Welcome

I am delighted that you are considering studying at Torrens University Australia. Choosing the right place to study is an investment in your future.

We have educated thousands of students for over 25 years and have learnt from their experiences about the excitement and challenges involved in studying. Students from all over the world study at Torrens in a range of career-focused covering undergraduate and postgraduate courses in Business, Hospitality, Design and Creative Technology, Nursing and Health.

Torrens University Australia continues to prove its reputation as an innovative education provider by expanding to include some of the world's most prestigious schools; Billy Blue College of Design, Media Design School, Blue Mountains International Hotel Management School and William Blue College of Hospitality Management.

You can find our campuses in Sydney, Melbourne, Adelaide and Brisbane. Start your course in Adelaide or Sydney, finish in Brisbane or choose to study a unit online to complete your qualification with the flexibility that suits you. I lead a team of research and career-oriented academic staff who, combined with industry partners, help students to bridge the gap between study and work. This is the start of creating a career that you love.

On the following pages you will learn about our campuses, our unique approach to teaching, and how we can provide you with the best outcomes for employability.

Your future is bright, and it's in your hands, We can't wait to see where it takes you.

Professor Justin Beilby, Vice-Chancellor, Torrens University Australia

Torrens University Australia is part of Laureate International Universities

Torrens University Australia

rewarding and affordable.**

Why Choose Us? Eligibility

Torrens University Australia is Australia's fastest-growing university with a national presence and international focus, offering courses in Business, Design & Creative Technology, Health, Hospitality, Education and more. Whether you study on campus or online, Torrens University Australia brings a fresh, unique, careers-focused perspective to higher education based on industry immersion.

According to QILT (Quality Indicators for Learning and Teaching), Torrens University Australia's undergraduates' employment for 2016-2018 was 81.1% overall for full-time employment. Our labour force participation rate was 95.2%. Our postgraduate employment was even higher with 91.1% overall, 86.7% for full-time employment and a 98.9% labour force participation rate.

We also maintain strong student retention rates: 83% across the board and over 90% for international students, supported by success coaches and retention activities.

Torrens University Australia offers complete flexibility with hybrid study options – study where you want, when you want, with:

- Small class sizes;
- Industry placements with some of the most influential brands in the world;
- Industry-experienced lecturers and learning facilitators;
- Success coaches helping you choose subjects that reflect your strengths and coaching you to achieve your career and life goals; and
- Purpose-built campuses to facilitate collaborative learning.

Here's what this means for you:

- An innovative, disruptive and international approach to higher education.
- Access to over 300 high quality, industry-aligned courses.

Fact:

Up to 90% of Torrens University graduates began their career within 12 months of course completion.

Why Choose Us?

Success Coaches

From your first trimester at Torrens University Australia, you will have a dedicated Success Coach who is there to inspire you, help you stay on track, and support you in achieving your career and life goals.

Dedicated to you

Your Success Coach will be by your side as you progress through your studies. They'll help you understand the expectations of studying at university, assist with your subject selection, and help you stay motivated as you study. They will also make sure you never feel alone. Your coach will guide you through any tough times and be there to cheer you on when you graduate.

Giving you the edge

To help you become job-ready, your Success Coach runs practical, professional workshops on topics such as résumé writing, online branding, and successful interview techniques. They'll also help you navigate Careers Connect, our online platform where employers advertise internships or work placements exclusively to Torrens University students.

So, whatever 'success' means to you, Mike will help you get there!

Mike Thompson

Success Coach, The Rocks Campus

Industry Experience: Europcar Cyprus, Argos Plc, Kommunalkredit International Bank (KIB), Car4me.com.auz

Mike has over 15 years of management experience across finance, marketing, retail and tourism industries, working in both Europe and Australia.

He started with Torrens in 2015 as a Lecturer and Academic Adviser. Now, as a Success Coach for Business and Commerce students, he combines his industry experience with his deep knowledge of academic processes. This lets him support and coach his students to overcome any obstacle and reach their full potential.

As a former international student himself, Mike understands the issues facing anyone trying to live and study in a new country. However, domestic students don't miss out – every student Mike coaches will explore their strengths, receive help with job-seeking skills, and benefit from his valuable knowledge. So, whatever 'success' means to you, Mike will help you get there!

Why Choose Us?

Your Career, Your Success

Success Coaching keeps students' career goals at the heart of their journey.

Orientation Sessions

As an international student, you must attend a special Orientation as part of your visa requirements. It's a fun and informative session and we'll teach you a little bit about Australian culture at the same time!

Orientation is a vital part of starting of your studies, and ensures you are set up for success. Our Student Services Team are here to help you settle in and get your studies off to a great start.

At Orientation you will:

- Register;
- Attend an international student information session;
- Attend an information session about your course;
- Meet staff and students;
- Tour the campus;
- Confirm details of your student email;
- Get your student ID Card;
- Apply for a student concession card for transport (where applicable); and
- Attend library and IT workshops.

Academic and English Language Support

Our campuses are easy to navigate. Our smaller average class sizes mean there is more of a community than you will find at larger educational institutions.

We create a personalised learning experience that allows you to bond with colleagues and lecturers. You will have constant encouragement in the classroom, and support after hours. In addition to personal assistance with job-seeking skills and career planning, we have dedicated student services and academic support staff, both online and on campus.

Torrens University Australia uses the International English Language Testing System (IELTS) to specify the required English language skills needed for a student to successfully undertake each course. IELTS-equivalent English language proficiency scores are also accepted.

