee)</p> <p>SATAC CODE – 1CM594 Sydney (Full Fee)</p>
<p>DURATION – 2 years full time, 4 years part time</p>
<p>DOMESTIC INTAKE – Semester 1, Semester 2</p>

ABOUT THE COURSE

The Master of Information Technology (Information Systems and Data Science) complements your current information systems, information technology or computer science degree.

The course focuses on information systems and data science and its effects in the modern world. You will explore the impacts of information systems and data science in the course and project work. Your studies will combine theory with practical activities giving you the opportunity to network with industry leaders.

PROFESSIONAL RECOGNITION

The Master of Information Technology (Information Systems and Data Science) is accredited by Australia Computer Society at the level of professional practice in ICT and therefore recognised internationally under the Seoul Accord.

CAREER OPPORTUNITIES

Graduating from this course may lead to a career as a business analyst, data scientist, data analyst, data manager and data engineer.

ADMISSION REQUIREMENTS

Successful completion of a recognised Bachelor of Information Systems, Bachelor of Information Technology or Bachelor of Computer Science, Bachelor of Computer Engineering or equivalent.

Master of Information Technology (Software Engineering)

<p>SATAC CODE – 1CM027 Casuarina, Online (Commonwealth Supported)</p> <p>SATAC CODE – 1CM527 Casuarina, Online (Full Fee)</p> <p>SATAC CODE – 1CM095 Sydney (Commonwealth Supported)</p> <p>SATAC CODE – 1CM595 Sydney (Full Fee)</p>
<p>DURATION – 2 years full time, 4 years part time</p>
<p>DOMESTIC INTAKE – Semester 1, Semester 2</p>

ABOUT THE COURSE

The Master of Information Technology (Software Engineering) complements your other information technology qualifications by helping you broaden your skill set in a specialised field.

Key areas you will study include project and risk management, current industry practices, processes and methodologies and entrepreneurship. You will combine your academic studies with practical industry experience with opportunities to network with industry leaders.

Note: This course is due to be re-accredited for 2020 and you should check the CDU website for availability and updated course information.

PROFESSIONAL RECOGNITION

The Master of Information Technology (Software Engineering) is accredited by Australia Computer Society at the level of professional practice in ICT and therefore recognised internationally under the Seoul Accord.

CAREER OPPORTUNITIES

Graduating from a Master of Information Technology (Software Engineering) will provide you with the skillset and knowledge to make you a competitive candidate in a specialised field in areas such as consultancy, start-ups, government departments, private companies, non-government organisations (NGO) and community groups.

ADMISSION REQUIREMENTS

Successful completion of a recognised Bachelor of Information Technology or Bachelor of Computer Science or equivalent.

Graduate Diploma of Data Science

<p>SATAC CODE – 1GD528 Casuarina, Online (Full Fee)</p>
<p>DURATION – 1 year full time, 2 years part time</p>

Casuarina, Online (Commonwealth Supported)

SATAC CODE – 1GC535
Casuarina, Online (Full Fee)

DURATION – 1 year part time

DOMESTIC INTAKE – Semester 1, Semester 2

ABOUT THE COURSE

The Graduate Certificate of Information Technology (Cyber Security) complements your other information technology qualifications and allows you to specialise in cyber security in the modern world. You will apply your knowledge in practical activities giving you the opportunity to work alongside industry leaders.

CAREER OPPORTUNITIES

Graduating from this course may lead to career as an ICT security specialist, network security analyst or security officer.

ADMISSION REQUIREMENTS

Successful completion of a recognised Bachelor of Information Systems, Bachelor of Information Technology or Bachelor of Computer Science, Bachelor of Computer Engineering or equivalent.

Master of Education (Global Learning)

SATAC CODE – 1CM076
Casuarina, Online (Commonwealth Supported)

SATAC CODE – 1CM576
Casuarina, Online (Full Fee)

DURATION – 1 year full time, 2 years part time

DOMESTIC INTAKE – Semester 1, Semester 2

ABOUT THE COURSE

The Master of Education (Global Learning) focuses on globalised learning and prepares you for research in this area.

This course aims to meet the professional development needs of education policymakers, practitioners, school teachers and principals and researchers working across Australia and in the Asia Pacific.

You are encouraged to customise this course to meet personal, organisational, workplace and community interests. Key areas you could base your research on include: international education, education policy, higher education, vocational education, literacy and language, English language teaching in Asia, educational leadership and management, Indigenous education, digital learning futures, education for all, technical and vocational education and training, and adult education.

During this course, you will further strengthen your analytical thinking, collaborative learning, project management, and transformative practice skills in local and global settings. You are also encouraged to apply what you learn in practical contexts during your studies in order to build on your work experience.

CAREER OPPORTUNITIES

Graduating from this course may lead to career opportunities as education policymakers, practitioners, school teachers and principals and researchers working across Australia and in the Asia Pacific.

ADMISSION REQUIREMENTS

Successful completion of one of the following:

- a) a recognised four-year degree in a field related to education
- b) a recognised three-year degree plus a graduate certificate, graduate diploma or honours degree of which at least one must be in a field related to education
- c) a qualification or qualifications and professional experience deemed equivalent to the above.

Master of Digital Learning Futures

SATAC CODE – 1CM567
Casuarina, Online (Full Fee)

DURATION – 2 years full time, 4 years part time

DOMESTIC INTAKE – Semester 1, Semester 2

ABOUT THE COURSE

Advancements and innovations with digital technology are not stopping now! The Master of Digital Learning Futures can help you get ready for the next wave of global transformation. This innovative, industry-relevant program investigates the dynamics of the digital era. What new 'smarts' are on the horizon and what skills are needed to engage effectively within the digital paradigm? How might we learn next? How might we teach?

