# ESSENTIAL INFORMATION

This section of the prospectus contains all the essential information you need to know about moving to New Zealand and the support that EIT provides when you arrive.

## IMMIGRATION AND INSURANCE

This section contains important information about immigration, insurance and the policy governing international student welfare.

### IMMIGRATION

New Zealand Immigration Service requires a student to have NZ\$15,000 in their bank account to cover living costs for one year of study, or NZ\$1,250 per month, plus a return ticket to their home country.

Full details of visa requirements, advice on employment rights in New Zealand while studying, and reporting requirements are available through the New Zealand Immigration Service and can be viewed on its website at [www.immigration.govt.nz](http://www.immigration.govt.nz).

### MEDICAL AND TRAVEL INSURANCE

International students must have appropriate and current medical and travel insurance from the time they leave home until the expiration of their student visa. EIT's preferred provider is Marsh ([www.marsh.com/nz](http://www.marsh.com/nz)). There is no insurance application paperwork to complete as insurance fees are included in the invoice along with tuition fees. It is easy, and students can have the confidence that they are covered from the day they leave home for New Zealand.

Students should contact our Registry team as soon as possible should they decide to organise their own insurance as all insurance policies must meet a minimum standard of care and cover for Immigration New Zealand and Code of Practice requirements.

Most international students are not entitled to publicly funded health services while in New Zealand. International students may be liable to pay the full costs of medical treatment in New Zealand. Full details on entitlements to publicly funded health services are available through the Ministry of Health and can be viewed on its website at [www.moh.govt.nz](http://www.moh.govt.nz). Students that do not choose EIT's insurance must show evidence of insurance prior to departure and prior to the issuance of receipt for fees paid.

### ACCIDENT INSURANCE

The Accident Compensation Corporation (ACC) provides accident insurance for all New Zealand citizens, residents and temporary visitors to New Zealand, but visitors to New Zealand may still be liable for all other medical and related costs. Further information can be viewed on the ACC website at [www.acc.co.nz](http://www.acc.co.nz).

### CODE OF PRACTICE

EIT observes and is bound by the Education (Pastoral Care of International Students) Code of Practice 2016 administered by the New Zealand Qualifications Authority (NZQA). The Code is a document that provides a framework of outcomes for educational providers and their agents to deliver for their international students. The purpose of the Code is to ensure high-quality pastoral care is delivered to all international students studying at New Zealand institutes.

The Code provides both required outcomes sought for international students and key processes to support their well-being, achievement and rights. The Code applies to pastoral care and provision of information only, and not to academic standards. Copies of the Code are available on the NZQA website at [www.nzqa.govt.nz](http://www.nzqa.govt.nz).

#### Please note:

A student's application to study at EIT is the initiation of a contract with EIT. The Offer of Place issued to the student is EIT's acceptance of the contract. The payment of fees by the student indicates the student's acceptance of the contract.

# ACADEMIC ENTRY CRITERIA

The minimum academic requirements for entry into our programmes can be viewed on the Programme Information Sheets available on the website at:

[www.eit.ac.nz/campus/international-students/international-programmes](http://www.eit.ac.nz/campus/international-students/international-programmes)

If you have any questions about EIT's recognition of qualifications from your country, contact EIT International or your agent.

## LIVING COSTS

The cost of living in Napier and Gisborne is substantially cheaper than the larger cities in New Zealand. Students will need to budget their weekly expenses. Students may spend more or less depending on their individual circumstances, but EIT staff members are also available to assist with budgeting information. It may take some time to secure a part-time job (if students are eligible to work in New Zealand), and therefore it is important for students to have enough funds to cover living expenses for several months.