Careers and Alumni

Our Careers and Alumni team provides students with the skills and contacts to gain industry placement or internships and launch their careers. We highly encourage and support our students with their career planning, including advice on how to find graduate opportunities, internships or industry placement opportunities.

Careers Connect is a digital platform that connects students, employers and Success Coaches. It helps you to develop employability skills and plan your life after study with confidence.

Careers Connect currently works with more than 5,000 employers sourcing internships, part-time work and graduate positions for students.

Additional support includes résumé writing and job application assistance, plus help with important interview skills and techniques – to ensure students are prepared for a successful interview.

Why Choose Us?

Your Career, Your Success

Industry Placement Program and Professional Networks

When you study at Torrens University Australia, you may complete an Industry Placement Program. With our industry partners, you will gain experience in your chosen profession and obtain solid insights into modern workforce performance and expectations.

All bachelor degree courses at Torrens University Australia include an industry placement component.

Many Torrens University graduates are able to secure jobs with the organisations they have worked with as part of this program, or through connections they have made during their studies.

Global Partnerships

Torrens University Australia is part of Laureate International Universities, which comprises over 25 institutions with more than 150 campuses and online programs.

Laureate International University institutions offer hundreds of career-focused, undergraduate, master and doctoral degree courses in fields including architecture, art, business, culinary arts, design, education, engineering, health sciences, hospitality management, information technology, law and medicine.

The Laureate network, with more than 200 campus-based and online universities, offers undergraduate and graduate degree courses to over 875,000 students worldwide.

Support Services

You can use the Student Portal to view your timetable, check your results and change personal details.

Our free and handy app can also be downloaded to access and stay on top of your subjects, messages and more.

Our online learning portal is Blackboard, an essential tool in your study journey that you will use to access your classes, course-specific material, tools and learning resources.

Other key online resources outside of Blackboard are:

- 'Library' which allows you access to your faculty's library website and library workshops.
- 'Student Portal' which allows you to manage your administration requests.
- 'Student Hub' which enables you to search for student information.
- 'Learning Support Hub' where our expert staff will help you either in person, online, as part of a group or one-on-one.
- 'Careers Connect' which brings the connections, jobs and resources to you – online, everywhere, all the time.
- 'Lynda.com' which supports you to learn a new skill online. Over 6,000 courses in Business, Technology and Creative Skills taught by industry experts.

Student Counselling Services

Your campus provides free and confidential counselling to all face-to-face and online students enrolled in Australia. This non-judgmental service does not diagnose, we only listen and help you explore areas of concern and work on strategies that can assist you.

Attending counselling does not mean there is anything wrong with you, it simply provides a confidential and neutral place to freely express your needs and concerns. Counselling sessions are not registered on your academic record.

Counselling is simply a way to attain support and assistance to help you get through your studies.

Campus Life

As a student, you will have the opportunity to engage with students studying hospitality, business, design and health with Torrens University. You will work collaboratively and make friends with students from all different cultures and backgrounds.

A member of the global movement of people using business as a force for good

In 2015, Laureate passed a rigorous assessment by B Lab®, an independent non-profit organisation that serves as a global movement of people using business as a force for good, and became a Certified B Corporation® – the largest corporation ever to become a B Corp™.

More than **516,000** international students study in Australia each year.

Australia has five of the **30 best cities** in the world for students.

Australia is one of the world's most popular places to work and study. Its international standards in quality of living and education are underpinned by strong economic growth. Australia is renowned for its immense natural beauty, exciting cosmopolitan cities, diverse cultural activities and healthy outdoor lifestyle. More than 516,000 international students study in Australia each year. The Australian government has invested heavily to ensure that our education and research facilities are recognised throughout the world. Australian higher education institutions use market-leading technology and professional training systems that are benchmarked to industry standards. Our institutions have excellent international reputations and are used as models for other countries in the Asia-Pacific region.

Australian living standards for students are some of the best in the world. Australia has five of the 30 best cities in the world for students based on student mix, affordability, quality of life, and employer activity – all important elements when choosing the best study destination. Expect diversity in Australia. You will have endless access to cultural attractions, including highly-respected art galleries, museums and theatres, as well as world-class restaurants and shopping. If you are passionate about sport, you can watch and participate in a multitude of activities year-round, such as hiking, cycling, climbing, football, swimming and surfing.

Study in Australia

Sydney

Sydney is Australia's largest city, famous for its natural beauty, stunning beaches and breathtaking harbour views.

It is home to many international students who are exposed to world-class art galleries, museums, restaurants, shopping, public transport and employment opportunities. Summers are warm to hot and winters are mild. Torrens University Australia has seven campuses in New South Wales.

Ultimo Campus
46-52 Mountain St, Sydney

Located in an inner-city precinct, this converted heritage building is the perfect hub for creativity. Study design surrounded by open-plan spaces, high ceilings and plenty of natural light, and take advantage of creative pods for learning, collaboration and entrepreneurship. This space draws its inspiration from cafés and restaurants rather than institutions.

William Blue Dining
107 George St, The Rocks, Sydney

William Blue Dining is Torrens University Australia's award-winning student training restaurant which is open to the public. Our hospitality students will undertake practical training at William Blue Dining, learning first-hand what it takes to run a busy restaurant and hospitality business, whether they dream of mastering the kitchen or front of house.

Town Hall Campus
L4/540 George St, Sydney

This is an executive hospitality campus for third-year undergraduate and postgraduate Blue Mountains International Hotel Management School (BMIHMS) at Torrens University Australia students. Enjoy studying in the heart of this great city.