The Master of Digital Learning Futures is an inter-disciplinary course that probes the possibilities of digital media and how it can optimise learning.

The course is suited to those working or aiming to work in educational settings, creative industries, software development, learning design, e-learning and related fields. Based on a solid foundation of core units, you'll have opportunities for research and internships, as well as the flexibility to choose from electives in new media production skills, web development, programming and systems management.

CAREER OPPORTUNITIES

Graduating from this course may lead to a range of roles, including in teaching or as a teaching centre technology officer, instructional designer, education software developer, learning and development specialist or e-learning specialist.

ADMISSION REQUIREMENTS

Successful completion of a recognised bachelor's degree or higher.

Master of Teaching

SATAC CODE – EARLY CHILDHOOD/PRIMARY – 1CM077
Casuarina, Online (Commonwealth Supported)

SATAC CODE – PRIMARY – 1CM081
Casuarina, Online (Commonwealth Supported)

SATAC CODE – SECONDARY – 1CM085
Casuarina, Online (Commonwealth Supported)

DURATION – 2 years full time, 4 years part time

DOMESTIC INTAKE – Semester 1, Semester 2, Summer Semester

ABOUT THE COURSE

If you already hold a bachelor's degree in a field other than education, the Master of Teaching can help you to become a teacher in two years. At CDU, you can study your Master of Teaching online or on campus, part time or full time. This makes it easier to study where, when and how it suits you.

On graduating, you'll be eligible to register as a teacher in all states and territories in Australia.

The Master of Teaching qualifies you to teach early childhood (birth to year 7), primary (transition to year 7) or secondary (year 8 to 12). Before you start studying, you'll need to choose the stream that suits your career goals and interests.

The course prepares you for new and changing roles as an educator. You will develop continuing awareness of the environmental and cultural influences on teaching and learning. You'll also explore the needs of learners and communities with diverse linguistic and cultural orientations, including Indigenous learners.

As a teacher, your levels of personal literacy and numeracy will be broadly equivalent to the top 30% of the Australian population.

PROFESSIONAL RECOGNITION

The Master of Teaching has been accredited through the Teacher Registration Board of the Northern Territory. It is consistent with the standards established by the Australian Institute for Teaching and School Leadership for the Accreditation of Initial Teacher Education Programs in Australia.

The Early Childhood and Primary Teaching stream is approved with the Australian Children's Education and Care Quality Authority (ACECQA).

Graduates of the course will be eligible to register as a teacher in all Australian State and Territory jurisdictions (subject to meeting other eligibility criteria, such as the National Literacy and Numeracy test for Initial Teacher Education aligned with Teacher Registration Requirement, English proficiency and suitability to teach).

Before applying for admission, students intending to seek employment should have the relevant State/Territory employment authority (eg State or Territory Department of Education, or Catholic Education Office) confirm their eligibility and suitability for employment.

CAREER OPPORTUNITIES

Graduating with a Master of Teaching prepares you to teach in early childhood, primary or secondary school settings. It also prepares you to work in associated educational areas, such as curriculum development, educational planning, educational research, and policy development.

ADMISSION REQUIREMENTS

For the early childhood and primary teaching stream

Successful completion of a recognised bachelor degree or equivalent in either early childhood, primary or an area relevant to early childhood/primary curriculum, such as art, music, technologies, English, health and physical education, mathematics, science or humanities and social sciences (for example, history and geography).

For the primary teaching stream

Successful completion of a recognised bachelor degree or equivalent with at least one-year equivalent full time in an area relevant to primary curriculum, such as art, music, technologies, English, health and physical education, mathematics, science or humanities and social sciences (for example, history and geography).

For the secondary teaching stream

Successful completion of a recognised bachelor degree or equivalent comprising of a major sequence and a minor sequence in two of the following secondary teaching areas: English, legal studies, Indigenous studies, accounting, business studies, economics, geography, history, mathematics, languages other than English, music, technologies, visual arts, chemistry, biology/ecology, environmental science, physics and health and physical education.

A major sequence is defined as one quarter of a three-year degree and a minor sequence is defined as one sixth of a three-year degree.

Note: if you have completed a major sequence in a teaching area, but do not meet the minimum requirements of one sixth in a second teaching area, you are required to contact Student Central on 1800 061 963 or student.central@cdcu.edu.au for advice before submitting your application to study.

ADDITIONAL ADMISSION REQUIREMENTS

It is also a government requirement that you complete a Teaching Capabilities Statement, which is used to demonstrate your suitability to study and work in the teaching profession.

Graduate Certificate of Education (Global Learning)

SATAC CODE – 1GC533
Casuarina, Online (Full Fee)

DURATION – 0.5 years full time, 1 year part time

DOMESTIC INTAKE – Semester 1, Semester 2

ABOUT THE COURSE

The Graduate Certificate of Education (Global Learning) is a diverse and innovative course covering international education, education policy, higher education, vocational education, literacy and language, English language teaching in Asia, educational leadership, Indigenous education and digital technologies and learning.

This course aims to meet the professional development needs of education policymakers, practitioners, school teachers and principals, and researchers working across Australia and in the Asia Pacific, in areas such as (but not limited to): teacher education, higher education, community development, schooling educators interested in digital learning, futures education for all technical and vocational education, and training adult education. It includes pathways to teacher and principal training.

During this course, you will further strengthen your analytical thinking, collaborative learning, project management, and transformative practice skills in local and global settings. You are also encouraged to apply what you learn in practical contexts during your studies building real world experience.

CAREER OPPORTUNITIES

Graduating from this course may lead to career opportunities as education policymakers, practitioners, school teachers and principals, and researchers working across Australia and in the Asia Pacific.

ADMISSION REQUIREMENTS

Successful completion of one of the following:

- a recognised four-year degree in a field related to education
- a recognised three-year degree plus a graduate certificate, graduate diploma or honours degree of which at least one must be in a field related to education
- a qualification or qualifications and professional experience deemed equivalent to the above.

Master of Engineering

SATAC CODE – CHEMICAL – 1CM061
Casuarina, Online (Commonwealth Supported)

SATAC CODE – CHEMICAL – 1CM561
Casuarina, Online (Full Fee)

SATAC CODE – CIVIL AND STRUCTURAL – 1CM064

SATAC CODE – CIVIL AND STRUCTURAL – 1CM564
Casuarina, Online (Full Fee)

SATAC CODE – ELECTRICAL AND ELECTRONICS – 1CM065
Casuarina, Online (Commonwealth Supported)

SATAC CODE – ELECTRICAL AND ELECTRONICS – 1CM565
Casuarina, Online (Full Fee)

SATAC CODE – MECHANICAL – 1CM066
Casuarina, Online (Commonwealth Supported)

SATAC CODE – MECHANICAL – 1CM566
Casuarina, Online (Full Fee)

DURATION – 2 years full time, 4 years part time

DOMESTIC INTAKE – Semester 1, Semester 2

ABOUT THE COURSE

The Master of Engineering will build on your previous knowledge and encourage you to develop a deeper and integrated understanding of the scientific and engineering principles of your engineering discipline. You will also be prompted to build leadership and research skills for the development of engineering or research projects.

This course specifically offers hands-on, practical experience, which will help you in your future career as a professional engineer. Special emphasis is placed on the themes of sustainability, creativity, teamwork, design, research and leadership. This course was developed in consultation with, and is supported by, industry leaders. You'll graduate with the foundation of engineering knowledge which directly aligns with international industry requirements.

As a professional chemical engineer, you will be able to contribute significantly to the design, operation and management processes to transform raw materials into high-value products. You are involved in key areas such as oil and gas refining, minerals processing, plastics, food processing and pharmaceuticals manufacturing.

As a professional civil and structural engineer, you will continuously be challenging traditional civil and construction methods with creativity and innovation to help design and manage structures for the modern world. Key areas include structures, water resources, roads and traffic, bridges and marine structures.

As a professional electrical and electronics engineer, you will be able to contribute significantly to the design, automation and control of devices which make modern life convenient. You will be involved in electronics, telecommunications, biomedical applications, power generation and distribution, including renewable energy. You will develop skills in communication methods, electronic control systems and power engineering, together with a background of sustainable engineering principles.

As a professional mechanical engineer, you will be able to make significant contributions to the design and development of machinery to improve transportation, and to provide affordable solutions for manufacturing and industrial production. Key areas include mechatronics, robotics, biomechanical applications, aeroplanes, cars, pumps and pipelines.

PROFESSIONAL RECOGNITION

EUR-ACE

The Master of Engineering is accredited internationally to European EUR-ACE requirements.

ENGINEERS AUSTRALIA

The Master of Engineering is accredited by Engineers Australia at the level of professional engineer and therefore recognised internationally under the Washington Accord.

ICHEME

The Master of Engineering (Chemical) is accredited by IChemE at master's level (F-Level).

CAREER OPPORTUNITIES

Graduating from the chemical engineering major of this course may lead to career opportunities in areas such as design, project management, manufacturing, process control, mining, oil and gas, consultation, and minerals processing.

Graduating from the civil and structural engineering major of this course may lead to professional opportunities in areas such as design, construction, water supply and treatment, infrastructure development, roads and traffic and project management.

Graduating from the electrical and electronics engineering major of this course may lead to professional opportunities in areas such as electronics, renewable energy, power generation, storage and distribution, process control, mining, oil and gas, consultation, and project management.

Graduating from the mechanical engineering major of this course may lead to career opportunities in areas such as design, machinery, manufacturing and fabrication, mining, oil and gas, consultation, and project management.

ADMISSION REQUIREMENTS

Successful completion of a recognised Bachelor of Engineering, Bachelor of Engineering Science, Bachelor of Engineering Technology, Bachelor of Technology or equivalent in chemical, civil and structural, electrical and electronics, mechanical engineering or an approved equivalent discipline. Note: applicants may only study in the stream that matches the engineering area of their undergraduate degree.

Master of Environmental Management

SATAC CODE – 1CM089
Casuarina, Online (Commonwealth Supported)

SATAC CODE – 1CM589
Casuarina, Online (Full Fee)

DURATION – 2 years full time, 4 years part time

DOMESTIC INTAKE – Semester 1, Semester 2

ABOUT THE COURSE

The Master of Environmental Management complements existing science qualifications if you are a graduate starting out or an established professional looking to broaden or deepen your professional skill set.

You will focus on the principles and practices of environmental management, particularly in the context of wet-dry and semi-arid tropical ecosystems and arid landscapes. The topic areas covered by CDU's Master of Environmental Management include livelihoods, spatial science and analysis, and ecology and management of natural resources. Unit selection is flexible between and within these areas. Professional placements and remote Australia and international intensives are also available.

The broad skills, concepts and applications explored in this course are also relevant even if you are working in other ecosystems and includes a focus on the social context within which environmental management takes place.

The course is flexible and caters to your individual needs. It balances required knowledge and technical skills, develops conceptual skills, and challenges you to apply them to natural resource management within its complex social context.

PROFESSIONAL RECOGNITION

Graduates may seek professional membership of associations such as the Australian Rangeland Society, Ecological Society of Australia and Environment Institute of Australia and New Zealand.

CAREER OPPORTUNITIES

Graduating from this course may lead to a career in areas of research or environmental and natural resources management, within regional natural resource management agencies, environmental NGOs, Indigenous natural resources management organisations, consultancy firms and the resources sector.