Leura Campus
1 Chambers Rd, Leura, NSW

This residential campus is designed for Blue Mountains International Hotel Management School (BMIHMS) at Torrens University Australia students, located 1.5 hours from Sydney. Students live and study in a student-run hotel environment for a unique hospitality experience. Experience learning through our outdoor kitchen, custom-designed cocktail bar, housekeeping demonstration lab and hotel check-in desk.

The Rocks Campus
1/5 Hickson Rd, Sydney

Home to business and hospitality students, this designer campus is located on Sydney Harbour. It features state-of-the-art learning and teaching spaces offering views of the Sydney Opera House and Harbour Bridge.

Pyrmont Campus
5/235 Pyrmont St, Pyrmont, Sydney

This dedicated holistic health and wellbeing campus is located in one of Sydney's fastest-growing and culturally-diverse city neighbourhoods. This campus contains a custom-built health and beauty clinic. Pyrmont is close to Sydney's central business district with easy access to public transport. Students enjoy the latest in learning technology and a creative, social and collaborative learning environment.

Kent Street Campus
L3/333 Kent St, Sydney

This space is shared amongst postgraduate business faculty students and Torrens University Language Centre students. Our CBD campus features three levels of well-equipped classrooms, dedicated learning spaces and open areas for collaboration.

Melbourne

Melbourne

Study in Australia Melbourne

Known for its varied and dynamic cultural scene, Melbourne is rated as Australia’s best and most liveable city for students.

A strong sense of community and a melting pot of experiences makes Melbourne a popular choice for overseas students studying abroad. With many affordable housing, dining and entertainment options, students will be able to make the most of their time in Melbourne. Whilst the climate in Melbourne can be cool, you will be able to warm yourself up with a lively and diverse night life. Melbourne is home to our Torrens University super campus – Flinders Street Campus, located opposite the iconic Federation Square.

Flinders Street Campus
196 Flinders St, Melbourne

Flinders Street is the newest ‘super campus’ to be added to the Torrens University campus collective. It encompasses BMIHMS at Torrens University Australia postgraduate programs, a funky new level for design and creative learning as well as the health, business and education faculties. It is located in the heart of Melbourne’s CBD overlooking Federation Square and the iconic Flinders Street Station.

Fitzroy Campus, Melbourne
22 Victoria St, Fitzroy

This campus is located in the vibrant Brunswick Street District, near Melbourne’s CBD. With a commitment to operating in a sustainable and green campus, the quality classrooms inspire a learning environment and social settings that give our students a safe space to thrive.

Study in Australia

Brisbane

Enjoy the beach all year long in Brisbane where sub-tropical weather makes for pleasant winter days and 300 days of sunshine!

Brisbane's location gives students the opportunity to explore Queensland's popular attractions including the Great Barrier Reef, the Daintree Rainforest, the Gold Coast, and many famous theme parks. Students can get around conveniently with Brisbane's public transport at a discounted rate (50%) and take advantage of what Brisbane has to offer. Brisbane Campus is situated in Fortitude Valley, a perfect location for work/life balance, close to the CBD and the creative centre of Brisbane.

Brisbane Campus

90 Bowen Tce, Fortitude Valley, Brisbane

Brisbane Campus is located in Fortitude Valley, just minutes from Brisbane's city centre. Reflecting our mission to disrupt and reinterpret the way education is delivered, this cutting-edge campus offers a creative and stimulating learning environment featuring the latest digital learning technologies, open learning and collaborative classrooms.

Adelaide

Study in Australia Adelaide

Adelaide, the capital city of South Australia, is consistently voted among the most liveable cities in the world.

It is one of Australia's most safe, accessible, affordable, and student-centric cities with lower cost of living, minor traffic congestion and a laid-back lifestyle. South Australia boasts world-renowned wine regions such as the Barossa Valley, Clare Valley and McLaren Vale along with 4,800 kilometres of pristine coastline. Wakefield Street Campus has a warm community feel, in a collaborative open space, and is walking distance from everything you need.

Adelaide Campus

88 Wakefield Street, Adelaide

Torrens University Australia's Adelaide Campus is based on the historic site of the Menz Biscuit Factory. The campus has been built from the ground up with a single purpose in mind – the student learning experience. Students can take advantage of numerous dedicated study areas, breakout pods and chill-out zones, whilst having unprecedented access to their learning facilitators – there are no separated, closed off academic offices in the building. Facilitators hot-desk and share open access with the students and the campus functions as a true democratic learning community.

Fact:

Adelaide is the most budget-friendly city for international students.

Suzhou

Study in China Suzhou Campus

This campus is a joint venture of the Blue Mountains International Hotel Management School (BMIHMS) at Torrens University Australia and the Suzhou Tourism and Finance Institute launched in 2004.

The campus offers first class facilities and features an 'in-situ' Hotel Reception which uses the 'Opera' Property Management System, Restaurant and Bar with Micro Point of Sales, Commercial Kitchen, a Wine Exhibition Centre, a Hotel-Style Mock Room and a Research Centre for Hotel Operations.

The Program

The program applies the BMIHMS philosophy of the three pillar approach: Professional and Personal Growth, Practical Skills Development and Academic Achievement. Students can enrol in the Bachelor of Business Degree (International Hotel and Resort Management), and pathway opportunities are also available. The program prepares students for supervisory and management trainee positions upon graduation in the hotel industry, as well as associated accommodation, hospitality and tourism sectors. Graduates of the BMIHMS – Suzhou Campus are highly in demand by China's booming hospitality industry.