ADMISSION REQUIREMENTS

Successful completion of one of the following:

- a recognised bachelor's degree or equivalent in a related field
- a recognised bachelor degree in an unrelated field plus completion of a graduate diploma in a relevant field, such as biological science, earth science, environmental engineering, environmental science, geography, geographic information or sustainability studies.

Graduate Certificate of Spatial Science

SATAC CODE – 1GC522
Casuarina, Online (Full Fee)

DURATION – 1 year part time

DOMESTIC INTAKE – Semester 1

ABOUT THE COURSE

The Graduate Certificate of Spatial Science complements your current science qualifications and will further develop your professional skill set. This course is designed for professionals, across a wide-range of vocations, seeking to gain expertise in spatial science at postgraduate level.

This stand-alone course belongs to a pathway between graduate certificate, graduate diploma and Master of Environmental Management. You are not expected to have previous experience in the spatial science field; however, if you do have some background, the repeatable placement unit allows the inclusion of project work in the unit selection.

CAREER OPPORTUNITIES

Graduating from this course may lead to career opportunities in government, private companies and non-government organisations (NGO) as managers, technicians, project managers, maintenance officers, surveyors and geospatial modellers.

ADMISSION REQUIREMENTS

Successful completion of a recognised bachelor's degree, or graduate diploma, or equivalent in a relevant field, such as biological science, earth science, environmental engineering, environmental science, geography, geographic information, sustainability studies or other disciplines as deemed appropriate. Applicants who hold a degree not in the disciplines listed above may be considered on the basis of relevant professional experience and may be requested to submit a curriculum vitae (CV).

Master of Emergency and Disaster Management

SATAC CODE – 1CM037

Casuarina, Online (Commonwealth Supported)

SATAC CODE – 1CM537

Casuarina, Online (Full Fee)

DURATION – 2 years full time, 4 years to 7 years part time

DOMESTIC INTAKE – Semester 1, Semester 2

ABOUT THE COURSE

The Master of Emergency and Disaster Management gives you the skills and knowledge to work as an emergency and disaster management professional.

This in-depth, highly unique program is delivered both online and on campus from Darwin, which is Australia's gateway to Indonesia and South-East Asia. The course draws on research, insights and learnings from a geographic region that is unarguably the most prone to, and affected by, various types of disasters.

The course also carries a strong focus on informed practice and research, as well as multi-sectoral approaches.

During the course, you will:

- Gain the essential knowledge and skills required to lead and manage all phases of the disaster management cycle.
- Learn how to confidently apply your academic studies to practical responses.
- Learn how to apply your skills, knowledge and experience in a way that's appropriate, collaborative and productive in the Asia Pacific region and beyond.
- Have the opportunity to tailor your course by choosing from a range of specialised electives.
- Acquire the technical, managerial and leadership skills to progress your current career or take a new professional direction.
- Be able to report on your professional experience in the academic sphere of this rapidly evolving sector.

The Master of Emergency and Disaster Management is supported by nationally and internationally respected leading industry partners.

The Graduate Diploma and Graduate Certificate in Emergency and Disaster Management are also nested within the master's degree as entry and exit pathways to this program.

Note: This course is due to be re-accredited for 2020 and you should check the CDU website for availability and updated course information.

CAREER OPPORTUNITIES

The Master of Emergency and Disaster Management complements your resume by broadening your skill set and it prepares you for management and leadership roles. Graduating from this course may lead to career opportunities that focus on emergency and disaster management, from prevention to recovery. Your qualifications could land you a role in health, environment, social wellbeing, humanitarian assistance and management.

ADMISSION REQUIREMENTS

Successful completion of a recognised bachelor degree or equivalent, or a graduate certificate or graduate diploma or equivalent in a relevant field.

Master of Psychology (Clinical)

SATAC CODE – 1CM030

Casuarina (Commonwealth Supported)

SATAC CODE – 1CM530

Casuarina (Full Fee)

DURATION – 2 years full time

DOMESTIC INTAKE – Semester 1

ABOUT THE COURSE

The Master of Psychology (Clinical) prepares you for your career as a specialist in the health services. Your studies are a combination of coursework, placements, and a thesis to develop and strengthen your skills and knowledge so you are a confident and experienced practitioner ready to make a positive change in your community. Key areas of focus include interviewing and intervention strategies, biological and neuropsychological perspectives on disorders, psychological assessment and therapies, ethics and issues in professional practice, as well as advanced research methods. After you accept your offer into this course, you must register with AHPRA as a provisional psychologist before the study semester starts.

Note: This course is due to be re-accredited for 2020 and you should check the CDU website for availability and updated course information.

PROFESSIONAL RECOGNITION

This course is accredited by the Australian Psychology Accreditation Council (APAC) and is approved by the Australian Psychological Society College of Clinical Psychologists.

CAREER OPPORTUNITIES

Graduating from this course will prepare you with the skills and knowledge to move into various psychology-related fields in government, private companies, non-government organisations and community groups.

ADMISSION REQUIREMENTS

Successful completion within the last 10 years of an APAC accredited honours year in psychology with at least honours upper 2A.

ADDITIONAL ADMISSION REQUIREMENTS

Applicants who have met the academic threshold will be contacted by CDU to provide two referee reports, a curriculum vitae, and a letter addressing why they are interested in the CDU course. Selected applicants will be further contacted to attend an interview which may be held in person or by Skype.

Master of Public Policy

SATAC CODE – 1CM062

Casuarina, Online (Commonwealth Supported)

SATAC CODE – 1CM562

Casuarina, Online (Full Fee)

DURATION – 2 years full time, 4 years part time

DOMESTIC INTAKE – Semester 1, Semester 2

ABOUT THE COURSE

The Master of Public Policy is an opportunity to undertake a research project in public policy, with a focus on northern Australia. You'll explore the region's remote context, the importance of Indigenous peoples and cultures, and its proximity to South-East Asia.

You will build the necessary knowledge and skills to engage in effective and ethical research for policy development. This course strengthens your in-depth understanding of the unique challenges and characteristics of 'doing policy' in northern contexts.

You explore a variety of political, cultural and social theory approaches to public policy and gain a solid understanding of evidence-based policy development, evaluation, and empirical research theories and methodologies.

Choose from specialist electives that will develop your public policy knowledge in areas such as:

- Indigenous policy
- international education
- governance and management
- health
- emergency and disaster management
- environmental management.

You will apply this new knowledge in an important public policy research project of your choice. You will receive one-on-one supervision and support from university research, public policy researchers, policy developers and evaluators, and teaching staff.

CAREER OPPORTUNITIES

Graduating with a Master of Public Policy may lead to career opportunities in government and private companies as a policy researcher, advisor, analyst or writer.

ADMISSION REQUIREMENTS

You must have successfully completed a recognised bachelor degree, graduate certificate, graduate diploma, master's degree or equivalent. If you don't meet the entry requirements, you're advised to contact the course coordinator in the College of Indigenous Futures, Arts and Society either by email to IFASAdmin@cdcu.edu.au or via phone on (08) 8946 7404 6482.

Graduate Diploma of Emergency and Disaster Management

SATAC CODE – 1GD022 Casuarina, Online (Commonwealth Supported)
SATAC CODE – 1GD522 Casuarina, Online (Full Fee)
DURATION – 1 year full time, 2 years to 4 years part time
DOMESTIC INTAKE – Semester 1, Semester 2

ABOUT THE COURSE

Based in the capital of Australia’s Northern Territory, at the centre of the Top End and Australia’s gateway to Indonesia and South-East Asia, this highly unique postgraduate program focuses on a geographic region that is unarguably the most prone to, and affected by various types of disasters.

As an emergency and disaster management professional, you will have the skills and ability to apply your knowledge and experience appropriately, collaboratively and productively in this vulnerable region and other parts of the world.

You will have essential knowledge and skills to lead and manage all phases of the disaster management cycle.

You will also confidently apply your academic studies to practical responses and report on your professional experience into the academic sphere of this rapidly evolving sector.

This in-depth course promotes its uniqueness in three areas:

- its focus on Asia-Pacific Region
- its informed practice and research
- its multi-sectoral approach.

This course is a pathway for further studies (i.e. Master of Emergency and Disaster Management) and is supported by nationally and internationally respected industry partners. The Graduate Diploma and Graduate Certificate in Emergency and Disaster Management are entry and exit pathways for the master’s degree course.

CAREER OPPORTUNITIES

The Graduate Diploma of Emergency and Disaster Management complements your current professional resume, broadening your skill set and preparing you for management and leadership roles. Graduating from this course may lead to career opportunities that focus on emergency and disaster management, from prevention to recovery. Your qualifications could land you a role in health, environment, social wellbeing, humanitarian assistance and management.

ADMISSION REQUIREMENTS

You must have successfully completed a recognised bachelor’s degree or equivalent, or a graduate certificate, graduate diploma or equivalent in a relevant field.

Graduate Certificate of Emergency and Disaster Management

SATAC CODE – 1GC016 Casuarina, Online (Commonwealth Supported)
SATAC CODE – 1GC516 Casuarina, Online (Full Fee)
DURATION – 1 year to 2 years part time
DOMESTIC INTAKE – Semester 1, Semester 2

ABOUT THE COURSE

Based in the capital of Australia’s Northern Territory, at the centre of the “Top End” and Australia’s gateway to Indonesia and South-East Asia, this highly unique postgraduate program focuses on a geographic region that is arguably the most prone to, and affected by various types of disasters.

As an emergency and disaster management specialist, you will have the skills and ability to apply your knowledge and experience appropriately, collaboratively and productively in this vulnerable region and other parts of the world.

You will have the essential knowledge and skills required to manage all phases of the disaster management cycle.

You will also confidently apply your academic studies to practical responses and report on your professional experience into the academic sphere of this rapidly evolving sector.

This in-depth course promotes its uniqueness in three areas:

- its focus on Asia-Pacific Region
- its informed practice and research
- its multi-sectoral approach.

Along with the necessary technical skills and experience, you will also develop your managerial and leadership skills to either assist in your current career or help with new career pathways.

This course is a pathway for advanced studies and is supported by nationally and internationally respected industry partners.

The Graduate Diploma and Graduate Certificate in Emergency and Disaster Management are entry and exit pathways for the master’s degree course.

CAREER OPPORTUNITIES

Graduating from the Graduate Certificate in Emergency and Disaster Management may lead to career opportunities that focus on emergency and disaster management from prevention to recovery. Your qualifications could land you a role in health, environment, social wellbeing, humanitarian assistance and management.

ADMISSION REQUIREMENTS

You must have successfully completed a recognised bachelor degree or equivalent, or a graduate certificate or graduate diploma or equivalent in a relevant field.

If you don’t hold one of these qualifications, CDU will consider your application if you have a diploma or above and at least five years’ relevant professional experience. You will be asked to provide further documentation detailing your employment experience, a curriculum vitae outlines your roles and achievements in, and a statement of purpose addressing why you would like to be admitted into the course, your career goals and aspirations, and the benefits the course will provide you.

Graduate Certificate of Leadership (Police, Fire and Emergency Services)

SATAC CODE – 1GC536 Casuarina, Online (Full Fee)
DURATION – 1 year to 2 years part time
DOMESTIC INTAKE – Semester 1, Semester 2

ABOUT THE COURSE

The Graduate Certificate of Leadership (Police, Fire and Emergency Services) prepares you with the necessary knowledge and skills to provide effective and efficient leadership for managing all types of situations, from small-scale routine emergencies to complex catastrophic events.