City and Location

Suzhou is known as 'Heaven on Earth' – a tourism and cultural city with 2500 years history. The long history of Suzhou can be seen from its famous historic structures – old village canals, stone bridges, pagodas, and meticulously designed UNESCO World Heritage gardens,, but also cultural aspects such as silk, handcrafts and Kunqu Opera drawing in millions of domestic and international tourists each year. It has a thriving economy and a mild weather with four seasons. The city borders by Shanghai in the East, Zhejiang Province in the South, Lake Taihu in the West and the Yangtze River in the North. It takes only 25 minutes by train from Suzhou to Shanghai.

Amanda Miller

**MBA – Graduate
Service Improvement Facilitator
at Ergon Energy**

“I took on an MBA to give myself a competitive edge in the job market. This Torrens University Australia MBA has assisted me to bring together everything I have learned over the past 20 years in my working life, elevating my skills, knowledge and experience to the next level. I am currently studying online. This works well for me and gives me flexibility to study around my young family and fit around my personal and work commitments. Studying while working has allowed me to apply my new knowledge in the workplace and chose subjects relevant to what I am working on at the time.”

Bachelor after 3 years

Work integrated learning

Bachelor of Business students complete 320 hours off-campus working on industry placement. Students complete this experience in the latter part of their degree in the areas of business, marketing, communication and public relations, sports management and events. Students become interns and typically engage with small to medium-sized businesses on projects designed to be completed in a 3-month period.

Bachelor of Commerce students specialising in Accounting and Finance complete an industry placement off-campus working for 120 hours.

Trimester 1	3 subjects	12 weeks
Trimester 2	3 subjects	12 weeks
Trimester 3	2 subjects	12 weeks

Industry placement can teach you to:

- Review current business processes and practices and provide recommendations for improvement
- Scope potential areas for expansion, or products and services to improve business processes
- Analyse activity in a particular market area or competitors' activities
- Analyse new or alternative business systems

BILLY BLUE COLLEGE OF DESIGN

Study Design & Creative Technology

Welcome to the Torrens University Australia Design & Creative Technology faculty. We have two leading design schools that make up our DNA; Billy Blue College of Design and Media Design School, working together to form an unstoppable powerhouse in design and creative technology education.

Our graduates are strongly recognised by the design industry and constantly sought out by employers – often before they even graduate. Work-ready, incredibly talented and always prepared to test new ideas to complete every project in an innovative way.

Career

Todd Watts

**Bachelor of Communication Design – Graduate
Freelance Graphic Designer
& Designer/Animator, Yell Design**

“My favourite part (of the course) was the challenge. I loved questioning everything I thought I knew about design and every day being opened to a new world of possibilities. The connections and networks I made were also invaluable. Studying at Billy Blue has helped me reach my career goals by improving my ideation, creative thinking and confidence. I’m now much faster at finding design solutions and I’ve gained many tools to help me along the way. There was a time when I struggled with my self-confidence as a designer but since studying at Billy Blue I feel a strong belief in my abilities.”

Design & Creative Technology Undergraduate Courses

Diploma of Graphic Design		
Duration: 1 year full-time	Overview: Graphic design is a rewarding career powered by your imagination. With the right qualifications and hands-on experience, you can transform fantastic concepts into visual reality. This design course will give you key conceptual and technical skills to do just that. By enhancing your design awareness and combining problem-solving and technical skills, you will be equipped to respond to the requirements of a fast-paced, visually-literate society.	Career outcomes: <ul style="list-style-type: none">• Packaging Designer• Junior Art Director• Computer Finished Artist• Web Designer• Branding & Identity Designer• Environmental & Way Finding Designer• Advertising Designer• Magazine & Publishing Designer
Academic entry requirements: Australian Year 12 or equivalent; and Academic IELTS 5.5 (no band less than 5.0) or equivalent.	Campus locations Adelaide, Sydney, Melbourne, Brisbane and Online	CRICOS 092483C
Diploma of Interior Design & Decoration		
Duration: 1 year full-time	Overview: Graduate with a theoretical and technical base of knowledge of general interior design and decoration principles and practice, along with an introduction to specialist areas within the interior design and decoration field, leading either to entry-level employment in the interior design and decoration sector or to further specialised design study at bachelor level.	Career outcomes: <ul style="list-style-type: none">• Interior Decorator (self-employed)• Architectural Sales Representative for industry product• Interior Stylist• In-house Interior Designer or Decorator
Academic entry requirements: Australian Year 12 or equivalent; and Academic IELTS 5.5 (no band less than 5.0) or equivalent.	Campus locations Sydney, Melbourne, Brisbane and Online	CRICOS 092484B
Diploma of Digital Media Design		
Duration: 1 year full-time	Overview: The Diploma of Digital Media Design is your introduction to the exciting and flourishing worlds of animation, film, TV, video, online, interactive, web, mobile, interface design, user experience design, 3D design, visual effects, concept and character design, environment design, game art, project/production management and strategy. This program offers you a broad foundation in essential digital design skills and concepts including idea generation, graphic design, 3D design, digital video, motion graphics, web and interactive design. You will graduate with direct design practice experience in animation, interaction design and motion design.	Career outcomes: <ul style="list-style-type: none">• Digital Agency Junior• Design/Studio Intern• Production Assistant• Web Content Administrator

Career

Tristan Klein

Australia
Bachelor of Digital Media Design
– Graduate

“Billy Blue changed my life through the internship program. Before study, I worked an average job that I didn’t enjoy much and didn’t pay much either. Then through one of my teachers at uni, I was offered an internship at his work place. I managed to impress them so much that I was offered a job there while I was still studying. I stopped feeling like a student and started to feel like a professional-in-training. It was then that I began to see the relevance to what we were being taught and I could relate the lessons to real life work.”