The course explores how public leaders manage crises, the secrets of successful crisis management, and how to anticipate and mitigate risk and future crises.

During the course, you will:

- develop your leadership skills through advanced analysis of case studies from Australian and abroad
- learn about proactive measures to deal with emergency risk reduction
- explore how to use your skills and knowledge in a way that is appropriate, collaborative and productive in local and global contexts gain a holistic, in-depth understanding of the leadership framework for complex crisis management
- move beyond academic and theory-based learning to gain the practical and applied skills you’ll need to work in the sector at a national, regional and international level.

The course creates a solid foundation for translating your academic development into practical responses, and to apply lessons learned from your professional experience to academic thinking. You will develop your leadership and managerial skills to extend your career opportunities.

CAREER OPPORTUNITIES

Most students undertaking this course are from the police, fire and emergency sector and study to acquire skills and knowledge that will further their career in the sector.

ADMISSION REQUIREMENTS

You must have successfully completed a recognised bachelor degree or equivalent, or a graduate certificate or graduate diploma or equivalent in a relevant field.

If you don’t hold one of these qualifications, we will consider your application if you hold advanced level vocational education and training qualifications (such as diploma or above) and at least five years’ appropriate professional experience.

Master of Laws

SATAC CODE – 1CM568
Online (Full Fee)

DURATION – 1 year full time, 2 years part time

DOMESTIC INTAKE – Semester 1, Semester 2

ABOUT THE COURSE

The Master of Laws is a 100% online course that focuses on international and transnational legal issues, particularly in the emerging Asia-Pacific region. The program explores growing harmonisation in the region, including the network of trade and other arrangements created under the umbrella of ASEAN. It can help you to better understand the Asia Pacific's comparative and transnational law and legal issues.

During the Master of Laws, you will study:

- transnational law
- comparative legal systems
- ASEAN overview and context
- finance and securities law
- transnational intellectual property law
- transnational family law
- international criminal law
- human rights law.

The course is designed for practising lawyers who hold an undergraduate law degree or a Juris Doctor degree who wish to complete further education in one or more of the above areas of law to advance their knowledge of legal issues facing the Asia Pacific region.

The course is offered online only. You will need access to an internet service with appropriate bandwidth to view or download course content and to engage online with staff and other students.

CAREER OPPORTUNITIES

Studying a Master of Laws typically improves your career opportunities in the competitive legal profession, as well as in law-related fields. It may also provide a pathway to further postgraduate study.

ADMISSION REQUIREMENTS

Successful completion of a recognised bachelor's degree in law or a related discipline. Graduates who hold a recognised bachelor's degree in another discipline and have significant relevant professional experience may be considered. Applicants may be asked to provide a curriculum vitae (CV).

Master of Public Health

SATAC CODE – 1CM009
Casuarina, Online (Commonwealth Supported)

SATAC CODE – 1CM509
Casuarina, Online (Full Fee)

DURATION – 1.5 years full time, 3 years part time

DOMESTIC INTAKE – Semester 1, Semester 2

ABOUT THE COURSE

The Master of Public Health will equip you with the tools to investigate, critique, manage and respond to health and social issues in Indigenous, local and global contexts.

This course builds advanced skills in interpreting health information, including epidemiology, statistical analysis, and quantitative and qualitative research methods. Learning alongside acclaimed research and public health experts, you will formulate strategies, evaluate and design public health interventions, and apply public health knowledge to health promotion, health systems, health policy and decision making.

Note: This course is due to be re-accredited for 2020 and you should check the CDU website for availability and updated course information.

CAREER OPPORTUNITIES

Career opportunities for our graduates include the non-government and government sectors in areas such as health research, professional health practice, health policy and planning, epidemiology, communicable and chronic disease control, community development and aid work nationally and internationally.

ADMISSION REQUIREMENTS

Successful completion of a bachelor degree or graduate diploma in a relevant area, such as public health, health science, primary health care, medicine or health promotion. Applicants who have successfully completed a bachelor degree in a non-related area who have also successfully completed an honours degree or graduate diploma are also eligible to apply.

Graduate Diploma in Health Research

SATAC CODE – 1GD016
Online (Commonwealth Supported)

SATAC CODE – 1GD516
Online (Full Fee)

DURATION – 1 year full time, 2 years part time

DOMESTIC INTAKE – Semester 1, Semester 2

ABOUT THE COURSE

The Graduate Diploma in Health Research, will strengthen your knowledge and skills in the design and methodologies of health research.

This course builds skills in applying evidence to health practice and interpreting health information, including epidemiology, statistical analysis and qualitative research methods in Indigenous, local and global health contexts.

On completion, you can articulate to the Master of Public Health.

Note: This course is due to be re-accredited for 2020 and you should check the CDU website for availability and updated course information.

CAREER OPPORTUNITIES

Career opportunities for our graduates include the non-government and government sectors in areas of health research, professional health practice, health planning and policy, epidemiology/biostatistics, communicable and non-communicable disease control nationally and internationally.

ADMISSION REQUIREMENTS

Successful completion of a recognised bachelor degree or equivalent. Registered nurses who are graduates of a hospital-based program are also eligible for entry.

Graduate Diploma in Public Health

SATAC CODE – 1GD004

Online (Commonwealth Supported)

SATAC CODE – 1GD504

Online (Full Fee)

DURATION – 1 year full time, 2 years part time

DOMESTIC INTAKE – Semester 1, Semester 2

ABOUT THE COURSE

The Graduate Diploma of Public Health will equip you with the tools to investigate, critique, manage and respond to complex health and social issues in both local and global contexts.

This course builds advanced skills in interpreting health information, including epidemiology, statistical analysis, quantitative and qualitative research methods. Learning alongside acclaimed research and public health experts, you will evaluate and design public health interventions aimed at prevention, protection and promotion of health in the community.

On completion, you can articulate to the Master of Public Health.

Note: This course is due to be re-accredited for 2020 and you should check the CDU website for availability and updated course information.

CAREER OPPORTUNITIES

Career opportunities for our graduates include a broad range of public health roles in government and non-government organisations.

ADMISSION REQUIREMENTS

Successful completion of a recognised bachelor degree or equivalent. Registered nurses who are graduates of a hospital-based program are also eligible for entry.

Graduate Certificate in Clinical Nursing

SATAC CODE – 1GC007

Online (Commonwealth Supported)

SATAC CODE – 1GC507

Online (Full Fee)

DURATION – 0.5 years full time, 1 year part time

DOMESTIC INTAKE – Semester 1, Semester 2

ABOUT THE COURSE

As a Registered Nurse, you need the skills and knowledge to provide specialised care to individuals, families and communities from diverse ethnic, cultural and socioeconomic backgrounds. During the Graduate Certificate in Clinical Nursing, you will focus on a clinical nursing speciality, which can also be your research focus if you choose this path.

Key clinical nursing specialities you can choose to study include:

- acute care
- cancer
- chronic conditions
- emergency
- intensive care
- mental health
- orthopaedics
- paediatrics
- perioperative
- renal.

In the increasingly complex and challenging world of health care, this course provides an opportunity to enhance your existing clinical knowledge and build capacity to move into further study and research. The course focuses on development of knowledge and skills in clinical practice and intellectual engagement through critical analysis and reflection relevant to nursing practice and education. You will be an informed leader on health care issues emphasising cross cultural practice while building on your research, ethical, political and reflective skills. All applicants must select a preferred clinical speciality from the list of options available.

Note: This course is due to be re-accredited for 2020 and you should check the CDU website for availability and updated course information.