Bachelor of Interior Design (Residential)		
Duration: 3 years full-time <p>Academic entry requirements: Australian Year 12 or equivalent; and Academic IELTS 6.0 (no band less than 5.5) or equivalent.</p>	Overview: The Interior Design (Residential) degree creates designers who have the skills and creativity to respond and adapt to the future challenges of sustainable residential design for 21st century housing, high-rise living, mobile, multi-purpose and adaptive reuse environments. Residential Interior students engage with the theoretical and practical elements of designing residential environments. Students explore and respond to contemporary issues impacting residential interior design thinking, such as our aging population, homelessness, evolving gender roles and definitions of family. Students investigate frontier theories that inform the notion of home in both physical and virtual environments. There is also an opportunity to apply theory to practice by creating a range of residential interior design solutions to meet real client briefs.	Career outcomes: <ul style="list-style-type: none"> • Interior Designer • Joinery Designer • 3D Computer Modelling Consultant • Soft and Hard Material and Furnishings Consultant • Residential Design Consultant • Homelessness Solutions Strategist • Innovative Home Technology Consultant • Luxury Private Developer Designer • Residential Interior Designer • Property Stylist • Housing Solutions Strategist

Bachelor of Branded Fashion Design		
Duration: 3 years full-time <p>Academic entry requirements: Australian Year 12 or equivalent; and Academic IELTS 6.0 (no band less than 5.5) or equivalent.</p>	Overview: The Bachelor of Branded Fashion Design will challenge both your creative and business mind – and will groom you for a world-class career. You will graduate with a highly respected qualification, specialist design skills and a professional-calibre portfolio that opens doors. This Branded Fashion course is very different to what is currently on offer elsewhere. Our course addresses a variety of vertical fashion industry applications, across a broad spectrum of needs and traverses a wide consumer base. This degree teaches students to take a generic form or a trend and rework it by customising its surface or shape so that it becomes identifiable with the brand, its image and meaning.	Career outcomes: <ul style="list-style-type: none"> • Branded Fashion Designer • Fashion Buyer • Merchandise Planner • Product Developer • Production Manager • Digital Print Designer • Trend Forecaster • Fashion Brand Manager • Tech and Spec Designer • Start-up Fashion Designer with own brand • Design Room Coordinator in charge of technical and specifications for production • Design Room Coordinator in creation of bill of materials • Textile Designer

Bachelor of Creative Technologies (Game Art)		
Duration: 3 years full-time	Academic entry requirements: Australian Year 12 or equivalent; and Academic IELTS 6.0 (no band less than 5.5) or equivalent.	Overview: If you love games and want to create breathtaking environments and characters for one of the biggest industries in the world, then Game Art is for you. The Bachelor of Creative Technologies (Game Art) will develop your artistic style and technical skills through a combination of traditional art practices and the use of industry-standard software. You will create beautiful environments and characters then use these assets to develop immersive experiences in an industry that is bigger than the music and movie sectors combined! Throughout the course you will work alongside lecturers who will offer you practical industry insights and collaborate with other game artists and programmers to develop an industry-level game. This course was designed collaboratively with subject matter experts from Media Design School (Auckland, New Zealand), one of the top three digital design schools in the world.
		Career outcomes: <ul style="list-style-type: none">• 2D Artist• 3D Modeller Generalist• Animator• Texture Artist• Environment Artist• Character Artist• Technical Artist

Sydney, Melbourne, Brisbane and Online		095346K
Bachelor of Software Engineering (Game Programming)		
Duration: 3 years full-time	Academic entry requirements: Australian Year 12 or equivalent with Advanced Maths; and Academic IELTS 6.0 (no band less than 5.5) or equivalent.	Overview: When becoming a Game Programmer, you will learn best while doing. You will code, you will craft and, in the end, you'll graduate with a portfolio like no other. Thanks to the partnership with Sony Computer Entertainment Europe (SCEE), you will develop games for PlayStation® platform through the PlayStation® First Academic Development Program. You will learn C++ and other coding languages and work with Unity and Unreal – the two main engines for game development. By the time you are ready to graduate, you will have collaborated with fellow programmers and game artists to create a commercially viable game. The Bachelor of Software Engineering (Game Programming) blends academic theory, research, and practice with advanced programming skills as applied in the game development industry. Throughout the course the integration of theory and hands-on practice through to industry-standard productions will complement the development of investigative skills, and development of analytical, creative and critical approaches to problem solving. This course was designed collaboratively with subject matter experts from Media Design School (Auckland, New Zealand), one of the top three digital design schools in the world.