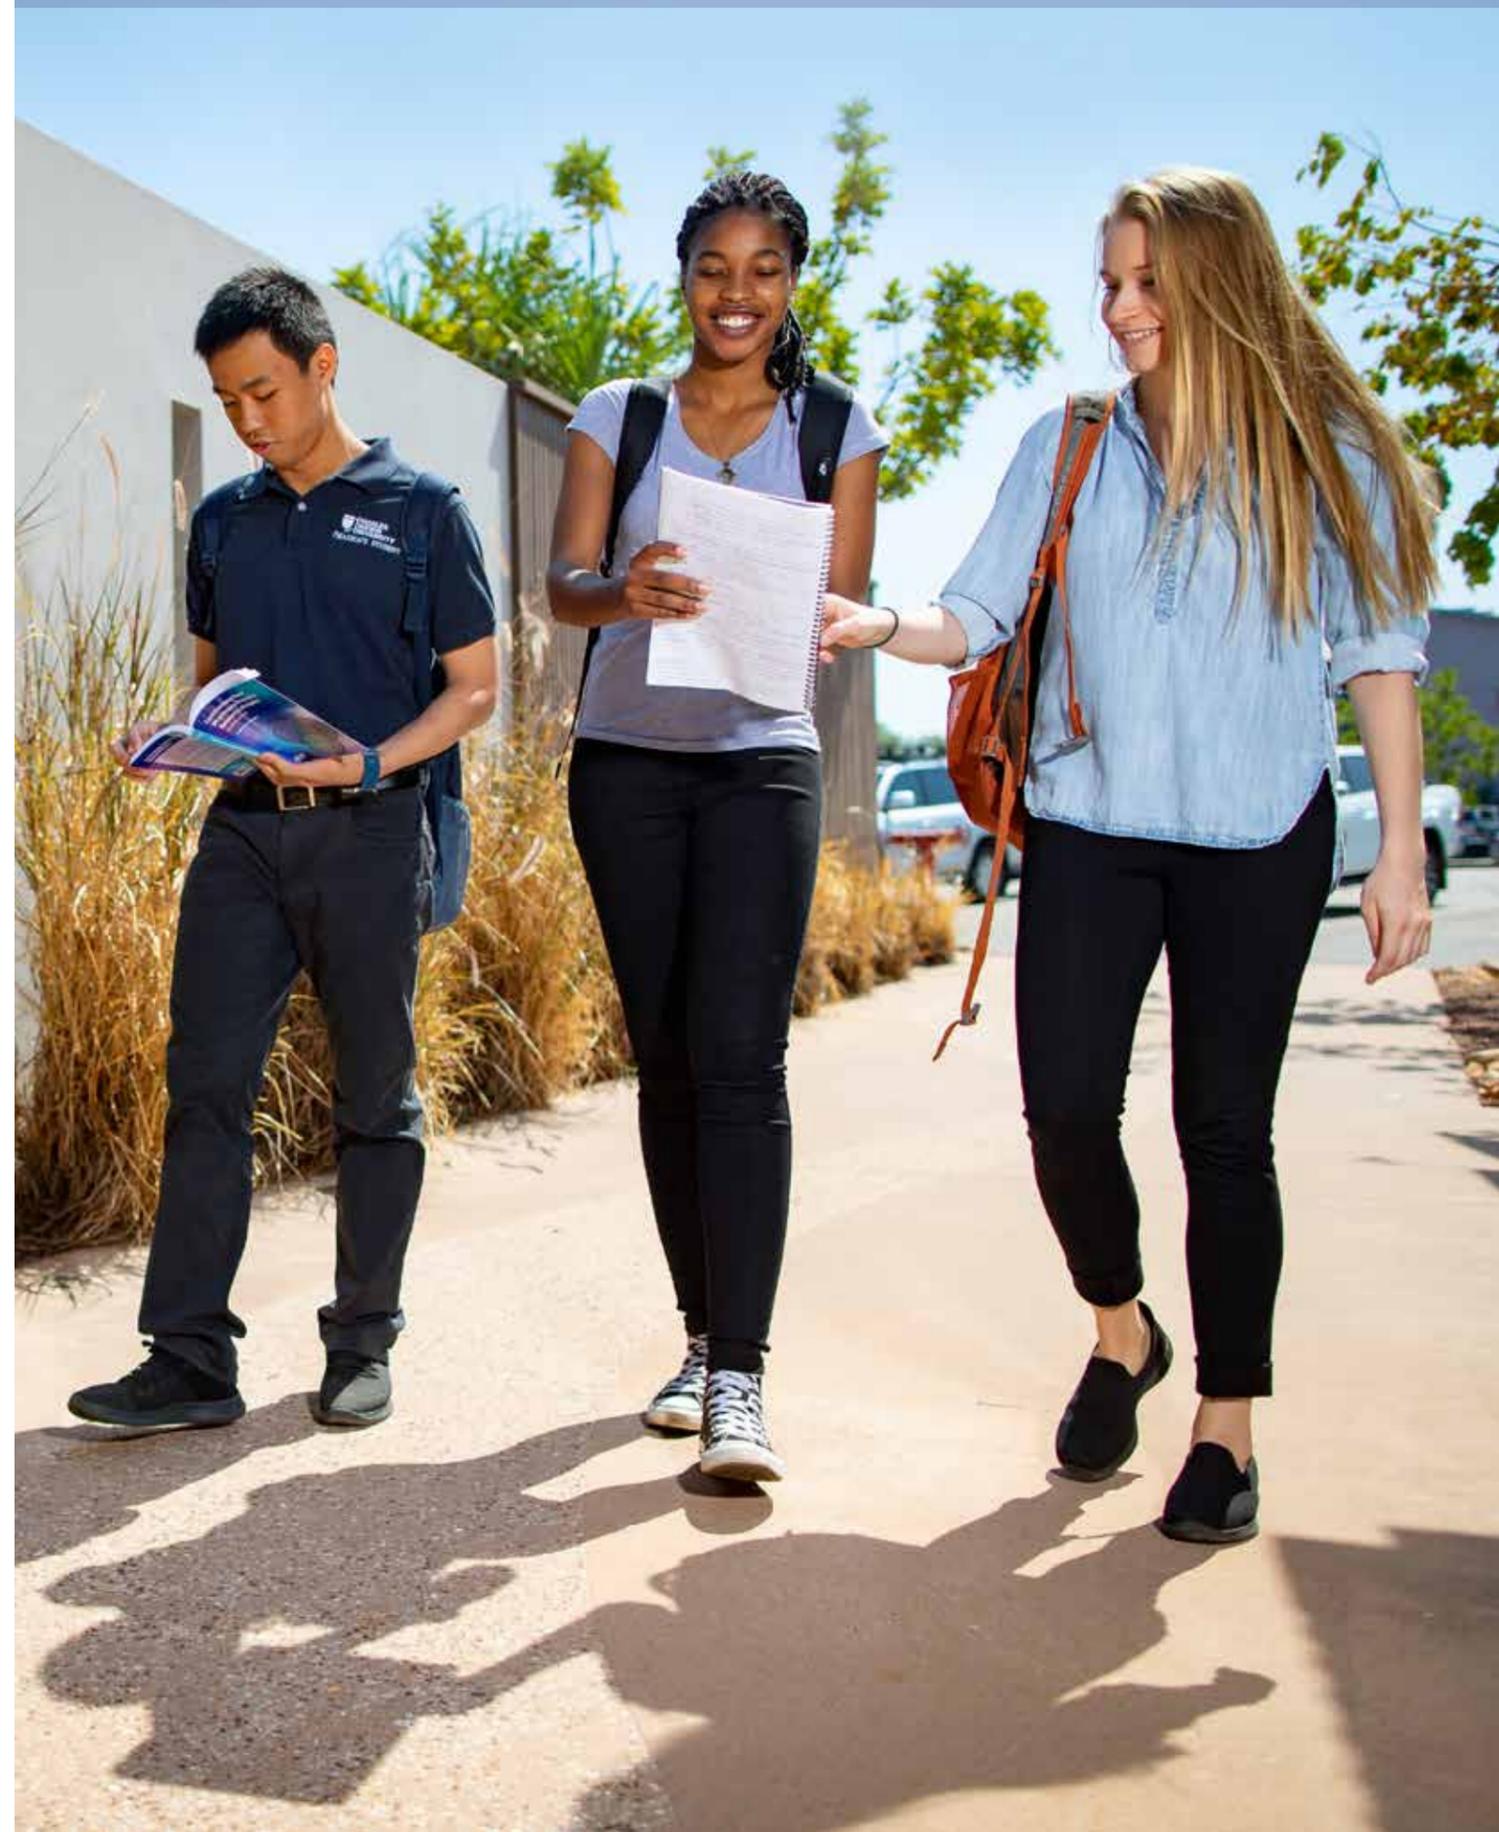

CAREER OPPORTUNITIES

Graduating from this course prepares you for senior roles in the nursing and health care field or further studies.

ENTRY REQUIREMENTS

Applicants must hold current registration as a registered nurse or registered midwife with the Australian Health Practitioner Regulation Agency (AHPRA). All applicants must have minimum 0.6 full time current employment in the stream for which they are applying and provide details of their professional responsibilities in the form of a curriculum vitae as part of the online application through SATAC.