Bachelor of Software Engineering (Artificial Intelligence)		
Duration: 3 years full-time	Overview: In line with the changing landscape of the tech industry, this Bachelor of Software Engineering – Artificial Intelligence (AI) has been developed by Torrens University Australia in collaboration with IBM to arm graduates with the technical acumen and core soft skills required for a successful career in AI. This course covers a range of technical subject areas with a focus on the major areas of AI – computer vision, natural language processing, speech recognition, and machine learning & robotics. A soft skills thread is carried throughout the programme, to ensure students also leave with the in-demand skills of ideation, design thinking, project and time management, interpersonal communication, language processing and speech recognition. The launch of our new Software Engineering degrees coincides with the World Economic Forum’s announcement that Cloud computing and AI are the two most in-demand (hard) skills of 2019, while creativity is the most in-demand soft skill (according to analysis by LinkedIn).	Career outcomes: <ul style="list-style-type: none">• Full Stack Software Engineer• Business Intelligence Developer• Software Engineer• Software Developer• Software Tester• Automation Engineer• Machine Learning Engineer• Computer Vision Engineer• NLP Engineer
Campus locations		CRICOS
Sydney, Melbourne and Online		099352B
Bachelor of Software Engineering (Cloud Computing)		
Duration: 3 years full-time	Overview: Developed in collaboration with Amazon Web Services, this purpose-built course caters for the rapidly growing cloud computing sector. Throughout your studies, you’ll work across a variety of services and platforms to build a comprehensive, industry-aligned understanding of Cloud Computing and DevOps. You’ll explore the intricacies of cloud infrastructure, master the fundamentals of CI/CD, and explore the in-demand field of microservices architecture. Best of all, our collaboration with Amazon Web Services means you’ll also have the opportunity to design, develop and deploy applications to the AWS platform – the largest and most lucrative cloud computing platform in the world. Graduate armed with a range of technical, operational and software management skills that will put you a step ahead of the global tech industry. Learn how to combine design thinking, ideation, project and time management, and interpersonal communication across different subjects, significantly increasing your employability.	Career outcomes: <ul style="list-style-type: none">• Data Scientist• Business Intelligence Developer• DevOps Engineer• Infrastructure Engineer• Full Stack Software Engineer• Build Engineer• Release Engineer• Software Engineer• Tools Programmer• Technical Director

Hans Colton

Bachelor of Software Engineering (Artificial Intelligence) – Current Student

“I study the Bachelor of Software Engineering and I am simultaneously interning at Face Me. Face Me is a start-up that creates digital humans to revolutionise how people get in contact with a company. The digital humans are capable of actually showing and understanding the users’ emotion and that allows them to do so much more. As an intern at Face Me, I get to work on these crazy out-there experimental features that may not work, but if they do, they’re going to add a whole extra level of immersion to this awesome digital human.”

Mel O'Brien

Master of Design – Graduate

"After studying Interior Architecture, and then working for nearly a decade in interior design, I wanted to extend my discipline and academic practice and so began to look for options to study a masters degree. Ultimately I chose to study at Billy Blue because of the innovative way they approach postgraduate qualifications. The flexibility to focus my study towards the design specialisation that I was looking for was hugely appealing. I am a senior interior design academic at Torrens University, and a partner in interior and object design company Maxwell and Shirley. At Maxwell and Shirley we work in the residential sector and are incredibly passionate about working with clients to deliver homes that truly reflect and belong to them. My masters degree was a great opportunity to unpack and further explore residential scale through projects and research, ultimately deepening my knowledge and skills in designing for this area."

Design & Creative Technology

Postgraduate Courses (continued)

Master of Software Engineering (Artificial Intelligence, Advanced)		
Duration: 2 years full-time	Overview: Developed in collaboration with Media Design School, Amazon Web Services and IBM, the Master of Software Engineering (Artificial Intelligence, Advanced) addresses industry demand for highly technical software engineers, developers, and researchers. Exploring the realms of machine learning, computer vision, natural language processing and speech recognition, offering professionals the opportunity to upskill in order to improve career prospects and provides recent graduates with the chance to continue their studies and specialise in the field of Artificial Intelligence. Unlike a traditional degree, the Master of Software Engineering (Artificial Intelligence, Advanced) is tailored to your unique needs and creative challenges. Students will learn by working on industry projects, approach wide-ranging topics from entrepreneurial mindset, and explore the design thinking, ethics and moral values required in tech for good companies.	Career outcomes: <ul style="list-style-type: none">• Senior Software Engineer• Senior Systems Engineer• AI Researcher• Research & Development Engineer• Machine Learning Researcher• Technical Director• Development Director• Systems Architect• Data Scientist

Joining Torrens University Australia in 2016, Billy Blue College of Design graduates have been strongly recognised by the design industry and constantly sought out – often before they even graduate. Workready, incredibly talented and always prepared to think outside the box.

Billy Blue has launched the careers of thousands of design graduates in graphic and communication design, branded fashion design, 3D design & animation, film & video, interaction design, digital media, interior design and photography. Some are running their own studios, freelancing or working for top creative agencies such as Interbrand, DDB, M&C Saatchi, and brands like Camilla, Volley and Zanerobe.

In a further endorsement of the high quality of Billy Blue College of Design students’ portfolios, the School has been awarded third place in the highly competitive, global Best Motion Graphics Schools for 2017 rankings by The Rookies.

Media Design School (MDS) at Torrens University Australia stems from New Zealand’s most awarded tertiary institution for creative and digital technology qualifications. The award-winning suite of courses including Game Art, Game Programming, Software Engineering, Artificial Intelligence and Cloud Computing can now be delivered in Australia. Through project-based learning and live briefs, students take risks and push boundaries in the fields of new and emerging creative digital technologies. The award-winning Media Design School was the first school in New Zealand to recognise the emerging creative industries such as game development and animation and develop qualifications to fuel them with talented graduates.

MDS was named the #1 Animation School in Australasia and the #5 Animation School in the world by Animation Career’s 2019 college rankings.

Janelle Connor

Australian
Master of Special Education
– Current student

“I wanted to stay up-to-date with educational research and practices. This course has the topics I wanted to learn more about, and I can apply them to my teaching straight away. I felt that there was nothing holding me back from returning to university, so I enrolled”.

The ways we think about teaching and learning are changing rapidly. With the growth of research, we now have a deeper understanding of the complex impact that education has on society. Not only does education shape academic and employment outcomes, we also now know that a child's experience of education can have life-long effects on their physical and mental health.

At Torrens University Australia, we have designed a set of postgraduate education courses tailored to education professionals looking to grow and broaden their skills. With knowledge and learning constantly changing, it is essential to keep up with the latest developments. Torrens University Australia has built graduate certificates and masters courses around the latest research into Autism, Innovation & Change, Learning Differences, Mental Health and Special Education.

These courses have pioneered our ‘Person First’ approach to teaching, created with input from those who have direct experience and expertise within the industry. Through Torrens University Australia's postgraduate education courses, you will further develop your experience in the school system. You will effect widespread change and raise the standards of education for both students and teachers.

Education

Postgraduate Courses

Master of Education (Special Education – Advanced)		
Duration: 2 years full-time	Overview: The Master of Education (Special Education, Advanced) takes a design thinking approach to analyse issues and challenges faced by persons with a range of additional learning needs. In particular, it focuses on problem solving, informed by advanced theoretical knowledge, from a person-first perspective. The person-first approach allows situations to be tackled from the perspective of the individual, and by doing so shifts the focus from a passive acceptance from the person at the center of the issue to a more active role where their individual needs are actively considered. This approach questions traditional thinking and challenges learners’ biases, prejudice and assumptions. Special Education Suite of courses: Master of Education (Special Education) CRICOS Code 095587D Master of Education (Special Education, Advanced) CRICOS Code 095695M	Career outcomes: Build specialised skills to support individuals. The course thoroughly prepares educators to support individuals with a range of special educational needs in classrooms and fills a gap in professional development for teachers in the field. The course will equip you with the skills and knowledge required to become an expert in the field of Special Education. Graduates can further advance and diversify their position in the education field, such as advisory role.

Graduate Certificate of Education (Autism)		
Duration: 2 Trimesters	Overview: The Graduate Certificate of Education (Autism) is designed to prepare educators to support individuals with Autism within their educational context. This certificate is created for educators in mainstream and other non-specialised settings. The Graduate Certificate of Education (Autism) deepens student knowledge through evidence-based, best-practice support for persons with Autism and their carers. Increasingly, the movement of lived experience and ensuring the voice of persons with Autism and their carers is heard, which leads the individual care and support. This certificate moves student perspectives away from the ‘one size fits all’ toolbox, instead challenging and supporting students to deepen their knowledge to apply a range of educational strategies to support individuals with Autism. Using co-constructed content and individualised learning perspectives, the certificate requires students to reflect deeply upon the important voice of lived experience and seeing the individual as a person first. Other Graduate Certificates that are available Online Only through Torrens University Australia include: Graduate Certificate of Education (Innovation and Change) Graduate Certificate of Education (Learning Differences) Graduate Certificate of Education (Mental Health) Graduate Certificate of Education (Special Education)	Career outcomes: Graduates of the Graduate Certificate of Education (Autism) can progress to further postgraduate studies in related fields of education. They can also pursue advanced career options within the education profession, such as Lead Teacher status and leadership opportunities within schools and other educational establishments.
Academic entry requirements: Recognised bachelor’s degree in any field; and Academic IELTS 7.0 (no band less than 6.5) or equivalent.

Lisa Kasaneilia

Program Director, School of Health Sciences

"Public Health is a growing field – on a global scale – particularly with the One Health Initiative, with a focus on One World, One Health, One initiative. At Torrens University we offer a strong industry-aligned program to ensure graduate employability.

Students should feel supported throughout their program and are aware there is ongoing support at every point.

Students use Public Health Information Development Unit (PHIDU) data in their applied workshop activities which is quite exciting, as they can work with real, up-to-date data."

Health Clinics

Working alongside our campuses, Torrens University Australia operates health clinics and wellbeing centres in Sydney, Melbourne and Brisbane.

Our student clinics offer a range of professional and affordable services to the general public, from beauty treatments and massage, to counselling and complementary health consultations. In 2018, we saw nearly 4,000 people in over 8,500 consultations.

RESEARCH FACULTY

Adelaide: Public Health Information Development Unit (PHIDU)

ONLINE

Since 2015, PHIDU has been located at Torrens University Australia, continuing its research emphasis and publication of small area statistics, for monitoring inequality in health and wellbeing, and for supporting planning and research to improve population health outcomes.

PHIDU offers free online access to a comprehensive range of current (and some historical) data at national, jurisdictional, regional and small area levels for Australia. Socioeconomic and geographical variations in health are highlighted in interactive atlases and graphs, and supported by data tables and metadata. Where available, data is analysed by age, sex and indigenous status.

This web-based source of data on health and its determinants is unique in Australia, and has been acknowledged internationally by agencies such as the World Health Organisation. <http://phidu.torrens.edu.au>

Hospitality

Opening your door to the world

Choose from:

Culinary Management
Hospitality Management
International Hotel & Resort Management
Tourism Management

William Blue College of Hospitality Management is the first Hospitality Management College in Sydney. We are proud of our record. Since 1989, we have helped thousands of students become industry professionals – many have global careers with world-class hotel, restaurant, hospitality and travel brands; others have launched successful businesses; we've even trained a MasterChef winner.

The Blue Mountains International Hotel Management School (BMIHMS) at Torrens University Australia is the first of its kind in Australia – an innovative, vibrant and multicultural environment in which to pursue university-level hospitality studies.

Study Hospitality

A key feature of the hospitality industry is travel and the ability to apply your skills all around the world. Torrens University Australia recognises the reasons you chose this great industry and provides campuses that are purpose-built to provide operational training, including a hotel and a restaurant, both of which are open to the public. These will prepare you for your career from the first day you begin your studies.

Within the Hospitality faculty you can choose to study at Blue Mountains International Hotel Management School (BMIHMS) or William Blue College of Hospitality Management (WB). Both schools provide extensive learning and employment outcomes, whether you want to work in a kitchen creating meals or creating guest experiences in a hotel that will be remembered for years to come.

Hospitality degrees offered by Torrens University Australia will give students an opportunity to work for an organisation as part of their degree through an industry placement. Industry placements are designed to be part of each course, to enhance learning and ensure graduates have a résumé to be proud of.

Career

Sven Lee

**Bachelor of Business International Hotel
& Resort Management – Graduate, South Korea**

“Prior to studying with BMIHMS I was working in the airline industry. I have always had an interest in the wider hospitality and tourism industry, but knew that I wanted to upskill and follow my passion of working in hotels. The degrees are so well known for being comprehensive and rigorous that I knew I was going to receive the highest quality education I could.”

Career

Erika Furlanetto

Bachelor of Culinary Management – Graduate Apprentice Chef/Chef at Anason

“My passion for food, led me to move to Australia and study Culinary Management. I discovered William Blue through recommendations from my friends. I was attracted to the dynamic ideas and thinking facilitated by the university, particularly the emphasis on practical learning, networking and industry placement. I studied on campus and online, maintaining a balance between work, study and leisure. Studying on-campus has enabled me to improve my communication skills and cultivate hands-on industry skills. Online study is great when my schedule is tight, and I can only allocate certain hours in the day to study.”

Blue Mountains International Hotel Management School

For over 25 years, Blue Mountains International Hotel Management School (BMIHMS) has been launching the careers of thousands of hotel management graduates in one of the world's fastest-growing industries. What was started in 1991 is now recognised by the industry as the number one hotel management school in Australia (QS Ranking, 2019) and in the Asia Pacific region (TNS Survey, 2017).

BMIHMS offers Bachelor of Business degrees in International Hotel & Resort Management and in Event Management. Courses are delivered across two custom-designed campuses. Undergraduate students study at our applied learning residential campus in Leura in the Blue Mountains, undertake two six-month industry placements and complete business subjects in their third year at the Sydney Town Hall Campus.

William Blue College of Hospitality Management

As the first hospitality management college established in Sydney, we are proud of our record. Since 1989, we have helped thousands of students become industry professionals and over the years we have continued to adapt our courses to reflect the changing needs of the hospitality industry. Our students receive practical training and have global careers with world-class hotel, restaurant, hospitality and travel brands, or launch their own successful businesses; we've even trained a MasterChef winner.

The Sydney Rocks Campus is located on one of the most picturesque harbours in the world. This location, visited by tourists from all over the globe, is an ideal position for the academic campus and the adjacent student-operated fine dining restaurant, open to the public. Students operate William Blue Dining front and back-of-house, offering them a chance to train with real customers. This award-winning restaurant is amongst the top 10 Sydney restaurants on TripAdvisor and regularly receives exceptional reviews by Sydney media and food bloggers.

Quality Assurance

Torrens University Australia applies the same standards of admission and commitment to international students as for Australian students. Our comprehensive student services network ensures you are supported throughout every step of your admission and learning experience, giving you the best possible opportunity to succeed.

Torrens University Australia is registered as a self-accrediting Australian University by Australia's national regulator of higher education, the Tertiary Education and Standards Agency (TEQSA), PRV12209. TEQSA assesses universities for compliance with the Higher Education Standards Framework to ensure a high standard of teaching and curricula, quality student outcomes, and a positive student experience.

The Education Services for Overseas Students Act 2000 (ESOS Act) and related legislation is designed to safeguard the interests of students coming to Australia on student visas. The legislation aims to protect and enhance Australia's reputation for quality education, to provide tuition protection and support the integrity of the student visa program. The ESOS Act ensures that international students studying in Australia receive the same standard of education as Australian students, and are treated fairly regarding the payment of fees and receiving refunds.

Torrens University Australia meets the ESOS requirements as a registered Commonwealth Register of Institutions and Courses for Overseas Students (CRICOS) provider in Australia, CRICOS provider number 03389E.

The Australian Qualifications Framework (AQF) is the Australian national system that sets the standards for Australian qualifications. All courses offered by Torrens University Australia are AQF compliant.

Torrens University Australia acknowledges that circumstances beyond the control of a student may impact on the ability to commence or continue study after tuition fees have been paid. Our International Student Refund Policy outlines the conditions for providing a full or partial refund of fees.

How to Apply

Torrens University Australia Pty Ltd reviews and updates the policies and procedures that apply to all students as part of our Continuous Improvement Strategy. This involves input from all sectors of the University including valuable feedback from students. Please read and become familiar with these policies and procedures. Any feedback you provide to us will be considered at the next review.

Please email any comments to us at academicservices@laureate.net.au

For more information, please visit www.torrens.edu.au/policies-and-forms

The scope of the delegated authority is limited to applications that meet all the required admission criteria. Where an applicant does not meet all the admission criteria, they will be referred to the Program Director (or delegate) for assessment. Decisions about admissions will be based on a documented assessment of the applicant's overall ability to undertake the course and achieve the course learning outcomes.

If the applicant is successful, the University will issue them with an offer letter. An offer letter outlines information about the course or courses in which the applicant is to be enrolled, associated fees, terms and conditions, and other details required under relevant legislation.

Step 1 Application for Enrolment

Please check the entry requirements for your course on torrens.edu.au/courses

International Scholarships

New international students are privy to a scholarship depending on which intake that they commence in, their country of citizenship and the course that they are applying for. From time to time we launch new courses where all new international students are provided an automatic scholarship.
